The Smell of Risk Hsuan L. Hsu,2020-12-15 A timely exploration of how odor seeps into structural inequality Our sense of smell is a uniquely visceral and personal form of experience As Hsuan L Hsu points out smell has long been spurned by Western aesthetics as a lesser sense for its qualities of subjectivity volatility and materiality But it is these very qualities that make olfaction a vital tool for sensing and staging environmental risk and inequality Unlike the other senses smell extends across space and reaches into our bodies Hsu traces how writers artists and activists have deployed these embodied biochemical qualities of smell in their efforts to critique and reshape modernity s olfactory disparities The Smell of Risk outlines the many ways that our differentiated atmospheres unevenly distribute environmental risk Reading everything from nineteenth century detective fiction and naturalist novels to contemporary performance art and memoir Hsu takes up modernity s differentiated atmospheres as a subject worth sniffing out From the industrial revolution to current day environmental crises Hsu uses ecocriticism geography and critical race studies to for example explore Latinx communities exposed to freeway exhaust and pesticides Asian diasporic artists response to racialized discourse about Asiatic odors and the devastation settler colonialism has reaped on Indigenous smellscape In each instance Hsu demonstrates the violence that air maintenance control and conditioning enacts on the poor and the marginalized From nineteenth century miasma theory theory to the synthetic chemicals that pervade twenty first century air Hsu takes smell at face value to offer an evocative retelling of urbanization public health and environmental violence

The Rise of Pacific Literature Matthew Hayward, Maebh Long,2024-09-03 In the 1960s and 1970s the staff and students of two newly founded universities in the Pacific Islands helped foster a golden age of Oceanian literature At the University of Papua New Guinea and the University of the South Pacific bold experiments in curriculum design recentered literary studies around a Pacific modernity Rejecting the established British colonial model writer scholars placed

Pacific oratory and a growing body of Oceanian writing at the heart of the syllabus From this local core students ventured outward to contemporary postcolonial literatures where they saw modernist techniques repurposed for a decolonizing world Only then did they turn to foundational modernist texts encountered at last as a set of creative tools rather than a canon to be copied or learned by rote The Rise of Pacific Literature reveals the transformative role and radical adaptations of global modernisms in this golden age Maebh Long and Matthew Hayward examine the reading and teaching of Pacific oral narratives European and American modernisms and African Caribbean and Indian literature tracing how Oceanian writers appropriated and reworked key texts and techniques They identify the local innovations and international networks that spurred Pacific literature s golden age by reading crucial works against the poetry prose and plays on the syllabi of the new universities Placing internationally recognized writers such as Albert Wendt Subramani Konai Helu Thaman Marjorie Crocombe and John Kasaipwalova alongside lesser known authors of works published in Oceanian little magazines this book offers a wide ranging new account of Pacific literary history that tells a fresh story about modernism s global itineraries and transformations

Postcolonial Pacific Writing Michelle Keown, 2004-12-17 This major new interdisciplinary study focuses on the representation of the body in the work of eight of Polynesia s most significant contemporary writers Drawing

on anthropology psychoanalysis philosophy history and medicine Postcolonial Pacific Writing develops an innovative postcolonial framework specific to the literatures and cultures of this region

Travel and Ethics Corinne Fowler, Charles Forsdick, Ludmilla Kostova, 2013-12-13 Despite the recent increase in scholarly activity regarding travel writing and the accompanying proliferation of publications relating to the form its ethical dimensions have yet to be theorized with sufficient rigour Drawing from the disciplines of anthropology linguistics literary studies and modern languages the contributors in this volume apply themselves to a number of key theoretical questions pertaining to travel writing and ethics ranging from travel as commoditization to encounters with minority languages under threat Taken collectively the essays assess key critical legacies from parallel disciplines to the debate so far such as anthropological theory and postcolonial criticism Also considered and of equal significance are the ethical implications of the form s parallel genres of writing such as ethnography and journalism As some of the contributors argue innovations in these genres have important implications for the act of theorizing travel writing itself and the mode and spirit in which it continues to be conducted In the light of such innovations how might ethical theory maintain its critical edge

Routes and Roots Elizabeth DeLoughrey, 2009-12-31 Elizabeth DeLoughrey invokes the cyclical model of the continual movement and rhythm of the ocean tidalectics to destabilize the national ethnic and even regional frameworks that have been the mainstays of literary study The result is a privileging of alter native epistemologies whereby island cultures are positioned where they should have been all along at the forefront of the world historical process of transoceanic migration and landfall The research determination and intellectual dexterity that infuse this nuanced and meticulous reading of Pacific and Caribbean literature invigorate and deepen our interest in and appreciation of island literature Vilsoni Hereniko University of Hawai i Elizabeth DeLoughrey brings contemporary hybridity diaspora and globalization theory to bear on ideas of indigeneity to show the complexities of native identities and rights and their grounded opposition as indigenous regionalism to free floating globalized cosmopolitanism Her models are instructive for all postcolonial readers in an age of transnational migrations Paul Sharrad University of Wollongong Australia Routes and Roots is the first comparative study of Caribbean and Pacific Island literatures and the first work to bring indigenous and diaspora literary studies together in a sustained dialogue Taking the tidalectic between land and sea as a dynamic starting point Elizabeth DeLoughrey foregrounds geography and history in her exploration of how island writers inscribe the complex relation between routes and roots The first section looks at the sea as history in literatures of the Atlantic middle passage and Pacific Island voyaging theorizing the transoceanic imaginary The second section turns to the land to examine indigenous epistemologies in nation building literatures Both sections are particularly attentive to the ways in which the metaphors of routes and roots are gendered exploring how masculine travelers are naturalized through their voyages across feminized lands and seas This methodology of charting transoceanic migration and landfall helps elucidate how theories and people travel positioning island cultures in the world historical process In fact DeLoughrey demonstrates how these tropical

island cultures helped constitute the very metropolises that deemed them peripheral to modernity Fresh in its ideas original in its approach Routes and Roots engages broadly with history anthropology and feminist postcolonial Caribbean and Pacific literary and cultural studies It productively traverses diaspora and indigenous studies in a way that will facilitate broader discussion between these often segregated disciplines

Postcolonial Theory and Crisis Paulo de Medeiros, Sandra Ponzanesi, 2024-04-01 In the millennial transition the prefix post had come to signify more and more not just the realisation of a coming after but also of the impossibility of not seeing the present as still very much working through the wounds of the past Yet with the appearance of pseudo concepts such as post truth after an equally imaginary death of History the logic of the post itself always already under questioning may appear to have outlived its usefulness How to make sense of postcolonial theory in Europe in the present One way might be to renew its significance as world conflicts have entered a new post imperial phase with the return of ideologies of empire in various parts of the world The essays in this volume address those questions at both a conceptual theoretical level and through the analysis of specific case studies In the Introduction Paulo de Medeiros and Sandra Ponzanesi review the main questions outlined above in relation to the current debates in the Humanities from their respective disciplinary perspectives The volume is organised in four sections each containing four chapters Even though all the chapters present a reflection on Postcolonial Theory and Crisis some focus more specifically on aspects of the crisis in a global perspective such as humanitarian crisis and the role of mediatization of conflicts to issues related to human rights refugees migrancy environmental crisis to questions of memory and postmemory as well as the critique of art and utopian thought

The Idea of the Antipodes Matthew Boyd Goldie, 2010-01-31 A study that uses critical theory to investigate the history of how people have thought about the antipodes the places and people on the other side of the world from ancient Greece to present day literature and digital media

Decolonizing Cultures in the Pacific Susan Y. Najita, 2006-09-22 In *Decolonizing Cultures in the Pacific* Susan Y Najita proposes that the traumatic history of contact and colonization has become a crucial means by which indigenous peoples of Oceania are reclaiming their cultures languages ways of knowing and political independence In particular she examines how contemporary writers from Hawai i Samoa and Aotearoa New Zealand remember re tell and deploy this violent history in their work As Pacific peoples negotiate their paths towards sovereignty and chart their postcolonial futures these writers play an invaluable role in invoking and commenting upon the various uses of the histories of colonial resistance allowing themselves and their readers to imagine new futures by exorcising the past *Decolonizing Cultures in the Pacific* is a valuable addition to the fields of Pacific and Postcolonial Studies and also contributes to struggles for cultural decolonization in Oceania contemporary writers critical engagement with colonialism and indigenous culture Najita argues provides a powerful tool for navigating a decolonized future

Cultures of Commemoration Keith L. Camacho, 2011-11-30 In 1941 the Japanese military attacked the US naval base Pearl Harbor on the Hawaiian island of O ahu Although much has been debated about this event and the wider American and Japanese involvement in the war few scholars have explored the Pacific War s impact on Pacific Islanders Cultures of Commemoration fills this crucial gap in the historiography by advancing scholarly understanding of Pacific Islander relations with and knowledge of American and Japanese colonialisms in the twentieth century Drawing from an extensive archival base of government military and popular records Chamorro scholar Keith L Camacho traces the formation of divergent colonial

and indigenous histories in the Mariana Islands an archipelago located in the western Pacific and home to the Chamorro people He shows that US colonial governance of Guam the southernmost island and that of Japan in the Northern Mariana Islands created competing colonial histories that would later inform how Americans Chamorros and Japanese experienced and remembered the war and its aftermath Central to this discussion is the American and Japanese administrative development of loyalty and liberation as concepts of social control collective identity and national belonging Just how various Chamorros from Guam and the Northern Mariana Islands negotiated their multiple identities and subjectivities is explored with respect to the processes of history and memory making among this Americanized and Japanized Pacific Islander population In addition Camacho emphasizes the rise of war commemorations as sites for the study of American national historic landmarks Chamorro Liberation Day festivities and Japanese bone collecting missions and peace pilgrimages Ultimately Cultures of Commemoration demonstrates that the past is made meaningful and at times violent by competing cultures of American Chamorro and Japanese commemorative practices
