Foundations of Creative Work G. N. Kamau,1988 *Life Is Full of Sweet Spots* Mary O'connor,2013-03-08 Explore and connect with the niches and nuances of the earth the sea and sky our bodies minds and soulsthe places where joy resides Come away with new understanding of life and how its beauty and powers make us inwardly hum how gardening or stargazing touching something wild listening to the sounds of silence learning and loving just simply being all feed our emotional wellness and craving for joy Meet and read the personal reflections of over 40 artists and individuals from 20 states Canada and Australia who share the ways and places in which they found fulfillment or simple contentment in life Find nuggets of insight supportive research and notable quotes that will help illuminate your own sweet spots of life Stretch your mind and nurture your creativity through more than 150 listings and links to actual places activities and resources for turning the discovery of joy into an everyday affair *Experimental Writing in Composition* Patricia Suzanne Sullivan,2012-12-15 From the outset experimental writing has been viewed as a means to afford a more creative space for students to express individuality underrepresented social realities and criticisms of dominant socio political discourses and their institutions Yet the recent trend toward multimedia texts has left many composition instructors with little basis from which to assess these new forms and to formulate pedagogies In this original study Patricia Suzanne Sullivan provides a critical history of experimental writing theory and its aesthetic foundations and demonstrates their application to current multimodal writing Sullivan unpacks the work of major scholars in composition and rhetoric and their theories on aesthetics

particularly avant gardism She also relates the dialectics that shape these aesthetics and sheds new light on both the positive and negative aspects of experimental writing and its attempts to redefine the writing disciplines Additionally she shows how current debates over the value of multimedia texts echo earlier arguments that pitted experimental writing against traditional models Sullivan further articulates the ways that multimedia is and isn't changing composition pedagogies and provides insights into resolving these tensions
