Hidden Symbolism of Alchemy and the Occult Arts Herbert Silberer, 1971-01-01 This thoughtful study which antedates the work of Jung by a generation represents the first serious attempt to correlate the methods of psychoanalysis with the literature of alchemy and of other great Western mystical and occult traditions Dr Silberer was a prominent member of the Vienna School whose untimely death prevented this his major published work from receiving the attention it clearly merited Included is a wealth of material taken directly from alchemical and Rosicrucian sources Symbolisms of salt sulphur and mercury of the prison the abyss and the grave of putrefaction and procreation and of the sun moon and planets are carefully analyzed and explained Passages from the works of Hermes Trismegistus Flamel Lacinius Michael Meier Paracelsus and Boehme are cited both as important sources of alchemical doctrine and to substantiate the thesis that alchemy was a spiritual discipline of the highest order comparable to the Yoga of the East The entire inquiry is based on a parable from the

pages of Geheime Figuren der Rosenkreuzer an 18th century alchemical text After a general exposition of dream and myth interpretation Dr Silberer proceeds to a psychoanalytic interpretation of the parable and then gives a detailed account of the traditions and practices of the alchemists Rosicrucians and Freemasons Returning to the parable he introduces the problem of dual interpretations for while the psychoanalytic approach focuses on the depths of the impulsive life the hermetic and mystical leads to the heights of spirituality The heart of the book is an attempt to reconcile these divergent philosophies and a meditation on the relationship of introversion to mysticism Thought and Poetic Structure in San Juan de la Cruz's Symbol of Night N. Grace Aaron, 2005

Baker,2014-04-15 *The Diary of an Alchemist* In its attempt to demonstrate the applicability of the fundamental principles of Mysticism to the things of the physical realm Alchemy apparently failed and ended its days in fraud It appears however that this true aim of alchemistic art particularly the demonstration of the validity of the theory that all the various forms of matter are produced by an evolutionary process from some one primal element or quintessence is being realised by recent research in the domain of physics and chemical science The object of the alchemist s search was to satisfy their material needs their intellectual capacities and their spiritual yearning Alchemists of the nobler sort always made the first of these objects subsidiary to the other two There is a distinct difference between what may be called esoteric and exoteric alchemy The latter has an outer and more direct approach in which transmutation is attempted through the employment of purely physical forces This has been the main attraction for the quacks and the curious and has succeeded in concealing mercifully the esoteric approach to alchemy The true alchemist is someone capable of radiating his essence thus affecting the centermost being of those about him This work biographical in nature reveals the author s own struggle in working the basic theme of alchemy which is the acceptance and expression of Cosmic Fire in the service of humanity This is the path of a fire god his birth initiation into and baptism by Fire The alchemists saw the likeness of it in so many chemical reactions in their laboratories that they were struck by certain parallels After all they were witnessing the birth of modern chemistry with all its inorganic phenomena of amalgams silver gold and mercurial platings without any of the rationale which a chemist possesses today This thoroughly researched volume contains many excerpts from the author s diary images lists and drawings **Dream Symbols of the Individuation Process** C.
