Alaskas No1 Guide The History And Journals Of Andrew Berg 18691939:

Alaska's No. 1 Guide Catherine Cassidy, 2003 Andrew Berg was miner hunter trapper fisherman warden and Alaska's first licensed hunting guide More than a biography this is a well documented history of the early American settlement of the Kenai Peninsula **The Hunter Elite** Tara Kathleen Kelly, 2018-03-15 At the end of the nineteenth century Theodore Roosevelt T S Van Dyke and other elite men began describing their big game hunting as manly sport with the rifle They also began writing about their experiences publishing hundreds of narratives of hunting and adventure in the popular press and creating a new literary genre in the process But why did so many of these big game hunters publish What was writing actually doing for them and what did it do for readers In exploring these questions The Hunter Elite reveals new connections among hunting narratives publishing and the American conservation movement Beginning in the 1880s these prolific hunter writers told readers that big game hunting was a test of self restraint and manly virtues and that it was not about violence They also opposed their sportsmanlike hunting to the slaughtering of game by British imperialists even as they hunted across North America and throughout the British Empire Their references to Americanism and manliness appealed to traditional values but they used very modern publishing technologies to sell their stories and by 1900 they were reaching hundreds of thousands of readers every month When hunter writers took up conservation as a cause they used that reach to rally popular support for the national parks and for legislation that restricted hunting in the US Canada and Newfoundland The Hunter Elite is the first book to explore both the international nature of American hunting during this period and the essential contributions of hunting narratives and the publishing industry to the North American conservation movement **Alaska History**, 2002 **Gender, Companionship, and Travel** Floris Meens, Tom Sintobin, 2018-12-07 Over the last couple of decades there has been a strong academic interest in how individuals interact with each other while en route Yet even if various studies have informed us about present day realities of travel companionships we know little about the influence of gender both on these realities as well as on the discourse in which these are being narrated This book aims to establish an agenda for the study of companionship in travel writing by offering a collection of new essays which study texts that belong to the broad category of pre modern and modern travel literature Chapters explore the differences and similarities in the ways that women and men in the past chose to describe their experiences with and or their ideas about companionship and specifically reveals the influence of gender norms conventions restrictions and stereotypes This is the first book which looks at the long term interdisciplinary and genuinely international history of gendered discourses on companionship in travel writing It will be of interest to scholars and students from a wide variety of disciplines including cultural and social history as well as cultural literary gender travel and tourism studies **America, History and Life**, 2005 Article abstracts and citations of reviews and dissertations covering the United States and Canada *Books in Print*, 1991
