## **Competitive Advantage by Fostering a Culture of Intrinsic Motivation and Meaningful Work** Niklas

Baier, 2020-04-23 Bachelor Thesis from the year 2019 in the subject Business economics Review of Business Studies grade 1  
3 Technical University of Munich TUM School of Management Chair for Management Accounting language English abstract  
The bachelor thesis combines theories literature lab and field experiments event studies from the industry and its very own empirical research to argue from both a strategic as well as a financial perspective that an inimitable organizational culture of intrinsic motivation and meaningful work may constitute a source of competitive advantage within the War for Talent The thesis strives at highlighting the importance for firms to adapt to the newly emerged competitive environment that the ongoing War for Talent has created by considering their people as their most valuable asset for the success of the organization as already hinted at throughout The Art of War by Sun Tzu in 500 BC hence the reference in the title of this thesis After a brief review of the circumstances that led to the emergence of the War for Talent and first implications for the industry it is argued from a strategic perspective why motivated talent depicts the key resource for competitive advantage and why conventional extrinsic incentive measures aimed at maximizing productivity are no longer effective Afterwards a proposition will be made of how capitalizing on intrinsic motivation human s inner drive to accomplish inherently interesting and challenging tasks fostered through a framework of meaningful work might be the decisive driver to get ahead in the quest for talent A second string of argumentation draws a connection between meaningful work and superior financial performance This proposition is then tested by an empirical analysis comparing the financial performance of publicly traded companies featured on the 2017 Fortune 100 Best Companies to Work For list against a control portfolio and the broad market confirming significant differences for cumulative stock returns     Sun Tzu Gerald A. Michaelson, Steven Michaelson, 2013     Business Management and the Art of War Shun-te Lo, 1993     Sun Tzu the Art of War for Business Strategies Lin You-Tyan, Jeff Cherng, 2017-08-10 Chinese has a pet phrase Market is as the battlefield whenever there is competition there are winner or loser The winner will pay attention to strategy and leadership The strategy on the battlefield is called warfare method The most famous warfare method in ancient Chinese is Sun Tzu The Art of War Nowadays Sun Tzu The Art of War is not only a famous book in Chinese country from ancient times but also famous all world especially in business has become a strategy and leadership guide book Sun Tzu The Art of War as the Bible of business strategy Japanese began to apply Sun Tzu The Art of War to the enterprise management from The 1960s the most famous man is Konosuke Matsushita been regarded as The God of business He was not only familiar with Sun Tzu The Art of War and attribute all his success to the book but also requires all subordinates to read the book Japanese is the first country to carried out Sun Tzu The Art of War in business then spread to the West Now many Western business leaders have read the book CEO Com listed 24 books leaders must read Sun Tzu The Art of War is on the list Sun Tzu said Warfare is based on deception Chapter 1 and The army maneuvers is established on deception Chapter 7 are equivalent to the concepts of differentiation strategy and

Disruptive innovation besides Generalship signifies the virtues of wisdom sincerity benevolence courage and strictness Chapter 1 is equivalent to the human management and discipline management However just learn by heart with Sun Tzu The Art of War is not enough the application of the book needs understanding judgment and exercise You should practice the thought in accordance with the time and the place Sun Tzu said in Chapter 6 An army does not have constant formation just as water retains no constant shape Those who can adapt his tactics to win victory are called marvelous Wish you reach the peak of victory     People Management ,1997
