[Playing the Market](#) Anne Fuchs, 2021-11-22 The relationship between Johannesburg's Market Theatre and the economic and political forces of South Africa's apartheid regime was both complex and somewhat ambiguous The theatre's two founders Mannie Manim and Barney Simon however from idealistic beginnings managed to steer their experimental enterprise around pitfalls ranging from censorship boycotts and recuperation by big business to the difficulties encountered in finding black authors let alone black audiences If the place occupied by the Market institution in apartheid society is emphasized throughout the present study its contribution to the aesthetic of resistance is also underlined through detailed criticism of the plays and authors dominating the theatre Pieter Dirk Uys Barney Simon's workshop plays and among others Black Consciousness plays are subjected to various methods of theatre performance analysis The reckoning that had to come in the early 1990s revealed itself as globally positive the reasons for this may be found in the updated concluding part of

Memory and Community in Sixteenth-Century France David P. LaGuardia,Cathy Yandell,2016-03-03 Memory and Community in Sixteenth Century France engages the question of remembering from a number of different perspectives It examines the formation of communities within diverse cultural religious and geographical contexts especially in relation to the material conditions for producing texts and discourses that were the foundations for collective practices of memory The Wars of Religion in France gave rise to numerous narrative and graphic representations of bodies remembered as icons and signifiers of the religious troubles The multiple sites of these clashes were filled with sound language and diverse kinds of signs mediated by print writing and discourses that recalled past battles and opposed different factions The volume demonstrates that memory and community interacted constantly in sixteenth century France producing conceptual frames that defined the conflicting groups to which individuals belonged and from which they derived their identities The ongoing conflicts of the Wars hence made it necessary for people both to remember certain events and to forget others As such memory was one of the key ideas in a period defined by its continuous reformulations of the present as a forum in which contradictory accounts of the recent past competed with one another for hegemony One of the aims of *Memory and Community in Sixteenth Century France* is to remedy the lack of scholarship on this important memorial function which was one of the intellectual foundations of the late French Renaissance and its fractured communities The Socio-Economics of Roman Storage Astrid Van Oyen,2020-05-14 This is the first archaeological study to approach the central problem of storage in the Roman world holistically across contexts and datasets of interest to students and scholars of Roman archaeology and history and to anthropologists keen to link the scales of farmer and state The Kecak and Cultural Tourism on Bali Kendra Stepputat,2021 The Kecak is one of the most well known dramatic dance performance practices on Bali It is based on stories from the Old Indian epic Ramayana performed by an ensemble of male and female solo dancers and accompanied by a group consisting of approximately 100 men who function both as musical accompaniment and living scenery that can be flexibly choreographed Since its genesis in the 1930s the Kecak has been almost solely performed in a tourist context This book gives a thorough analysis and description of the Kecak in its present form and explores how the Kecak became and stayed a tourist genre for more than 80 years The book is divided into two parts The first part focuses on the Kecak in its present form including musical choreographic and dramatic elements The connection between cultural tourism on Bali and Kecak performance practice is analyzed in detail including the dependency between tourism professionals and artists and ways of promoting the kecak Tourists perspectives on the Kecak are addressed separately The second part deals with the genesis and development of the Kecak from the 1930s onward Administrative Structures and Civil Service in the Sahel Countries Margaret G. otherwise in an uncertain world Bulletin Östasiatiska museet, 2001 **Human Rights in Crisis** Geneviève Souillac, 2005-01-01 Human Rights in Crisis uniquely documents recent ideas on democracy and human rights in the current French intellectual social and political context arguing that the French emphasis on the interdependence between democracy and human rights as a tool for the critique and renewal of democracy is a valid contribution to the global debate on the political philosophy and the ethics of human rights Centering on the work of four prominent contemporary French political philosophers Blandine Kriegel Marcel Gauchet Luc Ferry and Etienne Balibar Geneviève Souillac expertly examines the themes of contestation and reform that are the driving force in the French approach to democracy and human rights
