Alaska Politics and Public Policy Clive S. Thomas, Laura Savatgy, Kristina Klimovich, 2016-09-15 Politics in Alaska have changed significantly since the last major book on the subject was published more than twenty years ago with the rise and fall of Sarah Palin and the rise and fall of oil prices being but two of the many developments to alter the political landscape This book the most comprehensive on the subject to date focuses on the question of how beliefs institutions personalities and power interact to shape Alaska politics and public policy Drawing on these interactions the contributors explain how and why certain issues get dealt with successfully and others unsuccessfully and why some issues are taken up quickly while others are not addressed at all This comprehensive guide to the political climate of Alaska will be essential to anyone studying the politics of America s largest and in some ways most unusual state *ANCSA 1985 Study* United States. Department of the Interior, 1984 *A Bibliography of Alaskan Literature, 1724-1924* James Wickersham, 1927 Contains the titles of all histories travels voyages newspapers periodicals public documents etc printed in English Russian German French Spanish etc relating to descriptive of or published in Russian America or Alaska from 1724 to and including 1924 *Sadie Brower Neakok* Margaret B. Blackman, 1992 This biography of Sadie Brower Neakok of Barrow northern Alaska records the life of the

daughter of an Inupiaq mother and a white father and her successful blending of Eskimo and white traditions in the service of her community The text uses the oral history method of recording information and includes a map and contemporary photographs

The Northern Gold Fleet Clark C. Spence,1996 The Northern Gold Fleet is the story of how new gold dredging technology was applied to the rich placers of the Far North from 1899 to the present leading to mass production and economies of scale that made previously unprofitable resources profitable The bucket ladder dredge was a single complex apparatus that rivaled ocean freighters in size At once ugly spectacular and awesome the dredges dug classified materials and performed gold saving and tailing disposal functions A richly illustrated and comprehensive history The Northern Gold Fleet is part environmental part technological part corporate part labor and part Alaskan in its thrust offering a picture both dazzling and absorbing of how new technology simultaneously helped build the economy and lay waste the resources of Alaska

Yukon Melody Webb,1993-01-01 Covering vast distances in time and space Yukon The Last Frontier begins with the early Russian fur trade on the Aleutian Islands and closes with what Melody Webb calls the technological frontier Colorful and impeccably researched her history of the Yukon Basin of Canada and Alaska shows how much and how little has changed there in the last two centuries Successive waves of traders trappers miners explorers soldiers missionaries settlers steamboat pilots road builders and aviators have come to the Yukon bringing economic and social changes but the immense land remains virtually untouched by permanent intrusions

Community Education for Social Justice Cameron White,2014-02-05 What is community How important is community in the 21st century Where might the idea of community fit in education and schooling teaching and learning These are the questions and themes embedded in this book The general critique is that community is an add on in our schools and often is dismissed as a result of the individualistic and competitive nature of schooling today Our focus is to provide critical investigations as to the possibility of community and that we need community now more than ever The concept of community education brings many ideas and issues to mind Related themes include place based field based environmental service learning and outdoor education Each has its own more narrow focus with community education perhaps an umbrella term than encompasses them all Nevertheless the suggestion here is that instead of community education serving as an extension or add on to traditional approaches it should be the focus of all education What is often missing in teaching and learning are contexts and connections that make education meaningful Community education engages participants in problem and issues based approaches to the local community thereby facilitating that local to global link Instead of compartmentalized subjects integrated approaches use what students and the community know or understand to develop further questions solutions or even problems Community education offers efficacy in that it provides opportunities for collaboration in addressing local issues and problems It enables the community to become the classroom thus ensuring a more long term connection to active rather than passive endeavors as citizens
