Albert Frey Architekt:

Albert Frey, Architect Joseph Rosa, 1999-11 Lavishly illustrated with over 200 duotone plates many by noted photographer Julius Shulman **Albert Frey House 1 + 2 Slipcase** Jennifer Golub, Albert Frey, 1998-09 This monograph showcases two houses architect Albert Frey built for himself in the Southern California desert In keeping with Frey s principles of paralleling the simplicity of nature in his work both houses have a modern aesthetic but are fully incorporated into their natural surroundings Albert Frey, Architekt Joseph Rosa, 1995 **Albert Frey** Gloria Koenig, 2017 Meet desert modernist Albert Frey the Zurich born architect who brought notes of Bauhaus De Stijl and Le Corbusier to the West Coast From his European beginnings Frey developed a unique architectural brand one that would redefine midcentury California through sleek leisurely structures nestled among the arid landscapes of Palm Springs and beyond In Search of a Living Architecture Albert Frey, 1939 **Albert Frey: Inventive Modernist** Brad Dunning, 2024-05-07 A comprehensive volume on Swiss American architect Albert Frey whose simple but severe style of Desert Modernism cemented his legacy as one of the most influential architects worldwide Inventive Modernist tracks the scope and significance of Frey s career from his early days in Paris working with Le Corbusier to his rise as the iconic architect of Palm Springs With full access to Frey s various archives the book provides many rare and previously unexhibited architectural models drawings films photographs and furniture and offers an exceptional visual guide that goes far beyond the mere documentation of finished buildings New academic research in depth essays and a thorough illustrated listing of the architect s projects between 1925 and 1997 serve to contextualize Frey s relevance today while securing his importance as a twentieth century architectural master Modern Movement Heritage Allen Cunningham, 2013-10-18 An introduction to the subject and the specific problems related to the conservation of modern structures Celebrating the first five years of DoCoMoMo s role and influence this collection covers policy planning and construction **The Invention of the American Desert** Lyle Massey, James Nisbet, 2021-11-02 Introduction Lyle Massey and James Nisbet Desolate dreams Joseph Masco Air wind breath life desertification and Will Wilson s AIR Auto Immune Response Jessica L Horton Notes from bioteknika Albert Narath Troglodyte modernists Lyle Massey Explosive modernism Hiram Hudson Benedict s Bouldereign and Zabriskie Point at 50 Edward Dimendberg Point Omega Omega Point desert In three parts Stefanie Sobelle The desert in fine grain Emily Eliza Scott The desert as black mythology Bridget R Cooks On the recalcitrance of the desert island by way of Andrea Zittel s A Z West James Nisbet Four theses for the coming deserts Hans Baumann and Karen Pinkus **Europe Meets America** Gaia Caramellino, 2016-08-17 An analysis of the New York professional milieu between the Wall Street Crash of 1929 and the aftermath of WWII reveals an unexpected scenario in which diverse branches of technical culture and professional and institutional spheres often overlap and initiatives in the field of architecture are characterised by tensions between designers and technicians which pave the way for issues of architects autonomy responsibility and social roles in the New Deal From an

initial portrayal of William Lescaze 1896 1969 as an unconventional figure straddling two continents this book challenges a long established interpretation that sees Lescaze exclusively as promoter of the International Style canons in the United States Moving beyond it this book focuses on the role that the Swiss architect played in defining the main features of New York social housing and in the evolution that marks the encounter between European modernity and an American federal scene still profoundly tied to local conventions From an initially difficult status as an migr to his involvement in decisional processes and bureaucratic organisations Lescaze s professional progress coincides with the gradual acceptance of European forms and models which little by little became part of the institutional language related to public housing which would remain prevalent in New York City until the end of WWII Drawing from yet unpublished archival sources pertaining to two fields housing and architecture which have traditionally been separate in American historiography this book sheds light on many crucial issues in a branch of architecture that is particularly relevant today The Palm Springs School: Desert Modernism 1934-1975 Alan Hess,2025-02-11 Palm Springs is at the center of a unique tradition in architecture marked by invention and a sensitivity to local conditions that has resulted in design that exerts an influence far greater than the town s small size The book is the first to fully explore the wide ranging forms this architecture has taken from houses to gas stations hotels to airports banks to restaurants and spas Much more than a resort destination Palm Springs has served as a laboratory of the Modern here so much architectural innovation and design took form From the steel and glass boxes of Richard Neutra to the earthy organic homes of John Lautner and everything in between the solutions of architects and designers including notably William F Cody E Stewart Williams and Albert Frey were diverse and are ever more relevant in the face of contemporary challenges Their answers addressed questions that still hold urgency How to design sustainably in harsh climates How to use technology efficiently and creatively to meet those challenges How to build affordable and high quality mass produced housing How to reflect a region s culture economy and distinctive atmosphere Architects here responded to nature s climatological demands and Palm Springs became a center for innovations that were rooted in practice more than theory Benefitting from the architectural freedoms offered by the remoteness of the California desert designers explored new approaches that we can now identify as central to the Palm Springs School shown here in rich archival and contemporary photography The Portfolio and the Diagram Hyungmin Pai,Hyöng-min Pae,2002 A history of modern architecture as a discursive practice **Modern Schools** T. Hille,2012-01-20 Modern Schools A Century of Design for Education is a comprehensive survey of modern K 12 schools from Frank Lloyd Wright to Morphosis an in depth design study that explores the fundamental relationship between architecture education and the design of contemporary learning environments Its focus is on the underlying design themes and characteristic features that support and enhance basic aspects of learning and in the process create an architectural expression that is both meaningful and lasting The breadth of its scope includes influences of contemporary educational ideas and practices related design concepts and strategies and most importantly the

Stephen Sennott,2004 A balance of sophistication and clarity in the writing authoritative entries and strong cross referencing that links architects and structures to entries on the history and theory of the profession make this an especially useful source on a century of the world s most notable architecture The contents feature major architects firms and professional issues buildings styles and sites the architecture of cities and countries critics and historians construction materials and planning topics schools movements and stylistic and theoretical terms Entries include well selected bibliographies and illustrations Reference that rocks American Libraries May 2005 *The Grove Encyclopedia of American Art* Joan M. Marter,2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries *Place-Based Sustainability* Jason Montgomery,2022-12-15 Global challenges instigated by climate change and urbanisation are driving research seeking appropriate and effective strategies for social economic and environmental sustainability While technical advancements are a major focus for sustainable development there are important research avenues that explore the relationship of place and sustainability from a number of perspectives Place based sustainability research identifies activities and initiatives that need to be layered and integrated with technological advances but also help drive them This research can facilitate the well considered steering of sustainable development and practices the essence of stewardship of place This volume of a wide range of research and design approaches by a diverse group of authors of various disciplines reveals new perspectives on the relationship of the culture of place and sustainability The central narrative that emerges from the chapters of this book is the critical cultural relationship of people to their environment both built and natural The authors delve into this relationship and see new approaches to support our awareness and appreciation of the nature of our cities and countryside as an integral ecosystem thereby having

the potential to nurture social values and political will for increasing our sustainable practices and resilience The authors extend to us pathways for stewardship of our cities and countryside that are essential if we are to contend with the serious challenges provoked by our changing climate and the continuing urbanisation of the world s population *BIG little house* Donna Kacmar,2015-01-09 What are the challenges architects face when designing dwelling spaces of a limited size And what can these projects tell us about architecture and architectural principles in general In *BIG little house* award winning architect Donna Kacmar introduces twenty real life examples of small houses Each project is under 1 000 square feet 100 square meters in size and brought together the designs reveal an attitude towards materiality light enclosure and accommodation which is unique to minimal dwellings While part of a trend to address growing concerns about minimising consumption and lack of affordable housing the book demonstrates that small dwellings are not always simply the result of budget constraints but constitute a deliberate design strategy in their own right Highly illustrated and in full colour throughout each example is based on interviews with the original architect and accompanied by detailed floor plans This ground breaking beautifully designed text offers practical guidance to any professional architect or homeowner interested in small scale projects *Insiders' Guide® to Palm Springs* Ken Van Vechten,2010-01-25 Palm Springs is the essential source for in depth travel and relocation information to this beautiful Palm Spring California Written by a true insider it offers a personal and practical perspective of Palm Springs and its surrounding environs *A Dark, a Light, a Bright* Alexa Griffith Winton,Susan Brown,2023-01-01 The first major publication devoted to weaver and designer Dorothy Liebes reinstating her as one of the most influential American designers of the twentieth century At the time of her death Dorothy Liebes 1897 1972 was called the greatest modern weaver and the mother of the twentieth century palette As a weaver she developed a distinctive combination of unusual materials lavish textures and brilliant colors that came to be known as the Liebes Look Yet despite her prolific career and recognition during her lifetime Liebes is today considerably less well known than the men with whom she often collaborated including Frank Lloyd Wright Henry Dreyfuss and Edward Durrell Stone Her legacy also suffered due to the inability of the black and white photography of the period to represent her richly colored and textured works Extensively researched and illustrated with full color accurate reproductions this important publication examines Liebes s widespread impact on twentieth century design Essays explore major milestones of her career including her close collaborations with major interior designers and architects to create custom textiles the innovative and experimental design studio where she explored new and unusual materials her use of fabrics to enhance interior lighting and her collaborations with fashion designers including Clare Potter and Bonnie Cashin Ultimately this book reinstates Liebes at the pinnacle of modern textile design alongside such recognized figures as Anni Albers and Florence Knoll Published in association with Cooper Hewitt Smithsonian Design Museum Exhibition Schedule Cooper Hewitt Smithsonian Design Museum July 7 2023 February 4 2024 **The Modern Steel House** Neil Jackson,2016-03-23 This book provides a comprehensive survey of
