Warriors of the Himalayas Donald J. LaRocca, Metropolitan Museum of Art (New York, N.Y.), 2006 The first in depth examination of the fascinating and virtually unknown of armor and

weapons from Tibet dating from the 13th to the 20th century *Mir'āt al-quḍs (Mirror of Holiness): A Life of Christ for Emperor Akbar* Pedro Moura Carvalho, 2011-11-25 Emperor Akbar's exceptional interest in Christianity is reflected in many ways. Among these was his commissioning in 1602 of a Life of Christ from his guest the Jesuit priest Jerome Xavier, thus marking a singular moment in the relations between one of the greatest Muslim rulers and Catholicism. This fascinating text, translated into English for the first time, draws mostly on Biblical and apocryphal sources but also reveals that in order not to antagonize his Muslim hosts, Father Jerome occasionally made concessions in his work. Of the three illustrated copies, the one used in this study and now in the Cleveland Museum of Art is the most important. Its twenty-seven high-quality miniatures were inspired by the text itself, resulting in unique interpretations of episodes that often do not find parallels in a European context. margin 0 0px 0 0px 0 0px 0 0px font 14 0px Verdana As an art form, jewelry is defined primarily through its connection to and interaction with the body, extending it, amplifying it, accentuating it, distorting it, concealing it, or transforming it. Addressing six different modes of the body: Adorned, Divine, Regal, Transcendent, Alluring, and Resplendent, this artfully designed catalogue illustrates how these various definitions of the body give meaning to the jewelry that adorns and enhances it. Essays on topics spanning a wide range of times and cultures establish how jewelry was used as a symbol of power, status, and identity, from earflares of warrior heroes in Pre-Columbian Peru to bowknot earrings designed by Yves Saint Laurent. These most intimate works of art provide insight into the wearers but also into the cultures that produced them. More than 200 jewels and ornaments, alongside paintings and sculptures of bejeweled bodies, demonstrate the social, political, and aesthetic role of jewelry from ancient times to the present. Gorgeous new illustrations of Bronze Age spirals, Egyptian broad collars, Hellenistic gold armbands, Japanese courtesan hair adornments, jewels from Mughal India, and many, many more explore the various facets of jewelry and its relationship to the human body over 5,000 years of world history. **Art of the Royal Court** Wolfram Koeppe, Anna Maria Giusti, Cristina Acidini Luchinat, Metropolitan Museum of Art (New York, N.Y.), 2008 In the royal and princely courts of Europe, artworks made of multicolored semiprecious stones were passionately coveted objects. Known as *pietre dure* or hardstones, this type of artistic expression includes paintings in stone, which were composed of intricately cut separate pieces that were made into magnificent tabletops, cabinets, and wall decorations. Other works included vessels and ornaments carved with virtuosic skill from a single piece of rare and brilliant lapis lazuli, chalcedony, jasper, or similarly prized substance. Exquisite objects such as boxes, clocks, and jewelry and portraits of nobles sculpted in variously colored stones. Derived from ancient Roman decorative stonework, the art of *pietre dure* was developed in Renaissance Florence, where the manufacture of such objects was enthusiastically sponsored by Medici princes. Ideally suited for ostentatious display, the works sent an unmistakable message of wealth and political might that was understood in centers of power.
