ABSTRACT

Public speaking is an art. It requires one to cover several important aspects. A good speaker must know the right words to use in order to keep the audience captivated. The selection of the right words is not only an important aspect in understanding the subject matter, but it also helps the audience remember the speech for days to come. **Keywords:** Public speaking; giving a speech.

INTRODUCTION

Public speaking is an art that covers several important aspects. A good speaker must help the audience understand the subject matter and keep them interested until the end. The speaker can use words that can make a dry subject more appealing to the audience. A good speaker must make even an uninteresting subject appeal to the audience. In their book 'Put Your Audience in Your Speech', the authors Brydon & Scott (2006) explain that public speaking is a living and dynamic transaction in which the meaning of a message emerges between the speaker and the audience. speaker speech (subject) listener/ audience/readers When speaking, the following aspects should be kept in mind.

- How should you visualise the subject matter?
- What is the appropriate body language?
- What is the expected response from the audience?
- What new aspects are you trying to bring to an audience that is familiar with the topic?

audience. "There are always three speeches, for every one you actually give. The one you practiced, the one you gave, and the one you wish you gave." (Dale Carnegie). 26 Journal of English Language Teaching LXI/6, 2019
Developing your speech
The challenge faced by most speakers is the fear of speaking in public. Each individual has his/her own way of overcoming this fear. There is no particular technique or method for this. It comes only with practice. Even experienced speakers get nervous sometimes. The fear can sometimes be used to improve your delivery. Preparation is key to improving your confidence. Planning what you are going to say, your choice of words and the reason for choosing those particular words helps. Be critical of your own speech. Think outside the box and gather information and examples that are appropriate to the topic under discussion. Facts and real-life examples help to keep the audience interested. Practice also improves confidence. Actively engage the audience and put them at ease. Carson (2005) gives some ideas and techniques for getting and keeping the attention and respect of the audience. Gaps to be filled
While speaking you have to prepare for certain pauses where the curiosity of the audience is raised. The pauses should not
