Commodification and Its Discontents Nicholas Abercrombie,2020-10-14 Should human organs be bought and sold Is it right that richer people should be able to pay poorer people to wait in a queue for them Should objects in museums ever be sold The assumption underlying such questions is that there are things that should not be bought and sold because it would give them a financial value that would replace some other and dearly held human value Those who ask questions of this kind often fear that the replacement of human by money values a process of commodification is sweeping all before it However as Nicholas Abercrombie argues commodification can be and has been resisted by the development of a moral climate that defines certain things as outside a market That resistance however is never complete because the two regimes of value human and money are both necessary for the sustainability of society His analysis of these processes offers a thought provoking read that will appeal to students and scholars interested in market capitalism and culture **Reinventing Certainties** Matthew Wheelock Stahl,2006 **Art Journal** ,1980 The Magazine Antiques ,1982 West Coast Review of Books ,1979 **The Oriental Economist** Tanzan Ishibashi,1980 **The Annual Obituary** ,1989 **Directions** ,1980
