Around The Square 1830-1890 Essays On Life Letters And Architecture In Greenwich Village:

Greenwich Village Rick Beard, Leslie Berlowitz, Museum of the City of New York, 1993 Treating New York's bohemian enclave Greenwich Village as an urban microcosm the 22 essays in this volume explore its architecture and art cultural dimensions political life and peoples The editors bring together both astute commentators on American life and culture and a rich collection of visual images from the Museum of the City of New York 129 illustrations **Gotham** Edwin G.

Burrows, Mike Wallace, 1998-11-19 In Gotham winner of the 1999 Pulitzer Prize Edwin G Burrows and Mike Wallace have produced a monumental work of history one that ranges from the Indian tribes that settled in and around the island of Manna-hata to the consolidation of the five boroughs into Greater New York in 1898 It is an epic narrative a story as vast and as varied as the city it chronicles and it underscores that the history of New York is the story of our nation **The**

Archaeology of Gender Diana diZerga Wall, 2013-06-29 Historical archaeologists often become so involved in their potsherd patterns they seldom have time or energy left to address the broader processes responsible for the material culture patterns they recognize Some of us have urged our colleagues to use the historical record as a springboard from which to launch hypotheses with which to better understand the behavioral and cultural processes responsible for the archaeological record Too often this urging has resulted in reports designed like a sandwich having a slice of historical background followed by a totally different archaeological record and closed with a weevil ridden slice of interpretation of questionable nutritive value for understanding the past The reader is often left to wonder what the archaeological meat had to do with either slice of bread since the connection between the documented history and the material culture is left to the reader's imagination and the connection between the interpretation and the other disparate parts is tenuous at best The plethora of stale archaeological sandwiches in the literature has resulted at the methodological level from a too narrow focus on the specific history and archaeology of a site and the individuals involved on it rather than a focus on the explanation of broader processes of culture to which the actors and events at the site specific level responded **Rise of the New York Skyscraper,**

1865-1913 Sarah Bradford Landau, Carl W. Condit, 1999-01-01 The invention of the New York skyscraper is one of the most fascinating developments in the history of architecture This authoritative book chronicles the history of New York's first skyscrapers challenging conventional wisdom that it was in Chicago and not New York that the skyscraper was born 206 illustrations **The Miracle on Washington Square** Joan Marans Dim, Nancy Murphy Cricco, 2001-01-01 At the

millennium one wonders What would the founders of New York University think of the modern rendering of their great notion Could they have even in their wildest dreams envisioned a University of such complexity of such spirit of such immense reach and resource while still fulfilling the determined destiny of its founders More than likely they would be amazed and proud to see how much their dream has been realized especially considering the numerous travails New York University has weathered The reasons for this Miracle on Washington Square are complicated and many Without question however the

University's recent successes rest in great part on the shoulders of the able leaders who have led the University especially during the past forty years. These men and women with a firm and focused grasp on the University's direction had the courage to make critical even painful choices in the quest for a secure and healthy future. To mark the millennium and the University's many achievements, this volume provides a pictorial panorama of the way we were, the way we are, and the way we hope to be. The real story is in the faces. Look at them. Study them. The photographs are a testament to the dreams, ideas, and convictions behind the contributions New York University has made and will ever continue to make to the development and advancement of knowledge.

New York University and the City Thomas J. Frusciano, Marilyn H. Pettit, 1997. An illustrated history of one of America's premier private universities from its beginnings in 1831 and within the context of the social, political, and economic history of New York City. Vividly illustrated with both historical and contemporary images, the relationship between university and city is examined through biographical portraits of the personalities who made contributions to both. 250 illustrations.

Edward Hopper Gail Levin, 2023-02-07. New York Times Notable Book, Los Angeles Times Book Prize Finalist, Wall Street Journal one of five best artist biographies. Edward Hopper's canvasses are filled with stripped-down spaces and unrelenting light, evocative landscapes, and the lonely aspects of men and women seemingly isolated in their surroundings. What kind of man had this haunting vision, and what kind of life engendered this art? No one is better qualified to answer these questions than art historian Gail Levin, author and curator of the major studies and exhibitions of Hopper's work. In this intimate biography, she reveals the true nature and personality of the man himself and of the woman who shared his life, the artist Josephine Nivison.

New York City, the Development of the Metropolis Alan Burnham, 1988. *Lines that Divide* James A. Delle, Stephen A. Mrozowski, Robert Paynter, 2000. The division of human society by race, class, and gender has been addressed by scholars in many of the social sciences. Now historical archaeologists are demonstrating how material culture can be used to examine the processes that have erected boundaries between people. Drawing on case studies from around the world, the essays in this volume highlight diverse moments in the rise of capitalist civilization, both in Western Europe and its colonies. In the first section, the contributors address the dynamics of the racial system that emerged from European colonialism. They show how archaeological remains shed light on the institution of slavery in the American Southeast, on the treatment of Native Americans by Mormon settlers, and on the color line in colonial southern Africa. The next group of articles considers how gender was negotiated in nineteenth-century New York City, in colonial Ecuador, and on Jamaican coffee plantations. A final section focuses on the issue of class division by examining the built environment of eighteenth-century Catalonia and material remains and housing from early industrial Massachusetts. These essays constitute an archaeology of capitalism and clearly demonstrate the importance of history in shaping cultural

consciousness Arguing that material culture is itself an active agent in the negotiation of social difference they reveal the ways in which historical archaeologists can contribute to both the definition and dismantling of the lines that divide The Westchester Historian ,1999 **Childe Hassam, American Impressionist** Helene Barbara Weinberg,2004 This illustrated publication accompanies a major exhibition at the Metropolitan Museum the first retrospective presentation of Hassam s work in a museum since 1972 Unique to this volume are an account of Hassam s lifelong campaign to market his art a study of the frames he selected and designed for his paintings and an unprecedented lifetime exhibition record Included in addition are a checklist of works in the exhibition and a chronology of Hassam s life All works in the exhibition as well as comparative materials are reproduced BOOK JACKET Bibliographic Guide to North American History ,1985 *Around the Square, 1830-1890* Mindy Cantor,1982 *It Happened on Washington Square* Emily Kies Folpe,2002 An illuminating history of Washington Square Park and its inhabitants *The Law School Papers of Benjamin F. Butler* Benjamin F. Butler,1987-11-13 This work is divided into two parts a description of the founding and operation of the Law School at New York University and selected original documents of Benjamin F Butler The history of the formation of this law school is not well known and provides a wealth of information about the aspirations and problems of forming a law school in the ante bellum period The Butler documents were selected from more than 2 500 surviving papers and letters and provide a deeper understanding of legal education and the profession of law in Jacksonian America **Amanda Berry Smith** Adrienne Israel,1998-01-01 Now available in paperback This biography is the compelling story of Amanda Berry Smith a former slave and washer woman with less than a year of formal education who rose to become one of the nineteenth century s most important and successful Christian evangelists Based on letters published in Christian newspapers copies of her own newspaper The Helper and numerous public records and documents this biography puts Amanda Berry Smith s eventful life in a proper historical perspective evaluating the significant impact of her deeds It traces her beginnings as the child of freed blacks in antebellum Pennsylvania her turbulent marriages her search for communities and faith in New York City and her eventual prominence as a camp fire missionary and as a world traveler of spiritual faith This thoughtful individual study probes the complex relationship between herself and other contemporary reformers black and white and answers many questions left unanswered by Smith s own autobiography *Medievalism* Edward Kaufman,Sharon Irish,1988 Up the River Roger G.
