Parshall, 1986 *Renaissance & Reformation*, 2016 Featuring more than a hundred outstanding paintings drawings prints sculptures and treasures of the Age of the Reformation this publication comprises masterpieces by Albrecht Dürer Lucas Cranach the Elder and Lucas Cranach the Younger Hans Holbein the Elder and Hans Holbein the Younger Matthias Grünewald and Tilman Riemenschneider among others By placing these works in their historical context this beautifully illustrated book uses art as a prism through which to consider the religious social and political upheavals of the time The volume includes insightful texts that discuss pivotal subjects such as traditional imagery and devotion Reformation and polemics court life and culture humanism and reality as well as portraiture and representation Biographies of the artists an extensive bibliography and a glossary of central terms concerning the German Reformation make this a comprehensive study of a fascinating period in European art history *Sodomy in Reformation Germany and Switzerland, 1400-1600* Helmut Puff, 2003-06 During the late Middle Ages a considerable number of men in Germany and Switzerland were executed for committing sodomy Even in the seventeenth century simply speaking of the act was cause for censorship Here in the first history of sodomy in these countries Helmut Puff argues that accusations of sodomy during this era were actually crucial to the success of the Protestant Reformation Drawing on both literary and historical evidence Puff shows that speakers of German associated sodomy with Italy and increasingly Catholicism As the Reformation gained momentum the formerly unspeakable crime of sodomy gained a voice as Martin Luther and others deployed accusations of sodomy to discredit the upper ranks of the Church and to create a sense of community among Protestant believers During the sixteenth century reactions against this defamatory rhetoric and fear that mere mention of sodomy would incite sinful

acts combined to repress even court cases of sodomy Written with precision and meticulously researched this revealing study will interest historians of gender sexuality and religion as well as scholars of medieval and early modern history and culture

Artful Armies, Beautiful Battles Pia F. Cuneo,2021-12-28 Warfare and the circumstances surrounding it have often provided important impulses for cultural production This book explores the relationship between warfare and image making in the early modern period Rather than dealing with images simply as reproductions of actual events the volume demonstrates complex processes by which political national and social identities are negotiated and fashioned in warfare imagery The book analyses three main issues the impact of war on art the ways in which warfare imagery supports dominant ideologies and the manner in which such imagery also constructs alternative identities The essays offer a broad range of methodologies while dealing with a wide array of chronological geographical and artistic materials Historians and art historians will find this volume particularly useful in its nuanced examination of the relationship between art and history

Censorship and Civic Order in Reformation Germany, 1517-1648 Allyson F. Creasman,2016-04-15 The history of the European Reformation is intimately bound up with the development of printing With the ability of the printed word to distribute new ideas theologies and philosophies widely and cheaply early modern society was quick to recognise the importance of being able to control what was published Whilst much has been written on censorship within Catholic lands much less scholarship is available on how Protestant territories sought to control the flow of information In this ground breaking study Allyson F Creasman reassesses the Reformation s spread by examining how censorship impacted upon public support for reform in the German cities Drawing upon criminal court records trial

manuscripts and contemporary journals mainly from the city of Augsburg the study exposes the networks of rumour gossip cheap print and popular songs that spread the Reformation message and shows how ordinary Germans adapted these messages to their own purposes In analysing how print and oral culture intersected to fuel popular protest and frustrate official control the book highlights the limits of both the reformers s influence and the magistrates s authority The study concludes that German cities were forced to adapt their censorship policies to the political and social pressures within their communities in effect meaning that censorship was as much a product of public opinion as it was a force acting upon it As such this study furthers debates not only on the spread and control of information within early modern society but also with regards to where exactly within that society the impetus for reform was most strong

The Moment of Self-Portraiture in German Renaissance Art Joseph Leo Koerner,1993 So foundational is this invention to modern aesthetics Koerner argues that interpreting it takes us to the limits of traditional art historical method Self portraiture becomes legible less through a history leading up to it or through a sum of contexts that occasion it than through its historical sight line to the present After a thorough examination of Durer s startlingly new self portraits the author turns to the work of Baldung Durer s most gifted pupil and demonstrates how the apprentice willfully disfigured Durer s vision Baldung replaced the master s self portraits with some of the most obscene and bizarre pictures in the history of art In images of nude witches animated cadavers and copulating horses Baldung portrays the debased self of the viewer as the true subject of art The Moment of Self Portraiture thus unfolds as passages from teacher to student artist to viewer reception all within a culture that at once deified and abhorred originality

History of the Reformation in the Sixteenth Century Jean Henri Merle d'Aubigné,1872 History of the Reformation in the sixteenth century ... A new translation, containing the author's latest improvements: with ... engravings ... after P. A. Labouchere, etc Jean Henri MERLE D'AUBIGNÉ,1870

Images and Relics John Dillenberger,1999 John Dillenberger has written the first comprehensive account of the relation between the visual arts and theological currents in Europe during the first half of the sixteenth century With an astute knowledge of the theology of the period and a keen interest in the lives and work of prominent artists Dillenberger makes incisive connections that illuminate the cultural movements of the time Images and Relics considers both popular and professional art within distinct religious contexts It examines the works of Matthias Grunewald Albrecht Durer Lucas Cranach the Elder Michelangelo Hans Holbein the Younger Hans Baldung Grien and Albrecht Altdorfer and demonstrates how these artists expressed and transformed the reigning theological ideas of their day The book also addresses the range of iconoclastic movements from the 1520s to the 1570s particularly in northern Europe Finally Dillenberger reflects on the ambiguity of the history of this period and its continuing impact on modern day life
