Chesnut,2015-07-17 The story of Father Ed Dowling S J the Jesuit priest who served for twenty years as sponsor and spiritual guide to Bill Wilson the co founder of Alcoholics Anonymous An icy evening in December 1940 saw the first meeting of two extraordinary spiritual leaders Father Ed said that the graces he received from meeting Bill Wilson were as great as those he had received from his ordination as a priest and Bill in turn described encountering the Jesuit as being like a second conversion experience where he could feel the transcendent presence of God filling the entire room with grace The good priest taught Wilson about St Ignatius Loyolas Spiritual Exercises about the eternal battle between good and evil which the Spanish saint described in that book and explained the Jesuit understanding of the way we can use our deepest emotions to

receive guidance from God while serving on that battlefield The co founder of the twelve step movement in turn supplied Father Ed with some of the most valuable tools he possessed for carrying out small group therapy on a wide range of different kinds of troubled people Together the two men discussed Poulains Graces of Interior Prayer and Bills attempts to make spiritual contact with both spooks and saints and explored the world of LSD experiences and the teachings of the Catholic Hindu and Buddhist mystics in Aldous Huxleys Perennial Philosophy And we will see how Father Ed with his deep social conscience helped Bill W turn his book on the Twelve Traditions into a Bill of Rights for the twelve step movement and how he laid out his own spiritual vision of Alcoholics Anonymous at the A A International in St Louis in 1955 Cured Dick B.,2006 Early AAs were cured of Alcoholism For a decade the pioneers said so Alcoholism can still be cured and this book explores in detail the myth that revisionists therapists and treatment folk have perpetuated while ignoring that the original cures were achieved by reliance on the Creator The whole meaning history and detours of the cure situation are thoroughly explored Recent Developments in Alcoholism Marc Galanter,1989-01-31 From the President of the Research Society on Alcoholism In the last decade research concerning the causes and consequences of alcohol abuse and alcoholism has come of age We have witnessed a plethora of scientific findings that have shed light on some of the actions of alcohol at the molecular level Interesting new data have been forthcoming on the complexities of the development of tolerance to alcohol It is becoming increasingly appropriate to consider that tolerance to alcohol involves biological as well as psychological factors New scientific insights have been gained concerning the treatment of withdrawal as well as the presence of persistent withdrawal signs that may possibly be involved with relapse More recently new and compelling data indicating that alcoholism is a common familial disorder have appeared Clinical studies indicate that alcoholism is a heterogeneous disorder with multiformity in clinical symptomatology and genetic heterogeneity The heterogeneity of the clinical features and the heritability of the predisposing factors of alcoholism are currently under vigorous scientific investigation In the past several years sophisticated psychosocial studies have provided fundamental information on subjects at high risk for alcoholism Psychosocial and biological studies of families including alcoholics and subjects at high risk are likely to bring new insights to our understanding of etiological factors Moreover as a result of these studies we stand to develop better prevention initiatives and treatment approaches **The British National Bibliography** Arthur James Wells,1995
