Robin Attfield, 2016-07-15 This book relates the value present in the natural world and in human creativity to an underlying purpose which it traces in creation. It opens by invoking the wonder aroused by nature's value and celebrated by poets and moves to a cosmic purpose as the best explanation of this value. Natural evils are considered and set in their evolutionary context. Human creativity is later related to inspiration and to traditional theistic teaching about the purpose of human life. Criticisms of the value approach are considered together with the quest for meaning and fears that Darwinism undermines it which are found to be illusory. New ground is broken through this response to the spectre of bleakness. The author's previous studies of meaningful work are applied to the question of the nature of a worthwhile life and life's meaning. While the world's value is argued to point to creation by a transcendent lover of value, human beings are shown to be capable of augmenting that value through their creativity, not least through activities such as craftsmanship and gardening. In integrating the themes of value, creativity and purpose, the book contributes a new synthesis to the literature of philosophy, environmental studies and theology.

Lost in Wonder Aidan Nichols O. P., 2016-04-22 This book explores the Liturgy as the manifestation by cultic signs of Christian revelation, the setting of the Liturgy in terms of architectural space, iconography and music, and the poetic response which the revelation the Liturgy carries can produce. The conclusion offers a synthetic statement of the unity of religion, cosmology and art. Aidan Nichols makes the case for Christianity's capacity to inspire high culture both in principle and through well-chosen historical examples which draw on the best in Catholicism, Eastern Orthodoxy and Anglicanism.

Wonder and Exile in the New World Alex Nava, 2013-06-21 In *Wonder and Exile in the New World* Alex Nava explores the border regions between wonder and exile particularly in relation to the New World It traces the preoccupation with the concept of wonder in the history of the Americas beginning with the first European encounters goes on to investigate later representations in the Baroque age and ultimately enters the twentieth century with the emergence of so called magical realism In telling the story of wonder in the New World Nava gives special attention to the part it played in the history of violence and exile either as a force that supported and reinforced the Conquest or as a voice of resistance and decolonization Focusing on the work of New World explorers writers and poets and their literary descendants Nava finds that wonder and exile have been two of the most significant metaphors within Latin American cultural literary and religious representations Beginning with the period of the Conquest especially with Cabeza de Vaca and Las Casas continuing through the Baroque with Cervantes and Sor Juana In's de la Cruz and moving into the twentieth century with Alejo Carpentier and Miguel ngel Asturias Nava produces a historical study of Latin American narrative in which religious and theological perspectives figure prominently Wisdom and Wonder Abraham Kuyper, 2011-11-15 *Who's Afraid of Modern Art?* Daniel A.
