Geary's Guide to the World's Great Aphorists James Geary, 2008-12-08 Both an expert and a collector James Geary has devoted his life to aphorisms and the last few years to organizing indexing and even translating them The result is Geary's Guide featuring aphorists like Voltaire Twain Shakespeare Nietzsche Woody Allen Muhammad Ali Emily Dickinson and Mae West as well as international practitioners appearing in English for the first time But it is more than just a conventional anthology It is also an encyclopedia containing brief biographies of each author in addition to a selection of his or her aphorisms The book is a field guide too with aphorists organized into eight different species such as Comics Critics Icons and Painters Poets The book's two indexes by author and by subject make it easily searchable while its unique organizational

structure and Geary's lively biographical entries set it apart from all previous reference works. A perfect follow up to Geary's New York Times bestseller *The World in a Phrase*, Geary's *Guide* is eminently suitable for browsing or for sustained reading. A comprehensive guide to our most intimate idiosyncratic literary form, the book is an indispensable tool for writers and public speakers as well as essential reading for all language lovers. Occidental; an International Review of Books and Literature, 1949. Neo-formalist Papers Joe Andrew, Robert Reid, 1998. The essays have been grouped under the following headings: I Language and the boundaries of genre II Text and intertext III Authorial status and modernity Steene Evolution: Development within Big History, Evolutionary and World-System Paradigms Leonid E. Grinin, Andrey V. Korotayev, 2013-09-30. The application of the evolutionary approach to the history of nature and society has remained one of the most effective ways to conceptualize and integrate our growing knowledge of the Universe, life, society and human thought. The present volume demonstrates this in a rather convincing way. This is the third issue of the Almanac series titled *Evolution: The first volume came out with the sub heading Cosmic Biological and Social the second was entitled Evolution A Big History Perspective*. The present volume is subtitled *Development within Big History Evolutionary and World System Paradigms*. In addition to the straightforward evolutionary approach, it also reflects such adjacent approaches as Big History, the world system analysis, as well as globalization paradigm and long wave theory. The volume includes a number of the exciting works in these fields. The Almanac consists of five sections. The first section *Globalization as an Evolutionary Process Yesterday and Today* contains articles demonstrating that the Evolutionary studies is capable of creating a common platform for the world system approach, globalization studies and the economic long wave theory. The articles of the second section *Society Energy and Future* discuss the role of energy in the universal evolution, human history and the future of humankind. The third section *Aspects of Social Development* touches upon four aspects of social evolution: technological, environmental, cultural and political. The fourth section *The Driving Forces and Patterns of Evolution* deals with various phases of megaevolution. There is also a final section which is devoted to discussions of contemporary evolutionism. This Almanac will be useful both for those who study interdisciplinary macroproblems and for specialists working in focused directions, as well as for those who are interested in evolutionary issues of Cosmology, Biology, History, Anthropology, Economics and other areas of study. More than that, this edition will challenge and excite your vision of your own life and the new discoveries going on around us. **The Family Treasury of Western Literature, Science and Art** Jethro Jackson, 1859. **The Fifth Reader of the School and Family Series** Marcius Willson, 1861. *The Fifth Reader* Marcius Willson, 1861.
