Speculation as a Fine Art D. G. Watts, 1888 **The Difference Between Fichte's and Schelling's System of Philosophy** G.W.F. Hegel, 1988-03-04 In this essay Hegel attempted to show how Fichte's Science of Knowledge was an advance from the position of Kant in the Critique of Pure Reason and how Schelling and incidentally Hegel himself had made a further advance from the position of Fichte Hegel finds the idealism of Fichte too abstractly subjective and formalistic and he tries to show how Schelling's philosophy of nature is the remedy for these weaknesses But the most important philosophical content of the essay is probably to be found in his general introduction to these critical efforts where he deals with a number of problems about philosophical method in a way which is of general interest to philosophers and not merely interesting to those who accept the Hegelian dialectic method which grew out of these first beginnings Finally the Difference essay is important in the development of Nature Philosophy as a movement in the history of science **Speculation As a Fine Art and Thoughts On Life** Dickson G. Watts, 2015-02-19 A timeless investing classic from 1880 Dickson G Watts shares his thoughts about the art of speculation and life in general All business is more or less speculation Our effort will be to set for the great underlying principles of the art in the application of which must depend on circumstance the time and the man This concise book is a small gem for all investors *Art Investment Trends* Emily Johnson, AI, 2025-02-22 Art

Art and Its Uses in Thomas Mann's Felix Krull Ernest Schonfield, 2008 Thomas Mann's Felix Krull written between 1910-13 and continued though never completed in 1951-54 uses contemporary accounts of these figures as a starting point from which to explore the aesthetics of society The early Krull marks an important stage in Mann's development in a number of respects In writing it Mann acquired a more flexible conception of identity and a new understanding of the relation between artist and public Krull also signals a deeper engagement with Goethe and a shift in Mann's work towards a more open treatment of sexuality The novel presents art as being central to the development of the individual and to social interaction While Krull is nominally a confidence man he is more of a performance artist a purveyor of beauty who relies upon the complicity of his audience The later Krull takes up where Mann left off and continues the justification of art as an essential human activity This study draws upon unpublished material in order to provide a comprehensive reading of Felix Krull It examines the novel within the context of Mann's work as a whole and in doing so it seeks to demonstrate the remarkable continuity of Mann's creative achievement
