parents But the best thing of all The only truly out of the ordinary thing was the alien spaceship So how do you make creativity a more everyday part of primary teaching Teachers and trainees agree that creativity is a fabulous thing But to get creative approaches into everyday teaching you need to tackle the question what is creativity This book explores this question in an accessible and practical way It helps trainees to do more than know it when they see it by helping them to understand the separate and very diverse elements of creativity The third edition of this popular text retains key material but it has been updated and revised to include two new chapters on the creative curriculum along with links throughout to the Standards and the new National Curriculum This book will help you enhance your teaching so you and the children in your class can be fellow explorers adventurous discoverers and spontaneous investigators *Teaching Art & Design in the Primary School* Gloria Callaway, Abigail Leach, Mary Kear, 2013-12-19 First Published in 1999 It is difficult to imagine a world without arts with no drawing music or painting for example Few if any cultures are without these elements This accessible book roots the practical in the theoretical to explain carefully the principles which underpin practice as well as offering a day to day reference book for classroom use It includes ideas and examples of cross curricular work which retain the integrity of visual arts teaching within the structures and strictures of today's primary schools **Teaching the Primary Curriculum for Constructive Learning** Michael Little, Laura Huxford, 2013-10-23 First Published in 1998 There is a current preoccupation with educational standards with claims that overall standards of achievement have fallen The purpose of this book therefore is to address the question of how children learn across the primary National Curriculum subjects with implications for effective teaching approaches The book emphasises a constructivist view of learning which acknowledges that children have views and attitudes which are formed as a result of experiences in and out of school and that these must be taken into account if meaningful and transferable learning is to be achieved **Children's Perceptions of Learning with Trainee Teachers** Hilary Cooper, Rob Hyland, 2002-01-31 Unique in that it focuses on pupils' perceptions of their learning with trainee teachers in primary schools Includes chapter summaries giving suggestions for teaching strategies discussions with mentors and tutors and further reading Includes examples of successful new teaching approaches introduced by trainees and case studies on religion gender and ethnicity Enables trainee teachers to make links between theory research and practice Relevant to all trainee teachers at primary level concerned to develop good practice
