Alcoholism Peter E. Nathan, G. Alan Marlatt, 2012-12-06 This book contains the fifteen invited papers delivered at the NATO International Conference on Experimental and Behavioral Approaches to Alcoholism held August 28 through September 1 1977 at the Solstrand Fjord Hotel Os Norway The editors of the book were Co Directors of that conference As well 65 other scientists from 12 countries in the free world presented scientific papers on experimental and behavioral topics of relevance to alcoholism at the meeting A most receptive audience of almost 200 persons also participated actively in the discussions which followed every invited and contributed paper The beauty of Norway the hospitality of the proprietors of the Sol strand Fjord Hotel the aura of Grieg and Trolldhaugen the enthusiasm of the speakers and participants all combined to make the conference most memorable for those who attended it Many persons and institutions deserve special thanks for their part in the success of the conference Among these persons are Dr *Clinical Case Studies in the Behavioral Treatment of Alcoholism* William M. Hay, Peter E. Nathan, 2012-12-06 There is no shortage of books on behavioral research on behavioral research on alcoholism or on behavioral research on alcoholism treatment Most of the authors of chapters in this book have been involved in the writing of these books The books and their authors have played an important role in the dramatic increase in the influence of behavioral approaches to one of our society's most troubling human problems There are not many books though which detail the longitudinal course of the behavioral therapies none doing so for behavior therapy with alcoholics and problem drinkers That this book now appears then is a first made more valuable by the fact that the chapter's authors are both researchers and clinicians willing and able to combine respect for empirical data with clinical sensitivity and compassion concern and commitment for their patients The chapters in this book reveal important commonalities and telling divergencies in technique strategy and treatment tactics Despite a common perspective on etiology and treatment the authors of the chapters in this book diverge in criteria for deciding on treatment goal choice of initial intervention target the specifics of techniques used and follow up procedures Common to all though is an openness to innovation a pragmatic appreciation of approaches that work and a sincere respect for the patient and his or her fundamental desire for a healthy happier and more productive life Recent Developments in Alcoholism Marc Galanter, 2013-03-09 The purpose of this series is to provide an overview of recent research developments in the field of alcoholism so that interested professionals and researchers may keep abreast of this complex multidisciplinary work These annual volumes will present a scholarly review and analysis of selected research topics prepared by leading figures in the field Where appropriate the attempt is made to present contrasting perspectives and views particularly on issues where there is ongoing controversy The American Medical Society on Alcoholism and the Research Society on Alcoholism have undertaken this collaborative venture because of the perceived need for such a comprehensive resource These groups are both component organizations of the National Council on Alcoholism a broad based coalition which supports alcoholism treatment training and research on a

national and international level This professional network has enabled us to draw on a panel of Associate Editors and on authors of international prominence The series should reflect a sophistication that will allow it to serve as a standard reference for the field
