nation and science are the values invoked most frequently with the market and democracy a distant second As in previous periods of fundamental change in Chinese history rationalization and secularization have played central roles but interiorization nearly disappears as a driving force Also in continuity with the past the state insists on an exclusive right to define and adjudicate orthodoxy Contributors include Daniel H Bays S bastien Billioud Adam Yuet Chau Na Chen Philip Clart Walter B Davis Arif Dirlik Thomas David DuBois Lizhu Fan David Faure Melissa Wei Tsing Inouye Ji Zhe Xiaofei Kang Eric I Karchmer Andr Lalibert Angela Ki Che Leung Xun Liu Richard Madsen David Ownby Ellen Oxfeld Volker Scheid Grace Yen Shen Michael Szonyi Wang Chien ch uan Xue Yu **Folk Art and Modern Culture in Republican China** Felicity Lufkin, 2016-01-21 Folk art is now widely recognized as an integral part of the modern Chinese cultural heritage but in the early twentieth century awareness of folk art as a distinct category in the visual arts was new Internationally intellectuals in different countries used folk arts to affirm national identity and cultural continuity in the midst of the changes of the modern era In China artists critics and educators likewise saw folk art as a potentially valuable resource perhaps it could be a fresh source of cultural inspiration and energy representing the authentic voice of the people in contrast to what could be seen as the limited and elitist classical tradition At the same time many Chinese intellectuals also saw folk art as a problem they believed that folk art as it was promoted superstitious and backward ideas that were incompatible with modernization and progress In either case folk art was too important to be left in the hands of the folk educated artists and researchers felt a responsibility intervene to reform folk art and create new popular art forms that would better serve the needs of the modern nation In the early 1930s folk art began to figure in the debates on social role of art and artists that were waged in the pages of the Chinese press the first major exhibition of folk art was held in Hangzhou and the new print movement claimed the print as a popular artistic medium while for the most part declaring its distance from contemporary folk printmaking practices During the war against Japan from 1937 to 1945 educated artists deployed imagery and styles drawn from folk art in morale boosting propaganda images but worried that this work fell short of true artistic accomplishment and pandering to outmoded tastes The questions raised in interaction with folk art during this pivotal period questions about heritage about the social position of art and the exercise of cultural authority continue to resonate into the present day Chinese Printmaking Today Anne Farrer, 2003 An exhibition at the British Library 7 November 2003 7 March 2004 in association with the Muban Foundation **Selling Happiness** Ellen Johnston Laing, 2004-01-01 As the first substantial investigation of commercial art in China *Selling Happiness* explains how the early twentieth century Chinese public came to accept Western style art as mainstream and the heretofore ignored process by which the Chinese art world became in some sectors at least thoroughly cosmopolitan A monumental study of the most important genre of modern Chinese commercial art this volume will appeal not only to historians of Chinese art but also to those interested in literary economic and social history It will be an essential resource for comparative studies of visual culture BOOK JACKET Title Summary field provided by Blackwell

Vainker, 2007 Contemporary Prints from China since 1950 many published for the first time and never before seen in the West Southeast Asian Personalities of Chinese Descent Leo Suryadinata, 2012 This is a bold project recording the lives of a particular group of Southeast Asians Most of the people whose biographies are included here have settled down in the ten countries that constitute the region Each of them has either self identified as Chinese or is comfortable to be known as someone of Chinese ancestry There are also those who were born in China or elsewhere who came here to work and do business including seeking help from others who have ethnic Chinese connections With the political and economic conditions of the region in a great state of flux for the past two centuries it is impossible to find consistency in the naming process Confucius had stressed that correct names make for the best relationships In this case Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have in one way or another made their homes in or made some difference to Southeast Asia I believe that when he and his colleagues selected the biographies to be included here they have taken a big step towards the rectification of identities for many leading personalities In so doing he has done us all a great service Professor Wang Gungwu National University of Singapore *The Printed Image in China* British Museum, 2010 The British Museum holds one of the finest collections of Chinese prints outside Asia with particular strength in the modern period This book features 100 examples from the British Museums collection It also explains the features of each print including techniques aesthetic principles and cultural context Full description **The Figurative Works of Chen Hongshou (1599?1652)** Tamara Heimarck Bentley, 2017-07-05 Despite the importance of Chen Hongshou 1599 1652 as an artist and scholar of the Ming period until now no full length study in English has focused on his work Author Tamara H Bentley takes a broadly interdisciplinary approach treating Chen s oeuvre in relation to literary themes and economic changes and linking these larger concerns to visual analyses Considering Chen s paintings and prints alongside Chen s romance drama commentaries and prefaces and his collected writings particularly poetry Bentley sheds new light not only on Chen but also on an important cultural moment in the first half of the seventeenth century Through analysis of Chen s figure paintings and print designs Bentley examines the artist s engagement with the values of authenticity and emotion which were part of a larger discourse stressing idiosyncrasy the individual voice and vernacular literature She contrasts these values with the commercial aspects of his production geared at an expanding art market of well to do buyers excavating the apparent contradiction inherent in the two pursuits In the end she suggests the emphasis on the authentic voice was marketed to a broad field of anonymous buyers Though her primary focus is on Chen Hongshou Bentley s

investigation ultimately concerns not only this individual artist but also the effect of early modern changes on an artist's mode of working and his self image in the West as well as the East. The study touches upon expanding international trade and the rise of middle class art markets including print markets not only in China but also in the Dutch Republic in circa 1630-1650. Bentley investigates the specific rhetoric of different categories of images including Chen's non literal figurative works, literal commemorative portraits, his printed romance drama illustrations and his printed playing cards. Bentley's investigation takes in issues of studio practice including various types of image replication.

The Language of Color in China Jun Zhou, Gail Taylor, 2019-01-17. This is the first book to explore color history in Asia. Color is a natural phenomenon and a fundamental element of the universe and offers a medium to communicate with others globally. It is a language of signals such as traffic lights, signs or symbols and an essential part of society. Color attracts people's attention and transmits important information. As such, color language denotes all of the activities of human history and has been associated with changes in society, economic development and dynasties replacing the old with the new. The book brings together many elements of Chinese history with reference to the topic of color and has evolved from the authors' respective interests in art and design, teaching and research consultancy and publishing. The topic will be of increasing importance in the future as a consequence of China's increasing influence in the sphere of global culture. For practitioners of art and design, the book will be a valuable resource for the general public interested in the development of Chinese aesthetics over the centuries; it will provide a new perspective complementary to existing studies about art, design and the history of the region.
