**Alchemical Lectures for Free Masons**, 2024-05-02. Previously circulated only among a select audience thanks to a single rare facsimile reproduction, 1979, these Lectures are translated and presented here for the first time to English-speaking readers in a completely renewed and restored edition aimed at making them finally accessible and consultable. Of paramount importance for Masonic education and the understanding of esoteric symbolism in general, they are truly intended for all Masonic degrees. These Lectures were not written solely to be read. On the contrary, the explicit intent was and remains to offer to the man of desire and good will, albeit profane, a series of real tools for spiritual growth and a sextant to navigate towards the true Light. Do not expect me to speak to you about the Square and Compass in the same way as you will find them described in many Masonic books. It will be entirely different. While I advise you to read these books that will make you Wise, I will endeavor to make you a Sage. R. B.

*Secret Practices of the Sufi Freemasons* Baron Rudolf von Sebottendorff, 2013-01-17. Reveals the secret spiritual exercises of the Bektashi Order of Sufis. Shows how this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry. Explains how to transform the soul into the alchemical Magnum Opus by combining Masonic grips and the abbreviated letters of the Qur'an. Includes a detailed biography of Baron von Sebottendorff. Originally published in Germany in 1924, this rare book by Baron Rudolf von Sebottendorff reveals the secret spiritual exercises of the Bektashi Order of Sufis, as well as how this order, also known as Oriental Freemasonry, preserves the ancient spiritual doctrines forgotten by modern Freemasonry. Sebottendorff explains how the mysterious abbreviated letters found in the Qur'an represent formulas for perfecting the spirit of the individual. When combined with Masonic hand signs and grips and conducted accordingly to a precise schedule, these formulas incorporate spiritual power into the body and transform the soul from its base state into a noble, godlike state, the Magnum Opus of the medieval alchemists. Laying out the complete program of spiritual exercises, Sebottendorff explains each abbreviated word formula in the Qur'an, the hand gestures that go with them, and the exact order and duration for each.

the arcane tradition that gave rise to the legend of Christian Rosenkreutz the reputed founder of Rosicrucianism who learned his art in the East and to the 19th and 20th century occult movements lead by such luminaries as P B Randolph Theodore Reuss Helena Blavatsky and Aleister Crowley who also sought and discovered this technology in the religions and cultures of Asia Readers will find that the many disparate threads of an authentic spiritual tradition are woven together here in a startling tapestry that reveals without pretense or euphemism the psycho sexual technique that is at the root of both Tantra and alchemy that is to say of both Asian and European forms of esoteric praxis

Western Mystery tradition The stories told under the aegis of Mother Goose carry these symbols and secrets concealed in what hermetic adepts have long called the language of the birds Drawing upon the original versions of fairy tales not the sanitized accounts made into children s movies the author reveals how the tales illustrate each stage of the Great Work and the alchemical iterations required to achieve them He shows how the common motif of a hero or heroine sent in search of a rare object by a sovereign before their wishes can be granted is analogous to the Masonic quest for the lost tomb of Hiram or the alchemist s search for the fire needed to perform the Great Work He also reveals how the hero is always aided by a green bird which embodies the hermetic understanding of the seed and the fruit By unveiling the secret teachings within fairy tales Roger demonstrates the truly ancient lineage of these initiatory stories and how they originated as the trigger to push humanity toward higher levels of consciousness
