Aleksandr Chayanov And Russian Berlin:

Aleksandr Chayanov and Russian Berlin Aleksandr Vasil'evich Chayanov, 1999 A third Aleksandr Chayanov dimension emerges from the autobiographical material he was forced to write in the interrogation that followed his arrest in 1930 and in the letters he wrote in the early 1920s **Aleksandr Chayanov and Russian Berlin** Frank Bourgholtzer, 2023-05-31 Aleksandr Chayanov lived and worked in England and Germany in the 1920s when he wrote many letters He was also forced to write autobiographical material after his arrest in 1930 Frank Bourgholtzer uses this material in his account of this Russian utopian *Aleksandr Chayanov and Russian Berlin* Frank Bourgholtzer, 1999 *Special Issue on Aleksandr Chayanov and Russian Berlin* Frank Bourgholtzer, 1999 **Russian and Western Economic Thought** Vladimir Avtonomov, Harald Hagemann, 2022-10-03 This book examines the interrelations between Russian and European economics from the early 19th century to the present It analyzes how Western economic thinking such as classical economics and the marginal revolution influenced Russian economic thinking and how Western economic ideas were modified and adapted to better reflect the specific Russian circumstances of the time Moreover the contributions in this book show how these modified ideas also influenced Western economists at the end of the 19th century when Russian economics had reached the stage of professionalism and joined the international discourse on the discipline Written by an international selection of respected experts this book provides an overview of the most influential Russian economists and covers a wide range of topics such as the marginal revolution the specific influence of Marxism the evolution of mathematics and statistics in Russia in the 1890s 1920s and the unique experience of building a planned economy in the Soviet Union It is intended for all scholars and students who are interested in the history of economic thought *Literature and the Work of Universality* Alice Duhan, Stefan Helgesson, Christina Kullberg, Paul Tenngart, 2024-07-22 In an age of accelerating ecological crises global inequalities and democratic fragility it has become crucial to achieve renewed articulations of human commonality With anchorage in critical theory as well as world literary studies this volume approaches literature and modes of literary thinking as a key resource for such a task Universality is understood here not as an established universalism but as a horizon towards which intellectual inquiry and literary practices orient themselves In the field of world literature there is by now a wide repertoire of epistemological resources through which claims to universality can be both questioned and reconfigured If at one end of the spectrum world literature confronts us with the spectre of homogenisation and the commodification of difference under a regime of global capitalism at another end renewed forms of philological anthropological and ecological attentiveness to the particulars of languages and texts within the crucible of connected histories allow for defamiliarising perspectives both on received historical narratives and aesthetic practices Vernacularity emerges here as a central point of reference for constructing the universal from within the particular the idiomatic and the experiences of social subordination or complicity *The Institutional Framework of Russian Serfdom* Tracy Dennison, 2011-04-28 Russian rural history has long

been based on a Peasant Myth originating with nineteenth century Romantics and still accepted by many historians today In this book Tracy Dennison shows how Russian society looked from below and finds nothing like the collective redistributive and market averse behaviour often attributed to Russian peasants On the contrary the Russian rural population was as integrated into regional and even national markets as many of its west European counterparts Serfdom was a loose garment that enabled different landlords to shape economic institutions especially property rights in widely diverse ways Highly coercive and backward regimes on some landlords estates existed side by side with surprisingly liberal approximations to a rule of law This book paints a vivid and colourful picture of the everyday reality of rural Russia before the 1861 abolition of serfdom

Critical Perspectives in Rural Development Studies Saturnino M. Borras Jr.,2013-09-13 Agrarian transformations within and across countries have been significantly and dynamically altered during the past few decades compared to previous eras provoking a variety of reactions from rural poor communities worldwide The recent convergence of various crises financial food energy and environmental has put the nexus between rural development and development in general back onto the center stage of theoretical policy and political agendas in the world today Confronting these issues will require re engaging with critical theories taking politics seriously and utilizing rigorous and appropriate research methodologies These are the common messages and implications of the various contributions to this collection in the context of a scholarship that is critical in two senses questioning prescriptions from mainstream perspectives and interrogating popular conventions in radical thinking This book focuses on key perspectives frameworks and methodologies in agrarian change and peasant studies The contributors are leading scholars in the field of rural development studies Henry Bernstein Terence J Byres Saturnino M Borras Jr Marc Edelman Crist bal Kay Benedict Kerkvliet Philip McMichael Shahra Razavi Ian Scoones and Teodor Shanin This book was previously published as a special issue of the Journal of Peasant Studies
