intersection between religion and state organized murder in the cases of the Armenian Jewish Rwandan and Bosnian genocides Rather than a comprehensive overview it offers a series of discrete yet closely related case studies that shed light on three fundamental aspects of this issue the use of religion to legitimize and motivate genocide the potential of religious faith to encourage physical and spiritual resistance to mass murder and finally the role of religion in coming to terms with the legacy of atrocity Croatia Marcus Tanner,2001-01-01 This second edition updates the account and follows Croatia's progress to democracy since the death of President Franjo Tudjman BOOK JACKET **International Law in Historical Perspective** J.
