O. Grenby,Andrea Immel,2009-12-10 Some of the most innovative and spell binding literature has been written for young people but only recently has academic study embraced its range and complexity This Companion offers a state of the subject survey of English language children s literature from the seventeenth century to the present With discussions ranging from eighteenth century moral tales to modern fantasies by J K Rowling and Philip Pullman the Companion illuminates acknowledged classics and many more neglected works Its unique structure means that equal consideration can be given to both texts and contexts Some chapters analyse key themes and major genres including humour poetry school stories and picture books Others explore the sociological dimensions of children s literature and the impact of publishing practices Written by leading scholars from

around the world this Companion will be essential reading for all students and scholars of children's literature offering original readings and new research that reflects the latest developments in the field *Postmodern Picturebooks* Lawrence R. Sipe, Sylvia Pantaleo, 2010-04-26 Over the past 15 years there has been a pronounced trend toward a particular type of picturebook that many would label postmodern Postmodern picturebooks have stretched our conventional notion of what constitutes a picturebook as well as what it means to be an engaged reader of these texts The international researchers and scholars included in this compelling collection of work critically examine and discuss postmodern picturebooks and reflect upon their unique contributions to both the field of children's literature and to the development of new literacies for child adolescent and adult readers **The Hidden Adult** Perry Nodelman, 2008-09-30 What exactly is a children's book How is children's literature defined as a genre A leading scholar presents close readings of six classic stories to answer these questions and offer a clear definition of children's writing as a distinct literary form Perry Nodelman begins by considering the plots themes and structures of six works *The Purple Jar* *Alice in Wonderland* *Dr Doolittle* *Henry Huggins* *The Snowy Day* and *Plain City* all written for young people of varying ages in different times and places to identify shared characteristics He points out markers in each work that allow the adult reader to understand it as a children's story shedding light on ingrained adult assumptions and revealing the ways in which adult knowledge and experience remain hidden in apparently simple and innocent texts Nodelman then engages a wide range of views of children's literature from authors literary critics cultural theorists and specialists in education and information sciences Through this informed dialogue Nodelman develops a comprehensive theory of children's literature exploring its commonalities and shared themes *The Hidden Adult* is a focused and sophisticated analysis of children's literature and a major contribution to the theory and criticism of the genre *At Arm's Length* Mike Cadden, 2021-06-28 Literary critics and authors have long argued about the importance or unimportance of an author's relationship to readers What can be said about the rhetorical relationship that exists between author and reader How do authors manipulate character specifically to modulate the emotional appeal of character so a reader will feel empathy awe even delight In *At Arm's Length* A Rhetoric of Character in Children's and Young Adult Literature Mike Cadden takes a rhetorical approach that complements structural affective and cognitive readings The study offers a detailed examination of the ways authorial choice results in emotional invitation Cadden sounds the modulation of characters along a continuum from those larger than life and awe inspiring to the life sized and empathetic down to the pitiable and ridiculous and all those spaces between Cadden examines how authors alternate between holding the young reader at arm's length from and drawing them into emotional intensity This balance and modulation are key to a rhetorical understanding of character in literature film and television for the young Written in accessible language and of interest and use to undergraduates and seasoned critics *At Arm's Length* provides a broad analysis of stories for the young child and young adult in book film and television Throughout Cadden touches on important topics in children's literature studies including the role

of safety in children's media as well as character in multicultural and diverse literature. In addition to treating traditional works, he analyzes special cases, forms including picture books, verse novels, and graphic novels, and modes like comedy, romance, and tragedy. *Bulletin of the Center for Children's Books*, 1999. *The Joy of Children's Literature*. Eating the Ocean Elspeth Probyn, 2016-10-13 In *Eating the Ocean*, Elspeth Probyn investigates the profound importance of the ocean and the future of fish and human entanglement. On her ethnographic journey around the world's oceans and fisheries, she finds that the ocean is being simplified in a food politics that is overwhelmingly land-based and preoccupied with buzzwords like local and sustainable. Developing a conceptual tack that combines critical analysis and embodied ethnography, she dives into the lucrative and endangered bluefin tuna market, the gendered politics of sustainability, the ghoulish business of producing fish meal and fish oil for animals and humans, and the long history of encounters between humans and oysters. Seeing the ocean as the site of the entanglement of multiple species, which are all implicated in the interactions of technology, culture, politics, and the market, enables us to think about ways to develop a reflexive ethics of taste and place based in the realization that we cannot escape the food politics of the human-fish relationship.
