West's Florida Digest 2d, 1984 The Creative Writer's Survival Guide John McNally, 2010-04-15 I write this blurb in distress because for years I've been stealing John McNally's sharp insights into writing and publishing and passing them off as my own Now this generous so and so is sharing his vast experience as a writer and editor with everyone Worse yet this book despite its instructional value is irresistibly unput downably readable Timothy Schaffert author *Devils in the Sugar Shop* **Unnamable** Susette Min, 2018-06-05 Charting its historical conditions and the expansive contexts of its emergence the author challenges the notion of Asian American art as a site of reconciliation for marginalized artists to enter into the canon Pressing critically on how the politics of visibility and recognition reduces artworks by Asian American artists to narrow parameters of categorization this work reconceives Asian American art not as a subset of objects but as a discursive medium that sets up the conditions for a politics to occur By approaching Asian American art in this way the author refigures the way we see Asian American art as an oppositional practice less in terms of its aspirations to be seen than in terms of how it models a different way of seeing and encountering the world Uniquely presented the chapters are organized thematically as mini exhibitions and offer readings of select works by contemporary artists including Tehching Hsieh Byron Kim Simon Leung Mary Lum and Nikki S Lee Inspired above all by their art practice the author argues for an alternative approach to exhibition making and methods of reading that conceives of these works not as exemplary instances of Asian American art but as engaged in an aesthetic practice that remains open ended challenging the assumptions that racialize artists within an

Asian American context In this book the author insists that in order to reassess Asian American art beyond its place in art history she suggests the possible need to let go not only of established viewing and curatorial practices but even the category of Asian American art itself *By Design 2*, 1989 **Artists' Estates** Magda Salvesen, Diane Cousineau, 2005 Artists Estates offers a fascinating journey into the complex and competitive art world through the distinctive lens of those who deal with the paintings prints and sculpture that artists leave behind after their deaths Bringing together interviews conducted by Magda Salvesen the widow of the second generation Abstract Expressionist painter Jon Schueler this unique book provides a window into the goals and desires the conflicts and frustrations and the emotional and financial strains that confront widows companions sons and daughters as the heirs to artists estates The judiciously arranged and edited interviews also address the benefits and liabilities of foundations and trusts through the insights of lawyers gallery dealers and foundation directors Readers will explore well known estates including those of Roy Lichtenstein Mark Rothko Adolph Gottlieb Milton Avery Romare Bearden and David Smith as well as the equally intriguing legacies of lesser known artists whose work came to the fore in the forties and fifties Together the passionate testimonies of families and lovers the measured voices of art professionals and the more than eighty photographs offer an indispensable entre into the private and public worlds of art

Visual Art and the Urban Evolution of the New South Deborah C. Pollack, 2015-01-18 Visual Art and the Urban Evolution of the New South recounts the enormous influence of artists in the evolution of six southern cities Atlanta Charleston New Orleans Louisville Austin and Miami from 1865 to 1950 In the decades following the Civil War painters sculptors photographers and illustrators in these municipalities employed their talents to articulate concepts of the New South aestheticism and Gilded Age opulence and to construct a visual culture far beyond providing pretty pictures in public buildings and statues in city squares As Deborah C Pollack investigates New South proponents such as Henry W Grady of Atlanta and other regional leaders she identifies cultural strivers philanthropists women's organizations entrepreneurs writers architects politicians and dreamers who united with visual artists to champion the arts both as a means of cultural preservation and as mechanisms of civic progress Aestheticism made popular by Oscar Wilde's southern tours during the Gilded Age was another driving force in art creation and urban improvement Specific art works occasionally precipitated controversy and incited public anger yet for the most part artists of all kinds were recognized as providing inspirational incentives for self improvement civic enhancement and tourism art appreciation and personal

fulfillment through the love of beauty Each of the six New South cities entered the late nineteenth century with fractured artistic heritages Charleston and Atlanta had to recover from wartime devastation The infrastructures of New Orleans and Louisville were barely damaged by war but their social underpinnings were shattered by the end of slavery and postwar economic depression Austin was not vitalized until after the Civil War and Miami was a post Civil War creation Pollack surveys these New South cities with an eye to understanding how each locale shaped its artistic and aesthetic self perception across a spectrum of economic political gender and race issues She also discusses Lost Cause imagery present in all the studied municipalities While many art history volumes concerning the South focus on sultry landscapes outside the urban grid Visual Art and the Urban Evolution of the New South explores the art belonging to its cities whether exhibited in its museums expositions and galleries or reflective of its parks plazas marketplaces industrial areas gardens and universities It also identifies and celebrates the creative urban humanity who helped build the cultural and social framework for the modern southern city
