Art Kissick,1996-01-01 **Art History and Criticism** Gerrit Hayson, Art does not exist in a vacuum Every brushstroke every chisel mark every carefully chosen pigment carries within it the weight of its historical moment the aspirations of its creator and the expectations of its intended audience To truly understand and evaluate a work of art we must first acknowledge that meaning is not fixed but fluid shifting like light across a canvas as centuries pass and new eyes encounter old masterpieces The history of art criticism reveals this fundamental truth what one generation celebrates another may dismiss and what seems revolutionary in one era may appear conventional in the next Consider the dramatic reversal in the reputation of Johannes Vermeer whose quiet domestic scenes were largely forgotten for two centuries before being rediscovered and elevated to the pantheon of Old Master painters in the late nineteenth century The Girl with a Pearl Earring now one of the most recognizable images in Western art languished in relative obscurity until scholars began to appreciate the subtle psychological complexity and technical mastery that Vermeer embedded in his seemingly simple compositions This transformation in Vermeer s reputation illustrates a crucial principle of art historical evaluation context is everything The same painting that appeared mundane to eighteenth century collectors who preferred grand historical narratives and dramatic religious scenes captivated modern viewers who had learned to value intimacy psychological nuance and technical innovation over scale and subject matter The painting itself had not changed but the lens through which it was viewed had been fundamentally altered by shifts in artistic taste cultural values and critical methodology **Critical Terms for Art**

**History, Second Edition** Robert S. Nelson,Richard Shiff,2010-03-15 Art has always been contested terrain whether the object in question is a medieval tapestry or Duchamp s Fountain But questions about the categories of art and art history acquired increased urgency during the 1970s when new developments in critical theory and other intellectual projects dramatically transformed the discipline The first edition of Critical Terms for Art History both mapped and contributed to those transformations offering a spirited reassessment of the field s methods and terminology Art history as a field has kept pace with debates over globalization and other social and political issues in recent years making a second edition of this book not just timely but crucial Like its predecessor this new edition consists of essays that cover a wide variety of loaded terms in the history of art from sign to meaning ritual to commodity Each essay explains and comments on a single term discussing the issues the term raises and putting the term into practice as an interpretive framework for a specific work of art For example Richard Shiff discusses Originality in Vija Celmins s To Fix the Image in Memory a work made of eleven pairs of

stones each consisting of one original stone and one painted bronze replica In addition to the twenty two original essays this edition includes nine new ones performance style memory monument body beauty ugliness identity visual culture visual studies and social history of art as well as new introductory material All help expand the book s scope while retaining its central goal of stimulating discussion of theoretical issues in art history and making that discussion accessible to both beginning students and senior scholars Contributors Mark Antliff Nina Athanassoglou Kallmyer Stephen Bann Homi K Bhabha Suzanne Preston Blier Michael Camille David Carrier Craig Clunas Whitney Davis Jas Elsner Ivan Gaskell Ann Gibson Charles Harrison James D Herbert Amelia Jones Wolfgang Kemp Joseph Leo Koerner Patricia Leighton Paul Mattick Jr Richard Meyer W J T Mitchell Robert S Nelson Margaret Olin William Pietz Alex Potts Donald Preziosi Lisbet Rausing Richard Shiff Terry Smith Kristine Stiles David Summers Paul Wood James E Young
