Crusading and Warfare in the Middle Ages Simon John,Nicholas Morton,2016-04-22 This volume has been created by scholars from a range of disciplines who wish to show their appreciation for Professor John France and to celebrate his career and achievements For many decades Professor France s work has been instrumental in many of the advances made in the fields of crusader studies and medieval warfare He has published widely on these topics including major publications such as *Victory in the East A Military History of the First Crusade* 1994 and *Western Warfare in the Age of the Crusades* 1999 This present volume mirrors his interests offering studies upon both areas The fifteen essays cover a wide variety of topics spanning chronologically from the Carolingian period through to the early fourteenth century Some offer new insights upon long contested issues such as the question of whether a new form of cavalry was created by Charles Martel and his successors or the implications of the Mongol defeat at Ayn Jalut Others use innovative methodologies to unlock the potential of various types of source material including manuscript illuminations depicting warfare Templar graffiti German crusading songs and crusading charters Several of the articles open up new areas of debate connected to the history of crusading Malcolm Barber discusses why Christendom did not react decisively to the fall of Acre in 1291 Bernard Hamilton explores

how the rising Frankish presence in the Eastern Mediterranean during the central medieval period reshaped Christendom's knowledge and understanding of the North African cultures they encountered In this way this work seeks both to advance debate in core areas whilst opening new vistas for future research **Medieval Arms and Armour** Ralph Moffat,2022 Authoritative reference guide using the documents in which arms and armour first appeared to explain and define them A substantial and impressive piece of scholarship one that will serve scholars and enthusiasts of medieval arms and armour very well indeed Dr Robert W Jones Franklin and Marshall College Medieval arms and armour are intrinsically fascinating From the smoke and noise of the armourer's forge to the bloody violence of the battlefield or the silken panoply of the tournament weapons and armour and those who made and bore them are woven into the fabric of medieval society This sourcebook will aid anyone who seeks to develop a deeper understanding by introducing and presenting the primary sources in which these artefacts are first mentioned Over a hundred original documents are transcribed and translated including wills and inventories craft statutes chronicle accounts and challenges to single combat The book also includes an extensive glossary lavishly illustrated with fifty two images of extant armour and weapons from the period and contemporary artistic depictions from illuminated manuscripts and other sources This book will therefore be of interest to a wide audience from the living history practitioner crafter and martial artist to students of literature military history art and material culture

Western Warfare In The Age Of The Crusades, 1000-1300 John France,2020-09-16 In 1095 the First Crusade was launched establishing a great military endeavour which was a central preoccupation of Europeans until the end of the thirteenth century In *Western warfare in the age of the Crusades 1000 1300* John France offers a wide ranging and challenging survey of war and warfare and its place in the development of European Society culture and economy in the period of the Crusades Placing the crusades in a wider context this book brings together the wealth of recent scholarly research on such issues as knighthood siege warfare chivalry and fortifications into an accessible form *Western warfare in the age of the Crusades 1000 1300* examines the nature of war in the period 1000 1300 and argues that it was primarily shaped by the people who conducted war the landowners John France illuminates the role of property concerns in producing the characteristic instruments of war the castle and the knight This authoritative study details the way in which war was fought and the reasons for it as well as reflecting on the society which produced the crusades **Oriental Armour** H. Russell Robinson,2013-05-22 Detailed scholarly study enhanced with over 400 illustrations surveys defensive armor of Persia Turkey India China Ceylon the Philippines Korea Tibet and other regions Splendid overview brings together much previously inaccessible material *Tracing Old Norse Cosmology* Anders Andr n,2015-01-01 The study of Old Norse religion is a truly multidisciplinary and international field of research The rituals myths and narratives of pre Christian Scandinavia have been studied and interpreted in detail relying mainly on Christian Icelandic literature from the Middle Ages Here Anders Andr n offers a long term perspective on Old Norse cosmology and argues that the fundamental ideas of an ordered universe time

and space in Old Norse religion can be studied in a dialogue between archaeology and the Icelandic narrative tradition Ideas about the world tree middle earth and the sun can be traced in images and material culture from Scandinavian prehistory By combining the prehistoric representations with the later written record the author presents a fresh and nuanced study of the fascinating Old Norse world

A Companion to Paleopathology Anne L. Grauer, 2016-01-19 A Companion to Paleopathology offers a comprehensive overview of this rapidly growing sub field of physical anthropology Presents a broad overview of the field of paleopathology integrating theoretical and methodological approaches to understand biological and disease processes throughout human history Demonstrates how paleopathology sheds light on the past through the analysis of human and non human skeletal materials mummified remains and preserved tissue Integrates scientific advances in multiple fields that contribute to the understanding of ancient and historic diseases such as epidemiology histology radiology parasitology dentistry and molecular biology as well as archaeological archival and historical research Highlights cultural processes that have an impact on the evolution of illness death and dying in human populations including subsistence strategies human environmental adaptations the effects of malnutrition differential access to resources and interpersonal and intercultural violence

Bioarchaeology Clark Spencer Larsen, 1997-11-27 Human remains recovered from archaeological sites can help us interpret lifetime events such as disease physiological stress injury and violent death physical activity tooth use diet and demographic history of once living populations This is the first comprehensive synthesis of the emerging field of bioarchaeology A central theme is the interaction between biology and behaviour underscoring the dynamic nature of skeletal and dental tissues and the influences of environment and culture on human biological variation It emphasises research results and their interpretation covering palaeopathology physiological stress skeletal and dental growth and structure the processes of aging and biodistance It will be a unique resource for students and researchers interested in biological and physical anthropology or archaeology

The Making of Europe Robert Bartlett, 2003-02-27 A wave of internal conquest settlement and economic growth took place in Europe during the High Middle Ages which transformed it from a world of small separate communities into a network of powerful kingdoms with distinctive cultures In this vivid and provocative book Robert Bartlett vividly shows how Europe was itself a product of colonization as much as it was later a colonizer and what this did to shape the continent and the world today
