foundations articulated in his philosophy of civilization and the philosophy of religion Schweitzer argues that the material aspect of our civilization has become far more important than its spiritual counterpart Even organized religion has put itself in the service of politics and economy thereby losing its vitality and moral authority Schweitzer s ethics of reverence for life argues Predrag Cicovacki offers a viable alternative at a time when traditional ethical theories are found inadequate Schweitzer s robust and un dogmatic idealism may offer the best antidote to the prevailing relativism and nihilism of the postmodern epoch His ethical vision directs us toward a new way of building a more just and more peaceful world Collecting sixteen of Schweitzer s most effective essays this volume serves as a compelling introduction to this remarkable thinker and humanist
