through the lens of Jung's spiritual alchemy. Focusing on the sacred marriage of Dionysos and Ariadne, the author illuminates the journey to wholeness both horizontal and vertical, revealing a power to heal not only a broken psyche but a broken world. Aguilar's meditative exegesis on the Dionysian initiation chamber in the Villa of Mysteries at Pompeii is a model of transcendence at the heart of Plato's noetic philosophy. This is a penetrating reading bringing to life an ancient yet timeless myth.

Michael P. Morrissey, Ph.D., Author of *Consciousness and Transcendence: The Theology of Eric Voegelin*. Marina Aguilar received her master's degree in Counseling Psychology at Pacific Graduate Institute, Santa Barbara, and has been a practicing depth psychotherapist and educator since 1990. She specializes in individuation as a spiritual as well as soul process. Her expertise in mythology, comparative religion, spiritual alchemy, and the ancient mystery school teachings serves as a valuable tool in working with archetypal themes as they emerge in day-to-day life, imagination, art, and dreams. Having lived in the United States, Mexico, and Europe, her work bridges cultures, continents, and spiritual modalities and focuses on increasing consciousness and wholeness within the individual and society as a whole.

Alchemy of the Heart Kole Collins, 2023-10-25. *Alchemy of the Heart* is a spellbinding tale of magical realism that unravels the profound mysteries of existence and the transformative power of the elixir. Victoria and Samuel, our intrepid protagonists, journey through trials of the heart, shadows of alchemical history, and revelations of interconnected destiny. Their quest unveils the profound potential of the elixir, a source of immortality, enlightenment, and healing. As Alchemists of the Crescent, they navigate a world where alchemical symbols come alive and ancient rituals resonate with power. They face trials that test their devotion, including the Confluence of Souls, a place where past, present, and future converge, and the Crucible of Destiny, where the boundaries of time and space dissolve. This enchanting story explores themes of responsibility, understanding, and the legacy of alchemy. *Alchemy of the Heart* is a journey into the heart of existence where the elixir reflects the choices we make, the interconnectedness of all things, and the profound power of transformation.

Acts of the Heart Robert Sardello, 2011-10 Reading through this volume is to be taken on a journey It is to walk with Robert Sardello on his journey as he pushes forward toward new realities In a sense each step is not so easy The thinking often appears dense the ideas often new and therefore disconcerting But each individual piece as the whole is bathed in an aura in a way we may say it is bathed in soul in love in generosity and friendship Attending to these we find the ideas and the new possibilities begin to make sense We are moved to change our lives Christopher Bamford from his introduction In these introductions Robert Sardello introduces us to many people we may not otherwise have met and

introduces us to many ways of being and thinking which we didn't know before. The range of those we meet in these pages is staggering. At the same time there is a sweet harmony and ever unfolding deepening of a single theme. Miraculously it pervades and shapes the entire sequence of those whom he presents even though he often wrote in response to a request and not initially on his own initiative. Robert writes of matters with which he has made a deep friendship and out of that friendship he has received and participated in a communion of ideas. He is able to do this because he has entered the aspiration of those he is introducing at the deepest level making their insights his own and deepening them in his own way. An introduction conveys a particular soul capacity. For Robert Sardello soul capacities are of the essence of what he calls Spiritual Psychology. Together with the worlds and beings to which they correspond it is such capacities that make us human and enable us to fulfill our human tasks. Reading these introductions is an astonishing experience. Within their short individual compasses they allow us to participate in Robert's own journey to catch as it were the bird in flight and fly with it. That is they map his journey at least that portion of it that began to unfold as his destiny began to crystallize. Robert Sardello's insights navigate many hazardous abstractions from the so-called New Age through the perennial philosophies. With Sophia as his muse the current from the future calls him carrying its many imaginations as energy the always immediate now and the truly new. Across these authors' writings his visionary perspective deepens in dialogue with the different works as authored beings. For writings possess their own spirit or how otherwise do they engender a unique spirit when reborn within our own imagination. Scott R. Scribner from his introduction.
