Alcohol And Culture Comparative Perspectives From Europe And America:

Alcohol and Culture Thomas Babor,1986 *Alcohol and Culture* ,1986 **Alcoholism in North America, Europe, and Asia** John E. Helzer,Glorisa J. Canino,1992 This volume represents a landmark in the important and rapidly expanding literature of cross cultural epidemiology that has been made possible by the worldwide popularity of the DSM III and the multi national use of a single survey instrument the Diagnostic Interview Schedule DIS Reviewing population survey findings across ten regions of North America Europe and Asia this study is the first direct cross national comparison of personal interview data on alcoholism including prevalence rates and risk factors The book carefully describes the background of the various surveys and the methods of analysis and comparison Chapters on each region describe the prevalence of drinking problems the symptomatic expression of alcoholism in that culture aspects of the cultural background that are relevant to drinking behavior and the association between alcoholism and other psychiatric disorders Of particular importance in this volume is the inclusion of a chapter on alcoholism in the Socialist Republic of China from which very little scientific information has been readily available The inclusion of eastern and western cultural perspectives offers insight into both universal and culturally distinct aspects of alcoholism The volume is essential reading for psychiatrists epidemiologists sociologists and alcohol theorists researchers and clinicians **Alcohol and Emerging Markets** Marcus Grant,1998 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company **NIDA Research Monograph** ,1976

Improving Drug Abuse Treatment National Institute on Drug Abuse,1991 This monograph is based on the papers and discussion from a technical review on Improving Drug Abuse Treatment held on August 28 30 1989 in Bethesda MD The review meeting was sponsored by the National Institute on Drug Abuse Deadly Medicine Peter C. Mancall,1995 Mancall explores the liquor trade s devastating impact on the Indian communities of colonial America National Library of Medicine Current Catalog National Library of Medicine (U.S.),1987 **The Psychology of Eating and Drinking** Alexandra W. Logue,2013-02 Logue grounds her investigation into the complex interactions between human physiology environment eating habits in laboratory research up to date scientific information Triumphs of Experience George E. Vaillant,2012-10-30 At a time when people are living into their tenth decade the longest longitudinal study of human development ever undertaken offers welcome news for old age our lives evolve in our later years and often become more fulfilling Among the surprising findings people who do well in old age did not necessarily do so well in midlife and vice versa

Health Care in Maya Guatemala John Palmer Hawkins,2007 This book examines medical systems and institutions in three K'iche' Maya communities to reveal the conflicts between indigenous medical care and the Guatemalan biomedical system It shows the necessity of cultural understanding if poor people are to have access to medicine that combines the best of both local tradition and international biomedicine Educating Young Drinkers Gellisse Bagnall,2023-12-01 Young people are regarded as vulnerable by the media often exaggeratedly so In the early 1990s they had become the focus of public

concern regarding alcohol misuse But attempts to educate teenagers into using alcohol sensibly have often been counterproductive What kind of approach should alcohol education take to produce effective results Originally published in 1991 Educating Young Drinkers outlines the reasons for the lack of success in previous experiments in alcohol education at the time It focuses on an activity based primary intervention with young people as a possible solution With the active involvement of school teachers Gellisse Bagnall had developed a relevant and pupil oriented programme designed for easy classroom use The evaluation of the results of this experiment demonstrated that non didactic alcohol education can be made to work In emphasizing the political and theoretical assumptions made in devising health education policies Educating Young Drinkers was directly relevant to social scientists within alcohol and or health education as well as to policy makers It would also be a valuable source of information for teachers and all those working with young people

The Social Importance of Self-Esteem Andrew Mecca, Neil J. Smelser, John Vasconcellos, 1989-08-15 Is the well being of a society dependent on the well being of its citizenry Does individual self esteem play a causal role in chronic social problems such as child abuse school drop out rates teenage pregnancy alcohol and drug abuse welfare dependency In an attempt to answer these questions the State of California established a task force on self esteem and social responsibility in 1987 The aim of this body was to determine what connections might exist between these two factors and to suggest policy guidelines relating to the welfare of Californians and to the expenditure of public resources The ten essays in this volume prepared by faculty members of the University of California draw on research in the social and behavioral sciences to explore these issues They assess the substantive assertions and research findings in the field and make careful evaluations of their reliability and validity In many cases strong connections between self esteem and problematic behavior are established in others the connections are weak and in some the causal relationship is as yet imperfectly understood One of the conclusions of the book is that research on these issues needs to be improved particularly in the areas of comparative and longitudinal studies Guidelines for future research are suggested and some points of policy direction are elaborated These essays may indeed promote additional research for the premise that social stability and welfare are largely dependent on the psychological state of a people poses a challenging and provocative counter emphasis to the assumption that social institutions are the primary determinants of individual welfare
