*The True Principles of Combat*  
Bert Gevaert, Heinrich Von Gunterrodt, 2000-12-31 The late 16th Century was one of great political and social upheaval an era in which medieval knights feudal armies town levies and hired mercenaries were giving way to modern militaries pike and shot had come to dominate the field and swordplay was a pastime for noble and commoner alike as often to settle affairs of honor as military matters For most students of European Martial Arts the name Heinrich von Gunterrodt is known as little more than a 16th century owner of Europe's oldest known fencing text a c 1300 sword and buckler manuscript called I 33 However this Saxon nobleman was a swordsman soldier and fencing historian in his own right In 1579 he penned a short treatise on the history of fencing entitled *De Veris Principiis Artis Dimicatorie* Of the True Principles of the Art of Combat and dedicated it to Johan Albrecht Duke of Mecklenberg Ostensibly a history tracing the art of swordsmanship and wrestling into antiquity the text is also interesting because of the relationships von Gunterrodt draws between fencing and unarmed combat and his comparisons between what was taught in the fencing schools of his own day with the lessons contained in Ms I 33 Perhaps of most interest to modern students of swordplay in this period is his scathing critique of the Marxbruder fencing guild and public fencing contests or Fechtschulen which he sees as little more than crudely skilled drunken sporting events a criticism that interestingly parallels contemporary writers analyzing the fencing guilds and public prize fights in England and Spain This beautiful full color edition presents a full facsimile transcription and translation of von Gunterrodts original manuscript along with complete annotations and comparisons with other Renaissance martial arts texts A critical analysis of the authors practical fencing advice by renowned swordplay researcher Robert Rutherford The Art and Practice of 16th c German Rapier Fencing is also included Students of Historical European Martial Arts and those interested more generally in the sweeping changes in the nature and purpose of swordplay that occurred in the second half of the 16th century will find this essay a fascinating addition to their libraries
