Competitive Russia: Foresight Model of Economic and Legal Development in the Digital Age Agnessa O. Inshakova, Elena I. Inshakova, 2020-04-17 This proceedings book presents papers from the 18th International Scientific Conference held in September 2019 at Volgograd State University Russia The research findings are largely based on the theoretical assumptions of Oleg Inshakov renowned for his pioneering work on the theory of economic genetics and the theory of development nucleus for economic systems The papers focus on the impact of the 4th industrial revolution on economic growth the concept of ecosystems corresponding to the rapid spread of digital technologies regulatory and legal aspects of the Russian economy digitalization the development of digital technologies in EAEU and BRICS foreign trade and the corresponding law enforcement measures The book is intended for academics and practitioners as well as anyone interested in the problems of new industrialization and the digital transformation of the economy of business entities regions countries and integration unions and their legal regulation to enhance competitiveness on a national and global scale

The Individual in the International Legal System Kate Parlett, 2011-04-14 Kate Parlett s study of the individual in the international legal system examines the way in which individuals have come to have a certain status in international law from the first treaties conferring rights and capacities on individuals through to the present day The analysis cuts across fields including human rights law international investment law international claims processes humanitarian law and international criminal law in order to draw conclusions about structural change in the international legal system By engaging with much new literature on non state actors in international law she seeks to dispel myths about state centrism and the direction in which the international legal system continues to evolve

Legal Integration and Language Diversity C. J. W. Baaij, 2018 How can the European Union create laws that are uniform in a multitude of languages Specifically how can it attain both legal integration and language diversity simultaneously without the latter compromising the former C J W Baaij argues that the answer lies in the domain of translation A uniform interpretation and application of EU law begins with the ways in which translators and jurist linguists of the EU legislative bodies translate the original legislative draft texts into the various language versions In the European Union law and language are inherently connected The EU pursues legal integration i e the incremental harmonization and unification of its Member States laws for the purpose of reducing national

regulatory differences between Member States However in its commitment to the diversity of European languages its legislative institutions enact legislative instruments in 24 languages Language Diversity and Legal Integration assesses these seemingly incompatible policy objectives and contemporary translation practices in the EU legislative procedure and proposes an alternative source oriented approach that better serves EU policy objectives Contrary to the orthodox view in academic literature and to the current policies of the EU this book suggests that the English language version should serve as the original and only authentic legislative text Translation into the other language versions should furthermore avoid prioritizing clarity and fluency over syntactic correspondence and employ neologisms for distinctly EU legal concepts Ultimately Baaij provides practical solutions to the conflict between the equality of all language versions and the need for uniform interpretation and application of EU law *Drafting Legal Documents in Plain English* Barbara J. Library of Congress Subject Headings Library of Congress,Library of Congress. Subject Cataloging Division,Library of Congress. Office for Subject Cataloging Policy,2013 **The Civil Code of the Russian Federation** Russia (Federation),Peter B. Maggs,1997 This is the definitive English translation of the new Russian Civil Code Parts 1 and 2 often referred to as the second Russian Constitution The Civil Code of the Russian Federation is the result of a collaborative effort of a leading United States expert on Russian law and of the staff of the Private Law Research Center attached to the Office of the President of the Russian Federation the Center that had primary responsibility for drafting the new Civil Code The authoritative introduction complete table of contents and comprehensive index combine to set this work far beyond the utility of any existing translations of the Civil Code It will be a must have resource for government law and international business collections *Fighting Transnational Bribery in Croatia Assessment of Legal and Policy Frameworks* OECD,2022-05-18 This report assesses Croatia s legal and policy framework for fighting transnational bribery based on the criteria applied to countries seeking accession to the OECD Convention on Combating Bribery of Foreign Public Officials in International Business Transactions The report analyses Croatia s criminal legislation and sanctions applicable to individuals and legal entities that commit bribery **Religious Legal Traditions, International Human Rights Law and Muslim States** Kamran Hashemi,2008-08-31 This book offers an exploration of aspects of the subject Islam and Human Rights which is the focus of considerable scholarship in recent years predominantly from Western scholars Thus it is interesting and important to have the field addressed from a non Western perspective and by an Iranian scholar The study draws on Persian language literature that addresses both theological and legal dimensions of the theme The work is also distinctive in that it tackles three areas that have been largely ignored in the literature It undertakes a comparative study of the laws of several Muslim States with respect to religious freedom minorities and the rights of the child The study offers an optimistic vision of the fundamental compatibility of Islam and international human rights standards **Legal Capital in Europe** Marcus Lutter,2006 Europe has known very different systems of company laws for a long time These differences do not only pertain

to the board structures of public companies where single tier and two tier structures can be distinguished they also pertain to the principles of fixed legal capital Fixed legal capital is not a traditional ingredient of English and Irish company law and had to be incorporated into these legal systems only for public limited companies according to the Second European Company Law Directive of 1976 Both jurisdictions have never really embraced these rules Against this background the British Accounting Standards Board ASB and the Company Law Centre at the British Institute of International and Comparative Law BIICL have initiated and supported a study of the benefits of this legal system by a group of experts led by Jonathan Rickford The report of this group has been published in 2004 Its result was that legal capital was costly and superfluous hence the Second Directive should be repealed The British government has adopted this view and wants the European Commission to act accordingly Against this background a group of German and European company law experts academics as well as practitioners have come together to scrutinise sense and benefits of fixed legal capital and all its specific elements guided by the following questions What is the relevant legal concept supposed to achieve What does it achieve in reality What criticisms are there Which proposals or alternatives are available From the outset the group of experts has endeavoured to cooperate with foreign colleagues which resulted in very fruitful and pleasant exchanges This volume contains besides an executive summary of the results 16 essays on specific aspects of legal capital in Germany covering also neighbouring fields of law e g accounting insolvency 7 reports on fixed legal capital in other jurisdictions France Great Britain Italy the Netherlands Poland Spain and the U S A addressing the same questions as the essays on German law The British initiative disapproves of the Second Directive The Directive does only deal with public limited companies in Europe which is reflected in the analysis presented here It is only concerned with the fixed legal capital of public limited companies not with capital issues of private companies The study has arrived at a result that differs completely from that of the Rickford group It verifies the usefulness of the concept of fixed legal capital and wishes to convince the European Commission of the benefits of the Second Company Law Directive

Comparative Legal Linguistics Heikki E.S. Mattila, 2024-11-01 This book examines legal language as a language for special purposes evaluating the functions and characteristics of legal language and the terminology of law Using examples drawn from major and lesser legal languages it examines the major legal languages themselves beginning with Latin through German French Spanish and English This second edition has been fully revised updated and enlarged A new chapter on legal Spanish takes into account the increasing importance of the language and a new section explores the use in legal circles of the two variants of the Norwegian language All chapters have been thoroughly updated and include more detailed footnote referencing The work will be a valuable resource for students researchers and practitioners in the areas of legal history and theory comparative law semiotics and linguistics It will also be of interest to legal translators and terminologists

Legal Developments During 30 Years of

Lithuanian Independence Gintaras Švedas, Donatas Murauskas, 2020-10-17 This volume provides an overview of selected major areas of legal and institutional development in Lithuania since the Restoration of Independence in 1990 The respective chapters discuss changes in fields varying from the constitutional framework to criminal law and procedure The content highlights four major aspects of the fundamental changes that have affected the entire legal system the Post Soviet country s complex historical heritage socio political and other conditions in the process of adopting new rule of law standards international legal influences on the national legal order over the past 30 years and finally the search for entirely new national legal models Over a period of 30 years since gaining its independence from the Soviet Union Lithuania has undergone unique social changes The state restarted its independent journey burdened by the complicated heritage of the Soviet legal system Some major reforms have taken place swiftly while others have required years of thorough analysis of societal needs and the search for optimal examples in other states The legal system is now substantially different with some elements being entirely new and others adapted to present needs

Legal Institutions D.W. Ruiter, 2001-11-30 Building on his contributions to institutional legal theory in Institutional Legal Facts of 1993 Law and Philosophy Library volume 18 the author presents a comprehensive theory of legal institutions To that end the initial theoretical approach which mainly concentrated on problems connected with legal powers and legal acts acts in law is widened to allow for the development of a theory of legal judgements capable of accounting not only for enacted but also unwritten law legal principles and customary law With the use of the concept of institutional legal facts the structure of legal institutions is analyzed in detail In addition to that a classification of legal institutions is provided Extensive attention is given to logical as well as doctrinal problems connected with a conception of legal validity as the mode of existence of legal conditions rather than as a value of legal norms similar to the truth of propositions The study results in an elaborate conceptual framework for institutional analysis of positive law In a final chapter the analytical potential of the framework is put to the test by applying it to the branch of public international law known as the law of treaties Readership Specialists in legal theory and lawyers interested in theoretical issues particularly in linguistic approaches and questions related to the institutional nature of law

The Moral Imagination and the Legal Life Zenon Bankowski, Maksymilian Del Mar, 2016-03-03 What role can resources that go beyond text play in the development of moral education in law schools and law firms How can these resources especially those from the visual and performing arts nourish the imagination needed to confront the ethical complexities of particular situations This book asks and answers these questions thereby introducing radically new resources for law schools and law firms committed to fighting against the moral complacency that can all too often creep into the life of the law The chapters in this volume build on the companion volume The Arts and the Legal Academy also published by Ashgate which focuses on the role of non textual resources in legal education generally Concentrating in particular on the moral dimension of legal education the contributors to this volume include a wide range of theorists and leading legal educators from the UK and the

US *Legal Interpretation in International Commercial Arbitration* Joanna Jemielniak, 2016-04-22 This book fills a gap in legal academic study and practice in International Commercial Arbitration ICA by offering an in depth analysis on legal discourse and interpretation Written by a specialist in international business law arbitration and legal theory it examines the discursive framework of arbitral proceedings through an exploration of the unique status of arbitration as a legal and semiotic phenomenon Historical and contemporary aspects of legal discourse and interpretation are considered as well as developments in the field of discourse analysis in ICA A section is devoted to institutional and structural determinants of legal discourse in ICA in which ad hoc and institutional forms are examined The book also deals with functional aspects of legal interpretation in arbitral discourse focusing on interpretative standards methods and considerations in decision making in ICA The comparative examinations of existing legal framework and case law reflect the international nature of the subject and the book will be of value to both academic and professional readers *The Hong Kong Legal System* Stefan H. C.

Lo, Kevin Kwok-yin Cheng, Wing Hong Chui, 2020 Offers an accessible overview of Hong Kong's legal system and guides first year law students in legal research and methods *Yearbook Law and Legal Practice in East Asia, 1996* De Roo, 1996-12-01 This is the second volume in the series Yearbook Law Legal Practice in East Asia which addresses the legal systems of this important region and provides an insight into some of the most topical issues in East Asian law and practice The overall focus of the series is on the legal aspects of doing business in East Asia although legal issues of a more general nature may also be included where these are relevant for a better understanding of the particular legal culture concerned The majority of the contributions to this major work comes from legal practitioners and scholars specialising in East Asian business law
