Tams, 2012-10-11 The International Court of Justice is the principal judicial organ of the United Nations and plays a central role in the settlement of disputes and the development of international law This commentary analyses the Statute of the Court and the related provisions of the UN charter and the Court's Rules of Procedure Archive as Detour Sau Wai Vennes Cheng, 2024-07-30 The book brings a new approach to see the art history of Hong Kong as a historical mediator and offers alternative perspective to discern the current hype of archive research and archival art practices which informs the commitment in the constant production of socio political meanings through arts The book addresses the current social political crises of Hong Kong by connecting art memory history and political participation together through the site of archive and contextualises in both local and global perspectives it also focuses on the artist archive namely Ha Bik Chuen Archive and archival art practices of contemporary Hong Kong particularly in the social and political unrests however it ripples resonance and reflection not only in the local context but also to the region The book is intended to the readers who are interested in both representational and interpretational nature of art and searching for alternatives means to perceive histories *International Law Reports* E. Lauterpacht, 1987 International Law Reports is the only publication in the world wholly devoted to the regular and systematic reporting in English of courts and arbitrators as well as judgements of national courts Art, Philosophy, and Ideology Aleš Erjavec, 2024-04-22 This volume presents a selection of aesthetic and art theoretical writings by the internationally renowned philosopher Ale Erjavec from the 1990s to the present Erjavec was an active participant in the artistic revolt in Slovenia throughout the 1980 and became one of the most notable international theorists of late and post socialist developments in art His work also extended to new emergent forms of contemporary art and visual culture in global art and culture networks The diverse contexts and artists with which he has engaged gives him a unique critical perspective on major debates in philosophical aesthetics and art theory **Arts-Based Education** Tatiana Chemi, Lihong Wang, Xiangyun Du, 2019-05-07 Core texts addressing creativity in a number of contexts show that creativity as a scientific subject has received principally the attention of Western scholars Is this due to the fact that Western cultures are more creative or sensitive to creativity than the Eastern cultures The editors strongly believe that this is more due to the

differences in understanding and practising creativity in the West and East than to an Eastern indifference to creativity Arts Based Education China and Its Intersection with the World investigates the field of arts based educational practices and research It argues that reflections on these themes must necessarily be reframed and re read beyond the limits of colonialist oppositions and suggests a constructive and reflexive approach to theory and methodology which takes into account intercultural and critical perspectives in these studies This volume is the tangible product of the acknowledgement that China and Chinese culture deserves a more systematic and up to date dissemination through recent studies that bring together the arts learning and creativity It is clustered around two themes 1 China and its communication with the world through arts based education in international contexts and 2 the development of arts education in China

The Making of a Modern Art World Pedith Pui Chan, 2017-03-06 The Making of A Modern Art World explores the artistic institutions and discursive practices prevailing in Republican Shanghai aiming to reconstruct the operational logic and the stratified hierarchy of Shanghai's art world Using guohua as the point of entry this book interrogates the discourse both of guohua itself and the wider discourse of Chinese modernism in the visual arts In the light of the sociological definition of art world this book contextualizes guohua through focusing on the modes of production and consumption of painting in Shanghai examining newly adopted modern artistic practices namely art associations periodicals art colleges exhibitions and the art market

Palestine and Israel John B. Quigley, 1990 The dispute over Palestine between the Palestinian Arabs and the Israelis is one of the most volatile and intractable conflicts in the world today Palestine and Israel examines the history of this battle from the perspective of international law and it argues that a long term solution to the conflict must protect legitimate interests to remain viable an element the author believes has so far been seriously neglected This extensively documented work details the complex politics and agonizing struggles that have characterized the clash between Jews and Arabs examining in depth the competing claims to Palestine and the extent to which legitimate interests remain to be fulfilled Beginning with the early Zionist settlement in Palestine that rose from the effort by Jews to escape long standing discrimination in Europe Qigley investigates the origins of the dispute including the British occupation of Palestine the British Mandate and the involvement of the United Nations He examines the 1948 War the establishment of Israel and explores the legal and political status of Jews there After a detailed analysis of the 1967 War and Israel's occupation of the West Bank and Gaza Strip he concludes with recommendations for resolving the conflict including discussions of the responsibility of other states for the persisting injustice the role of other states in settling the dispute and steps to a possible solution
