Album Amicorum Albert Dunning:

Album Amicorum Albert Dunning Albert Dunning, 2002 The idea to assemble an Album Amicorum Albert Dunning a Festschrift to celebrate the 65th birthday of the distinguished musicologist came from within the Faculty of Musicology of Pavia University And to accomplish that aim thirty scholars colleagues friends and pupils have brought together their separate skills Dunning's long career dedicated to musicology has spanned at least four decades and throughout it has had a specifically international character His studies at the University of Amsterdam were crowned in 1969 with a doctorate and a dissertation entitled *Die Staatsmotette 1480 1555* The work was duly published and immediately established itself as a Standardwerk There followed the years of research in Vienna and Munich then those of teaching and research at Tübingen Syracuse NY and Poitiers A brief interlude in Frankfurt was succeeded by a longer period in his home country at the Vrije Universiteit of Amsterdam the Rijksuniversiteit of Utrecht and the Netherlands Institute of Advanced Studies of Wassenaar Since 1988 Albert Dunning has been a professor of History of Modern and Contemporary Music at the University of Pavia's Faculty of Musicology based in the city of Cremona The essays collected in the present volume pay a tribute to Albert Dunning's preferred fields of research the vocal music of the Humanist and Renaissance period and the music of the 18th century with a special partiality for Mozart and Locatelli Regarding Locatelli Dunning has not only issued the fundamental monograph *Pietro Antonio Locatelli der Virtuose und seine Welt* but also directed the recently completed critical edition of the great violinist's *Opera Omnia* The bulk of this Album Amicorum is therefore devoted to contributions on the music of the Renaissance Baroque and Classical periods The occasional incursions into other areas of inquiry are to be understood as a reflection of the broad interests that Dunning has constantly cultivated especially in his teaching

Munich MS 3154 For the first time this corpus is presented with uniform editorial criteria facilitating the comparison of mensural choices and other compositional strategies Furthermore the introduction of each volume thematizes the peculiar characteristics of each cycle in terms of textual choices use of preexisting material and musical design allowing for a new assessment of the motetti missales that goes beyond the homogenizing stereotypes of earlier literature and accounts for the individual contributions of the various composers The editors insight in this repertoire is the result of two interdisciplinary research projects financed by the Swiss National Fund and carried out at the Schola Cantorum Basiliensis in 2014 21 The anonymous motet cycle Ave Domine Iesu Christe transmitted uniquely in Librone 1 of the Milanese Libroni consists of eight motets for four and five voices on Christological texts the first four each of which begins with the words Ave Domine Iesu Christe take their text from a prayer to Christ popular in contemporary prayer books Despite the anonymous transmission several notable stylistic features of the cycle including use of the technique of split tenors suggest a possible attribution to Loyset Comp re ca 1450 1518 All eight motets bear loco rubrics indicating their placement in the mass liturgy
