Ebel, Ray Taras, James D. Cochrane, 1991-01-01 This book explores the impact of Latin America's political culture on the international politics of the region It offers a general account of traditional Iberian political culture while examining how relations among states in the hemisphere where the United States has been the central actor have evolved over time The authors assess the degree of consistency between domestic and international political behavior The assessments are supported by case studies *Military Government and the Movement Toward Democracy in South America* Howard Handelman, Thomas Griffin Sanders, 1981 Sophisticated investigations of governmental transition in Brazil Chile Uruguay Peru and Ecuador Discusses such issues as the undercurrents of popular discontent and the recent progress toward increased civilian political participation **Militarization, Democracy, and Development** Kirk S. Bowman, 2010-11-01 Do Third World countries benefit from having large militaries or does this impede their development Kirk Bowman uses statistical analysis to demonstrate that militarization has had a particularly malignant impact in this region For his quantitative comparison he draws on longitudinal data for a sample of 76 developing countries and for 18 Latin American nations To illuminate the causal mechanisms at work Bowman offers a detailed comparison of Costa Rica and Honduras between 1948 and 1998 The case studies not only serve to bolster his general argument about the harmful effects of militarization but also provide many new insights into the processes of democratic consolidation and economic transformation in these two Central American countries **Arms and Politics in Latin America. Nunn, 1992-01-01 The quarter century from 1964 to 1989 was the time of the generals the most clearly defined era of military rule and influence in the history of Latin America The effects of this rule were most evident in Argentina Brazil Peru and Chile where French and German style military professionalism

developed into professional militarism Frederick M Nunn shows that the mentality of Latin American generals is typical of a worldwide military ethos but that its application is unique in the context of individual countries In detailing the pervasiveness of this ethos worldwide Nunn enables a better understanding of the willingness of Latin American military leaders to intervene in government and of their activities once in power

The Hovering Giant (Revised Edition) Cole Blasier, 1985-01-15 In the first edition of The Hovering Giant Cole Blasier analyzed U S response to revolutions in Latin America from Madero in Mexico to Allende in Chile He explained why U S leaders sponsored paramilitary units to overthrow revolutionary governments in Guatemala and Cuba and compromised their own differences with revolutionary governments

in Mexico and Bolivia The protection of private U S interests was part of the explanation but Blasier gave greater emphasis to rivalry with Germany or the Soviet Union Now in this revised edition Blasier also examines the responses of the Carter and Reagan administrations to the Grenadian and Nicaraguan revolutions and the revolt in El Salvador He also brings up to date the interpretation of U S Cuban relations Blasier stresses U S defense of its preeminent position in the Caribbean Basin as well as rivalry with the Soviet Union to explain these later U S responses Seemingly unaware of historical experience Washington followed patterns in Central America and Grenada similar to earlier patterns in Guatemala Cuba and Chile even though the latter had adverse effects on U S security and economic interests *Three Plays of Maureen Hunter* Hunter, Maureen,2003 Book is clean and tight No writing in text Like New Political Administration in Mexico Julio A.
