Friendship Michael Jackson, 2023-05-16 In this book renowned anthropologist Michael Jackson draws on philosophy biography ethnography and literature to explore the meanings and affordances of friendship a relationship just as significant as yet somehow different from kinship and love Beginning with Aristotle's accounts of friendship as a political virtue and Montaigne's famous essay on friendship as a form of love Jackson examines the tension between the political and personal resonances of friendship in the philosophy of Hannah Arendt the biography of the Indian historian Brijen Gupta and the oral narratives of a Kuranko storyteller Ketu Ferenke Koroma He offers reflections on childhood friends imaginary friends lifelong friendships and friendships with animals He ruminates particularly on the complications of friendship in the context of anthropological fieldwork exploring the contradiction between the egalitarian spirit of friendship on the one hand and on the

other the power imbalance between ethnographers and their interlocutors Through these stories Jackson explores the unpredictable interplay of mutability and mutuality in intimate human relationships and the critical importance of choice in forming friendship what it means to be loyal to friends through good times and bad and even in the face of danger Through a blend of memoir theory ethnography and fiction Jackson shows us how the elective affinities of friendship transcend culture gender and age and offer us perennial means of taking stock of our lives and getting a measure of our own self worth

New Zealand Painting Michael Dunn,2003 Completely revised and updated Chapters have been rewritten Also added in a substantial new chapter on contemporary Maori and Pacific Island painting as well as an acknowledgement of the coming wave of Asian artists *Art New Zealand* ,1982 A New Companion to The Gothic David Punter,2012-02-20 The thoroughly expanded and updated New Companion to the Gothic provides a series of stimulating insights into Gothic writing its history and genealogy The addition of 12 new essays and a section on Global Gothic reflects the direction Gothic criticism has taken over the last decade Many of the original essays have been revised to reflect current debates Offers comprehensive coverage of criticism of the Gothic and of the various theoretical approaches it has inspired and spawned Features important and original essays by leading scholars in the field The editor is widely recognized as the founder of modern criticism of the Gothic *The Work of Art* Michael D. Jackson,2016-10-25 How are we to think of works of art Rather than treat art as an expression of individual genius market forces or aesthetic principles Michael Jackson focuses on how art effects transformations in our lives Art opens up transitional ritual or utopian spaces that enable us to reconcile inward imperatives and outward constraints thereby making our lives more manageable and meaningful Art allows us to strike a balance between being actors and being acted upon Drawing on his ethnographic fieldwork in Aboriginal Australia and West Africa as well as insights from psychoanalysis religious studies literature and the philosophy of art Jackson deploys an extraordinary range of references from Bruegel to Beuys Paleolithic art to performance art Michelangelo to Munch to explore the symbolic labor whereby human beings make themselves both individually and socially out of the environmental biographical and physical materials that affect them a process that connects art with gestation storytelling and dreaming and illuminates the elementary forms of religious life The Social Life of Art Peter Stupples,Jane Venis,2014-11-10 This study examines not only the objects and processes that make up the artworlds of human history but also the social and cultural circumstances the historicised contexts that bring about their making frame their functioning inform their properties and influence their effects both at the time of their creation and throughout their subsequent biographies In the short span that art has played a part in human life one may conceive of time as a social river with a strong current towards the capricious mainstream and eddies and quiet pools near the banks The current will flow faster in spate and slower in drought But it will be forever in motion It will be unpredictable Nothing will stop its inexorable force Art runs in that social river subject to the flow and chance of time *Taking Off* Brian Turner,2001 Collection of poetry by Brian Turner who is considered to be one of New

Zealand's leading poets Turner's first collection of poetry *Ladders of Rain* 1978 won the Commonwealth Poetry Prize and his sixth collection *Beyond* 1992 won the New Zealand Book Award for Poetry *Taking Off* contains poems written over the past decade Themes of the poems include separation the poet's relationship with his aging father departed friends fishing golf cricket and living in Central Otago
