Alcohol Consumption And Alcoholrelated Problems In Germany

**Nick Heather,Ian H. Robertson,Phil
Davies**

Alcohol Consumption And Alcoholrelated Problems In Germany:

Alcohol Consumption and Alcohol-related Problems in Germany Gerhard Bühringer, 2002 In the current climate of growing concern about the public health consequences of alcohol consumption the publication of *Alcohol Consumption and Alcohol Related Problems in Germany* is particularly timely The book provides up to date information on consumption patterns and the extent of negative effects associated with alcohol consumption in the German population Estimates for the prevalence of abstinence and of low risk hazardous harmful and high risk consumption are derived from epidemiological studies Hazardous and harmful consumption is clearly associated with a number of psychological social and health problems and also has a significant economic impact on society as a whole Based on information from routine statistics and surveys the negative consequences associated with alcohol consumption such as dependence suicide violence or traffic accidents are assessed and methodological problems such as standardizing alcohol contents are discussed In its final section the book contains suggestions about how to establish reasonable limits on consumption and how to communicate these to health professionals and the general public This report on the negative effects of alcohol consumption may help stimulate discussion both within Europe and beyond on the implementation of appropriate measures to reduce abusive alcohol consumption and thus the extent of alcohol related problems

Alcohol-related Problems in the European Community Phil Davies, 1984

Alcohol Metabolism, Alcohol Intolerance, and Alcoholism Dharam P. Agarwal, H. Werner Goedde, 2012-12-06 Alcohol abuse alcohol intolerance alcohol dependence and other alcohol related disabilities are some of the most challenging public health problems facing our modern day society The purpose of this comprehensive monograph is to review the available knowledge concerning the pharmacogenetic basis of alcohol sensitivity and its physiological implications and to synthesize the bulk of existing knowledge regarding metabolic features and biomedical disturbances related to alcoholism The chapters cover a broad array of disciplines including an overview of historical and epidemiological aspects biochemistry and molecular genetics of enzymes involved in alcohol metabolism biochemical and neuropsychopharmacological effects of alcohol Major emphasis is placed on the role of genetic factors in alcoholism The experimental details are summarized and a comprehensive bibliography is included

Consultation-Liaison Psychiatry in Germany, Austria and Switzerland A.

Diefenbacher, T. N. Wise, 2004-07 Somatically ill patients often also suffer from psychological symptoms The diagnosis and treatment of these symptoms and their underlying psychiatric disorders are the task of consultation liaison psychiatry In this publication the latest developments such as psychiatric comorbidity in general hospital inpatients as well as mental disorders in the outpatient setting and special disorders like depression alcohol abuse and delirium are discussed One chapter on suicide attempts delineates the results and experiences from the German Competency Network on Depression The important topic of somatoform disorders in outpatient and inpatient settings is also reviewed Non German readers are usually not aware that in Germany there are two distinct board certified physician specialties dealing with patients with psychiatric

illnesses usually referred to as psychiatrists and psychosomaticists In the Debate Section succinct viewpoints are presented to enable the reader to decide whether this dichotomy is helpful or not in the clinical care of patients with psychiatric and somatic comorbidity This publication is essential reading for psychiatrists psychosomaticists psychotherapists geriatricians psychologists internists and health care planners Also medical students and non psychiatrists who want to broaden their view on how modern psychiatry can assist in the care of their patients will find it of special interest

Alcohol Research & Health ,2004 [Alcohol and Alcohol-related Diseases](#) Sebastian Mueller,Markus Heilig,2023-10-24 Alcohol is one of the major risk factors for negative health outcomes worldwide It accounts for more than 60 alcohol related diseases ranging from addiction through liver cirrhosis to cancer Collectively these conditions account for mortality and morbidity that make alcohol use one of the leading preventable causes of disability adjusted life years DALYs lost globally In this book an international faculty covers all aspects of alcohol related disorders ranging from addiction alcohol use disorders AUD to alcohol related diseases of other organs such as liver heart or cancer A special focus is to reach out to primary care physicians who are in the front line of this major health problem The book also provides an update for addiction specialists as well as specialists in internal medicine gastroenterology and hepatology The book is divided into sections that include epidemiology alcohol use disorders and addiction alcohol related liver disease alcoholic hepatitis primary care and interdisciplinary approaches and other alcohol related diseases Besides current diagnostic measures and treatment strategies the book deals with the many underlying molecular and genetic mechanisms of alcohol toxicity Novel insights include prospective data on all cause mortality and the emerging major role of alcohol mediated hemolysis and enhanced red blood cell turnover The book also aims at guiding policy makers to handle the topic of alcohol in our society more responsibly

[Factors Associated with Alcohol Use in University Students](#) René Šebeňa,2022 Research into alcohol use by young people is mostly focused on adolescents secondary or further education students rather than university students However alcohol drinking among university students is a widely recognized problem and represents a serious health and cultural problem with many negative individual

interpersonal and cultural consequences Binge drinking an increasingly common pattern of excessive alcohol use with serious negative consequences for individual drinkers those around them and the university environment is a major problem on university campuses Alcohol consumption among youths is affected by a complex of risk and protective factors investigation of which is essential for a better understanding and focusing of the intervention procedures The complex linkages of risk and protective factors and problem behaviours change over time and within different cultures and countries The importance of this kind of research for the field of prevention is obvious If we can determine the personal and interpersonal protective and risk factors affecting alcohol use behaviour we can better plan preventive interventions focused on creating and enhancing the personal protective attributes To design and develop appropriate interventions to improve behavioural outcomes for adolescents a better understanding of these complexities and relations is required

Alcoholism in North America, Europe, and Asia John E. Helzer, Glorisa J. Canino, 1992 This volume represents a landmark in the important and rapidly expanding literature of cross cultural epidemiology that has been made possible by the worldwide popularity of the DSM III and the multi national use of a single survey instrument the Diagnostic Interview Schedule DIS Reviewing population survey findings across ten regions of North America Europe and Asia this study is the first direct cross national comparison of personal interview data on alcoholism including prevalence rates and risk factors The book carefully describes the background of the various surveys and the methods of analysis and comparison Chapters on each region describe the prevalence of drinking problems the symptomatic expression of alcoholism in that culture aspects of the cultural background that are relevant to drinking behavior and the association between alcoholism and other psychiatric disorders Of particular importance in this volume is the inclusion of a chapter on alcoholism in the Socialist Republic of China from which very little scientific information has been readily available The inclusion of eastern and western cultural perspectives offers insight into both universal and culturally distinct aspects of alcoholism The volume is essential reading for psychiatrists epidemiologists sociologists and alcohol theorists researchers and clinicians

The Misuse of Alcohol Nick Heather, Ian H. Robertson, Phil Davies, 2023-12-01 In the 1980s the study of alcoholism was in a period of rapid change this book originally published in 1985 identifies and explores the three most controversial contemporary issues changes at the basic explanatory level in our concept of harmful drinking the undermining of our confidence that drinking behaviour can be effectively modified in the traditional context of treatment and the changes in our concept of the effective prevention of harmful drinking The authors of the book came from a variety of backgrounds but all were members of the New Directions in the Study of Alcohol Group They broadly reject the disease concept of alcoholism but as this volume shows there is still scope for vigorous debate and this book should have something of interest for all concerned with problems of alcoholism

Handbook of Alcoholism Gerald Zernig, Alois Saria, Martin Kurz, Stephanie O'Malley, 2000-03-24 While the war on drugs continues to attract world attention it is often overlooked that alcoholism remains a major worldwide health concern No matter what your

expertise the CRC Handbook of Alcoholism can help you acquire the necessary skills to treat problem drinkers and alcohol dependent patients In three sections Patient Care Research **Tackling Harmful Alcohol Use Economics and Public Health Policy** OECD,2015-05-12 This book examines trends and social disparities in alcohol consumption It assesses the health social and economic impacts of key policy options for tackling alcohol related harms in Canada the Czech Republic and Germany extracting policy messages for a broader set of countries **Youth Drinking Cultures** Margaretha Järvinen,Robin Room,2017-03-02 How can binge drinking be explained and understood Is alcohol consumption related to the particular cultural characteristics of some European countries Should heavy drinking cultures be seen as a mainstream youth phenomenon or as marginal and is this different in different countries A team of leading researchers addresses these questions and more in their analysis of the alcohol consumption patterns of European young people Alcohol consumption is an important marker of transition from childhood to early adulthood yet the timing intensity and purpose of adolescent drinking varies dramatically between countries The contributors provide cross national comparisons to investigate how drinking behaviour varies examining factors such as gender societal context and family socio economic backgrounds Youth Drinking Cultures offers a comprehensive set of perspectives on adolescent drinking in Europe In linking issues around social identity and the life course with a highly topical area of media and policy concern the book will be of great value to sociology and social policy scholars especially youth researchers and also to professionals working with young people **The Genetic Basis of Common Diseases** Richard A. King,Jerome I. Rotter,Arno G. Motulsky,2002-10-17 Since the first edition of this highly acclaimed text was published in 1992 much new knowledge has been gained about the role of genetic factors in common adult diseases and we now have a better understanding of the molecular processes involved in genetic susceptibility and diseases mechanisms The second edition fully incorporates these advances The entire book has been updated and twelve new chapters have been added Most of these chapters deal with diseases such as gallstones osteoporosis osteoarthritis skin cancer other common skin diseases prostate cancer and migraine headaches that are seen by all physicians Others address the genetic and molecular basis of spondylarthropathies lupus hemochromatosis IgA deficiency mental retardation hearing loss and the role of mitochondrial variation in adult diseases Chapters on the evolution of human genetic disease and on animal models add important background on the complexities of these diseases Unique clinical applications of genetics to common diseases are covered in the additional new chapters on genetic counseling pharmacogenetics and the genetic consequences of modern therapeutics **Health at a Glance: Europe 2016 State of Health in the EU Cycle** OECD,European Union,2016-11-23 This fourth edition of Health at a Glance Europe presents key indicators of health and health systems in the 28 EU countries 5 candidate countries to the EU and 3 EFTA countries **Cumulated Index Medicus** ,1980 **Principles and Practice of Geriatric Psychiatry** Mohammed T. Abou-Saleh,Cornelius L. E. Katona,Anand Kumar,2011-01-04 The renowned Principles and Practice of Geriatric Psychiatry now in its third edition

addresses the social and biological concepts of geriatric mental health from an international perspective Featuring contributions by distinguished authors from around the world the book offers a distinctive angle on issues in this continually developing discipline Principles and Practice of Geriatric Psychiatry provides a comprehensive review of geriatric psychiatry spanning both psychiatric and non psychiatric disorders scientific advances in service development specific clinical dilemmas New chapters on genetics of aging somatoform disorders epidemiology of substance abuse somatoform disorders care of the dying patient Continuing the practice of earlier editions the major sections of the book address aging diagnosis and assessment and clinical conditions incorporating an engaging discussion on substance abuse and schizophrenic disorders Shorter sections include the presentation of mental illness in elderly people from different cultures one of the most popular sections in previous editions Learning and behavioural studies as well as models of geriatric psychiatry practice are covered extensively This book provides a detailed overview of the entire range of mental illness in old age presented within an accessible format Principles and Practice of Geriatric Psychiatry is an essential read for psychiatrists geriatricians neurologists and psychologists It is of particular use for instructors of general psychiatry programs and their residents

Index Medicus ,2001 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings **Food and Human Responses** Kodoth Prabhakaran Nair,2020-01-01 This book discusses the role of food and the human nutrition behavior interface Food makes us what we are but in addition to providing adequate nutrition does it influence behavior This book looks at this critical question from various angles and considers different concepts and approaches to food nutrition and well being To better understand the entire gamut of the food behavior linkage the author unravels the workings of the mind brain link The book discusses this aspect and the findings add to the existing fund of knowledge in this area Much of today s malaise in humans can be traced to the food consumed by individuals This book provides a comprehensive picture of the current state of human nutrition and how this can be linked to behavior **Tasman's Psychiatry** Allan Tasman,Michelle B. Riba,Renato D. Alarcón,César A. Alfonso,Shigenobu Kanba,Dusica Lecic-Tosevski,David M. Ndeti,Chee H. Ng,Thomas G. Schulze,2024-09-04 Authored by over 500 internationally acclaimed expert editors and chapter authors from around the world Completely updated and expanded with almost 40 new chapters Significantly increased attention to the role of culture in all aspects of evaluation and care New sections on Digital Mental Health Services and Technologies Treatment Issues in Specific Populations and Settings and on Prevention Systems of Care and Psychosocial Aspects of Treatment address key advances This edition is the first comprehensive reference work to cover the entire field of psychiatry in an updateable format ensuring access to state of the art information Earlier editions were called the best current textbook of psychiatry by the New England Journal of Medicine and the gold standard by the American Journal of Psychiatry Tasman s Psychiatry 5th Edition builds on the initial vision in prior editions of approaching psychiatric evaluation and care from an integrative bio psycho social cultural perspective It is designed to be an essential and accessible reference for readers at any level of

experience This editorial approach encompasses the importance of the first encounter between patient and clinician followed by the complex task of beginning to develop a therapeutic relationship and to develop and implement a treatment plan in collaboration with the patient The importance of increasing attention to the role of culture and social determinants of mental health is reflected both in specific chapters and in components of many chapters throughout the book especially in those pertaining to clinical evaluation the therapeutic alliance and treatment The global scope of this edition is reflected throughout the book including the section on psychiatric disorders where evaluation using both ICD 11 and DSM 5 TR is discussed Most chapters are authored by experts from at least two different countries or continents adding a critically important dimension which often is missing in major psychiatric textbooks Tasman s Psychiatry 5th Edition is an essential reference for all medical professionals and students who need a trusted reference or learning tool for psychiatry psychology clinical research social work counseling therapy and all others
