Army Memoirs:

Naval and Military Memoirs of Great Britain Robert Beatson, 1790 **On Military Memoirs** L.H.E. (Esmeralda) Kleinreesink, 2016-10-11 Winner of the Caforio prize for the best book in armed forces and civil military relations published between 2015 and 2016 In *On Military Memoirs* Esmeralda Kleinreesink offers insight into military books who were their writers and publishers what were their plots and what motives did their authors have for writing them Every Afghanistan war autobiography published in the US the UK Germany Canada and the Netherlands between 2001 and 2010 is compared quantitatively and qualitatively *On Military Memoirs* shows that soldier authors are a special breed that self published books still cater to different markets than traditionally published ones that cultural differences are clearly visible between warrior nations and non warrior nations that not every contemporary memoir is a disillusionment story and that writing is serious business for soldiers wanting to change the world The book provides an innovative example of how to use interdisciplinary mixed method cross cultural research to analyse egodocuments *Military Memoirs of Field Marshal Moyle Sherer, 1830*

Military memoirs of ... the duke of Wellington Joseph Moyle Sherer, 1830 *Guarding the Border: the Military Memoirs of Ward Schrantz, 1912-1917* Jeffrey L. Patrick, 2009 Ward Loren Schrantz of Carthage Missouri entered the U S Army in 1912 at a time when military leaders were still seriously debating the future of the horse cavalry He left active military service in 1946 after the United States dropped the atomic bomb on Japan Schrantz served capably at a time when the U S military was undergoing rapid technological and strategic transformation and as a journalist and attentive observer left a vivid personal account of his time in the Army and Missouri National Guard Editor Jeff Patrick has woven three undated versions of Schrantz's memoir into a single narrative focused on the sparsely documented pre World War I period from 1912 to 1917 thus helping to fill a significant gap in the existing literature Schrantz's memoir is notable not only for the period it covers but also for its lively evocation of a soldier's life during the U S Mexico border disturbances of the early twentieth century Schrantz's account demonstrates the perennial contrast between how soldiers were expected to behave and how they actually behaved it offers colorful and authentic details not usually available from official histories Patrick also has added an appendix consisting of the letters that Schrantz wrote for publication in his hometown newspaper the Carthage Evening Press These documents yield interesting insights into the attitudes and dispositions of U S soldiers during this time as well as the perceptions and opinions of the folks back home Students scholars and others interested in military and borderlands history will find much to enjoy in *Guarding the Border The Military Memoirs of Ward Schrantz 1912-1917*

The Military Memoirs of General John Pope Peter Cozzens, Robert I. Girardi, 2000-11-09 Union general John Pope was among the most controversial and misunderstood figures to hold major command during the Civil War Before being called east in June 1862 to lead the Army of Virginia against General Robert E Lee he compiled an enviable record in Missouri and as commander of the Army of the Mississippi After his ignominious defeat at the Second Battle of Bull Run he was sent to the

frontier Over the next twenty four years Pope held important department commands on the western plains and was recognized as one of the army's leading authorities on Indian affairs but he never again commanded troops in battle In 1886 Pope was engaged by the National Tribune a weekly newspaper published in Washington D C to write a series of articles on his wartime experiences Over the next five years in twenty nine installments he wrote about the war as he had lived it Collected here for the first time Pope's war reminiscences join a select roster of memoirs written by Civil War army commanders Pope presents a detailed review of the campaigns in which he participated and offers vivid character sketches of such illustrious figures as Abraham Lincoln and Secretary of War Edwin M Stanton Clearly written and balanced in tone his memoirs are a dramatic and important addition to the literature on the Civil War Originally published in 1998 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value [The Military Memoir and Romantic Literary Culture, 1780-1835](#) Neil Ramsey, 2016-12-05 Examining the memoirs and autobiographies of British soldiers during the Romantic period Neil Ramsey explores the effect of these as cultural forms mediating warfare to the reading public during and immediately after the French Revolutionary and Napoleonic wars Forming a distinct and commercially successful genre that in turn inspired the military and nautical novels that flourished in the 1830s military memoirs profoundly shaped nineteenth century British culture's understanding of war as Romantic adventure establishing images of the nation's middle class soldier heroes that would be of enduring significance through the nineteenth and twentieth centuries As Ramsey shows the military memoir achieved widespread acclaim and commercial success among the reading public of the late Romantic era Ramsey assesses their influence in relation to Romantic culture's wider understanding of war writing autobiography and authorship and to the shifting relationships between the individual the soldier and the nation The memoirs Ramsey argues participated in a sentimental response to the period's wars by transforming earlier impersonal traditions of military memoirs into stories of the soldier's personal suffering While the focus on suffering established in part a lasting strand of anti war writing in memoirs by private soldiers such stories also helped to foster a sympathetic bond between the soldier and the civilian that played an important role in developing ideas of a national war and functioned as a central component in a national commemoration of war **The Army Historian**, 1993 **Army History**, 1995 *Unusual Undertakings* James Wilson, 2003-03-19 To find an example of a full and successful yet unconventional military career one need look no further than General Jim Wilson Always an outstanding sportsman Jim found himself in the Rifle Brigade after Oxford just before the Second World War His memoir concentrates on six of his major military endeavors North Africa as a platoon commander followed by the long struggle up through Italy both with the Rifle Brigade After the war he was sent to India and became caught up in the momentous events of Partition and in a position to

comment on all the key political and military personalities His career prospered and he was one of the first commanders of a major peacekeeping operation in Cyprus again closely involved with leaders such as Archbishop Makarios Makers of Modern Strategy from Machiavelli to the Nuclear Age Peter Paret, Gordon A. Craig, Felix Gilbert, 1986-10-30 War cannot be controlled in future without an understanding of its past These essays analyse war its strategic characteristics and its political and social functions over the past five centuries **Esthetic Experiments** Marek Wojtaszek, 2014-08-26

Contemporary American landscape is wrought with ongoing processes and phenomena of technicization observable at the intersections of multiple layers of society This book brings to attention their cultural and political aspects emphasizing timeliness and necessity of academic intervention into and evaluation of their specificity and ramifications Presenting critical and analytical account of cultural narratives which define speak of and use diverse technologies of writing sound media representations surveillance war the texts compiled in this volume investigate the coalescence between technological production on the one hand and the textual on the other The idea of the book responds to the current academic appeal inspired by postmodern questioning of the foundations and realized most importantly by deconstruction to dismantle one of the constitutive pillars of Western civilization namely between techne and episteme In their interpretative mode the texts proceed largely experimentally bridging the gap between techne and episteme In doing so they endeavor to reformulate and complexify an experience of American culture The book aims to clarify and exemplify that the junction of text and technology implies that meanings are embedded in a material Consequently the publication introduces and popularizes the assumption that American cultural experience emerges as a genuine experiment of an esthetic nature Military Memoirs of Four Brothers, by the Survivor [T. The Soviet Army's High Commands in War and Peace, 1941-1992 Richard W. Harrison,2022-07-28 The first full treatment of the unique phenomenon of High Commands in the Soviet Army during World War II and the Cold War The war on the Eastern Front during 1941 45 was an immense struggle running from the Barents Sea to the Caucasus Mountains The vast distances involved forced the Soviet political military leadership to resort to new organizational expedients in order to control operations along the extended front These were the high commands of the directions which were responsible for two or more fronts army groups and along maritime axes one or more fleets In all five high commands were created along the northwestern western southwestern and North Caucasus strategic directions during 1941 42 However the highly unfavorable strategic situation during the first year of the war as well as interference in day to day operations by Stalin severely limited the high commands effectiveness As a consequence the high commands were abolished in mid 1942 and replaced by the more flexible system of supreme command representatives at the front A High Command of Soviet Forces in the Far East was established in 1945 and oversaw the Red Army s highly effective campaign against Japanese forces in Manchuria The Far Eastern High Command was briefly resurrected in 1947 as a response to the tense situation along the Korean peninsula and the ongoing civil war in China but was abolished in 1953 soon after Stalin s death Growing tensions with China brought about the recreation of the Far Eastern High Command in 1979 followed a few years later by the appearance of new high commands in Europe and South Asia However these new high commands did not long survive the collapse of the Soviet Union in 1991 and were abolished a year later The book relies almost exclusively on Soviet and post communist archival and other sources and is the first unclassified treatment of this subject in any country East or West

Dead Men Telling Tales Matilda Greig, 2021 Dead Men Telling Tales is an original account of the lasting cultural impact made by the autobiographies of Napoleonic soldiers over the course of the nineteenth century Focusing on the nearly three hundred military memoirs published by British French Spanish and Portuguese veterans of the Peninsular War 1808 1814 Matilda Greig charts the histories of these books over the course of a hundred years around Europe and the Atlantic and from writing to publication to afterlife Drawing on extensive archival research in multiple languages she challenges assumptions made by historians about the reliability of these soldiers direct eyewitness accounts revealing the personal and political motives of the authors and uncovering the large cast of characters from family members to publishers editors and translators involved in production behind the scenes By including literature from Spain and Portugal Greig also provides a missing link in current studies of the Revolutionary and Napoleonic Wars showing how the genre of military memoirs developed differently in south western Europe and led to starkly opposing national narratives of the same war Her findings tell the history of a publishing phenomenon which gripped readers of all ages across the world in the nineteenth century made significant profits for those involved and was fundamental in defining the modern soldier's tale

Decisions at The Wilderness and Spotsylvania Court House Dave Townsend, 2024-01-12 The successive battles of The Wilderness and Spotsylvania Court House opened Lt Gen Ulysses S Grant's 1864 Overland Campaign As the first confrontation between Union and Confederate leaders Grant and Gen Robert E Lee these two bloody battles signaled the new

reality of war The fighting at the Battle of The Wilderness immediately followed by the Battle of Spotsylvania Court House was costly for both sides and while the Union army could replace its losses Lee s Army of Northern Virginia could not It would be exactly one year from Grant s orders to Gen George G Meade stating that Lee s army would be his objective until the surrender at Appomattox Decisions at The Wilderness and Spotsylvania Court House introduces readers to critical decisions made by Confederate and Union commanders throughout the two costly meetings Dave Townsend examines the decisions that prefigured the action and shaped the course of each battle as it unfolded Rather than a linear history of the battles Townsend s discussion of the critical decisions presents readers with a vivid blueprint of the battles developments Exploring the critical decisions in this way allows the reader to progress from a sense of what happened in these battles to why they happened as they did Complete with maps and a guided tour Decisions at The Wilderness and Spotsylvania Court House is an indispensable primer and readers looking for concise introductions to the battles can tour this sacred ground or read about it at their leisure with key insights into the battles and a deeper understanding of the Civil War itself Decisions at The Wilderness and Spotsylvania Court House is the seventh in a series of books that will explore the critical decisions of major campaigns and battles of the Civil War
