French Twentieth Bibliography, 1990 This series of bibliographical references is one of the most important tools for research in modern and contemporary French literature No other bibliography represents the scholarly activities and publications of these fields as completely *Reading Apollinaire's Alcools* Willard Bohn, 2016-10-27 Reviewing the previous scholarship for seventeen of the most important poems in *Alcools* this book provides a detailed analysis of each work and includes a state of the art survey of current Apollinaire criticism Besides acquainting readers with the existing scholarship the book considers all the interpretations that have been proposed and indicates profitable directions to pursue Each poem is subjected to a rigorous line by line analysis that engages in a succession of dialogues with previous critics The studies themselves are arranged in roughly chronological order beginning with the Rh nanes in 1901 1902 and concluding with *Zone* in 1912 Although each chapter is basically conceived as an independent unit readers are able to follow the evolution of Apollinaire s aesthetics from his first mature creations through his subsequent experiments with fantastic hermetic visionary and cubist poetry At the same time they witness Apollinaire s personal evolution from his infatuation with Annie Playden through a period of deep depression his love affair with Marie Laurencin and the aftermath of that relationship **Choix de poèmes** Jules Laforgue, 1966 **Alcools** Guillaume Apollinaire, 1970 *Revue Roumaine de Linguistique*, 1985

sur Apollinaire conteur ou romancier et met au jour les significations multiples d'une œuvre de fiction pleine de surprises. S'il garde la ligne directrice de l'héritage Apollinaire et ses récits se préservent de la tentation réductrice de l'interprétation unique. Il invite une lecture renouvelée de L'Hérétique et Cie du Poète assassin et des autres contes, une découverte des romans moins connus attachants dans leur imperfection, même une redécouverte des romans pornographiques qui par-delà leurs excès ou justement dans leurs excès se révèlent comme des œuvres authentiquement apollinariennes. Après avoir parcouru toutes ces pages, le lecteur qui s'efforce de comprendre les ressorts de la création narrative d'Apollinaire pourra penser ce vers de Lettre Occidentale : j'en ai vu mille et mille.
