Art Of M Yuboku:

Typology of Asian Societies Takashi Inoguchi, 2022-11-19 This book is about generating types of societies by the degree of individuals satisfaction with life domains aspects and styles via factor analysis It adopts an evidence based approach in typologizing and a bottom up rather than a top down perspective Thus the book s position is against Hegel freedom for one person Marx the Asiatic mode of production Weber Protestant ethics and the spirit of capitalism Wittfogel Asiatic autocracy and Rostow Western led modernization These classical and modern authors tend to see Asian societies with somewhat fixated eyes and categorize Asian societies in a top down manner When random sampled respondents are questioned about their satisfaction with daily life in terms of life domains aspects and styles public policy and institutions as well as survival and social relations are inevitably touched upon the latter two being the key dimensions common to the World Values Survey and other cultural surveys This book proposes a new mode of typologizing societies Asian or non Asian not immediately familiar to human geographers cultural anthropologists or sociologists but revealing many complex unknowns with the easy to learn typologizing method
