Beyond Alcoholism Dan E. Beauchamp, 1980 *Prevention of Alcohol Abuse* Peter M. Miller, Ted D. Nirenberg, 2012-12-06 The abuse of alcohol presents a major health problem throughout the world Until recently both clinical and research efforts have been geared toward treatment and rehabilitation of alcoholism With the growing number of problem drinkers entering treatment the need for a better understanding of the prevention of alcohol abuse has become increasingly evident Although still in its infancy the field of alcoholism prevention is growing at a rapid rate Increasing numbers of behavioral scientists throughout the world are conducting or planning prevention projects Policy planners school administrators military agencies community groups state and local alcoholism agencies and industries are initiating alcohol abuse prevention programs with fervor Legislators at all levels of government are also developing a keen interest in legislation aimed at reducing the extent of problem drinking This book represents one of the first systematic attempts to compile a comprehensive text on the prevention of alcohol abuse Many of the contributors to *Prevention of Alcohol Abuse* have international reputations that strengthen their understanding of the complex nature of prevention By providing a critical review of the current knowledge about prevention the text will serve to stimulate and lay the groundwork for further prevention efforts We thank all of the chapter authors for their excellent contributions It is through their efforts that the field will thrive Our appreciation also is expressed to Leonard Pace formerly of Plenum Press for his encouragement and helpful comments in the development of the text *Alcohol Problems* Cooperative Commission on the Study of Alcoholism, Thomas F. particular difficulties faced by ethnic migrant and homeless groups and this emphasis on the centrality of social disadvantage leads on to a consideration of a specific social work role in the assessment and management of alcohol related problems Alcohol Problems in the Community is aimed at social work practitioners and students on prequalifying qualifying and postqualifying social work courses and it addresses key social work issues in relation to poverty homelessness discrimination and drinking problems **Alcohol Problems and Alcohol Control in Europe** Phil Davies, Dermot Walsh, 1983 *Alcohol and Public Policy* National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Assembly of Behavioral and Social Sciences, Committee on Substance Abuse and Habitual Behavior, Panel on Alternative Policies Affecting the Prevention of Alcohol Abuse and Alcoholism, 1981-02-01

Alcohol Problems David Robinson, 1979 **Alcohol and the Community** Harold D. Holder, 1998-03-05 An individual's decision to use alcohol and the frequency quantity and situations of use are the result of a combination of biological and social factors Drinking is not only a personal choice but also a matter of custom and social behavior and is influenced by access and economic factors including levels of disposable income and cost of alcoholic beverages Until prevention efforts cease to focus narrowly on the individual and begin to adopt broader community perspectives on alcohol problems and strategies to reduce them these efforts will fail The author challenges the current implicit models used in alcohol problem prevention and demonstrates an ecological perspective of the community as a complex adaptive system composed of interacting subsystems This important volume represents a new and sensible approach to the prevention of alcohol dependence and alcohol related problems *Familial Responses to Alcohol Problems* Judith L.
