Arte Subtilissima:

The Creation, Diffusion, and Reception of Italian Art in the Early Modern Iberian World Corinna Tania Gallori, Benito Navarrete Prieto, 2025-05-30 This edited volume addresses the circulation of works of art images and ideas between the Iberian and Italian world and the subsequent responses this motion generated Amongst the themes discussed are the concepts of centre and periphery replicas and alterations and how items and ideas were reinterpreted The processes of appropriation and transformation create an artistic geography of identities in which originality can be studied through the processes of assimilation of images shared between Europe Asia and America Chapters challenge the negative conceptualization of copying arguing that the copy is not simply a derivation but a new creation that is shaped by the interests and preferences of the receiver Similarly contributors argue for a more nuanced concept of what exactly an artistic centre is The book will be of interest to scholars working in art history Renaissance studies and Iberian studies Arte subtilissima, [span. u. engl.] A facsimile of the 1550 edition of Arte subtilissima Juan de Yciar, Evelyn Shuckburgh, 1960
