Art Of The Impossible Politics As Morality In Practice:

The Art of the Impossible Václav Havel, 1997 There is no shortage of politicians who make a habit of shooting from the hip but it is much rarer to find one who speaks from the heart Václav Havel knows no other way to speak or to write Both as a dissident and as a playwright it was his sworn purpose for many years to combat evil with nothing but truth As president of Czechoslovakia and now of the Czech Republic he has clung to that habit refusing to turn over either his conscience or his voice to political handlers and professional speechwriters Instead he assumes the additional burden for him it is a distinct pleasure of composing all of his oratory Audiences from New York to New Delhi Oslo to Tokyo have been the luckier for his decision This volume consists of thirty five of these essays written between the years 1990 and 1996 that manage to be both profoundly personal and profoundly political Havel writes of totalitarianism its miseries and the nonetheless difficult emergence from it He describes how his country and the other postcommunist countries are learning democracy from scratch and are encountering obstacles from inside and out He marvels at the single technology driven civilization that envelops the globe and the challenges this presents to multicultural realities He invokes the duty of every person alive to prevent hatred and fear from derailing history ever again He acknowledges the advantage it is for doing a good job as president to know that I do not belong in the position and that I can at any moment and justifiably be removed from it And he reminds us that contrary to all appearances common sense moderation responsibility good taste feeling instinct and conscience are not alien to politics but are the very key to its long term success *Political Action in Václav Havel's Thought*

Delia Popescu, 2012-01-01 *Political Action in Václav Havel's Thought The Responsibility of Resistance* by Delia Popescu explores the Czech dissident's theory of individual opposition resistance to oppression and individual responsibility The book contributes to our understanding of both the extreme circumstances of oppression and to the subversive uses of oppression in modern liberal democracy

Politics of Fear, Practices of Hope Stefan Skrimshire, 2011-11-03 *Politics of Fear Practices of Hope* is about the relationship between two hugely influential ideas in political life fear and hope How are cultures of resistance nurtured within an environment of paranoia and social paralysis Stefan Skrimshire argues that grass roots responses to a politics of fear coincide with an explosion of interest in the quasi religious themes of apocalypse eschatology and utopia in cultural life Where visions of a better future are replaced by the acceptance of a fearful present a state of war with no end this is an important examination of the beliefs that underpin our capacity to hope

The Politics of Truth and Other Untimely Essays Ellis Sandoz, 1999 This volume explores the historical and theoretical underpinnings of personal liberty and free government and provides an analysis of the crisis of civic consciousness endangering both

Confronting Totalitarian Minds: Jan Patočka on Politics and Dissidence Aspen E. Brinton, 2021-05-01 The Czech philosopher Jan Patočka not only witnessed some of the most turbulent politics of twentieth century Central Europe but shaped his philosophy in response to that tumult One of the last students of Edmund Husserl and Martin Heidegger he

inspired Václav Havel and other dissidents who confronted the Communist regime before 1989 as well as being actively involved in authoring and enacting Charter 77. He died in 1977 from medical complications resulting from interrogations of the secret police. *Confronting Totalitarian Minds* examines his legacy along with several contemporary applications of his ideas about dissidence, solidarity, and the human being's existential confrontation with unjust politics. Expanding the current possibilities of comparative political theory, the author puts Patocka's ideas about dissidence, citizen mobilization, and civic responsibility into conversation with notable world historical figures like Mahatma Gandhi, Václav Havel, Dietrich Bonhoeffer, and other contemporary activists. In adding a fresh voice to contemporary conversations on transcending injustice, *Confronting Totalitarian Minds* seeks to educate a wider audience about this philosopher's continued relevance to political dissidents across the world. Phenomenology 2010. Volume 5: Selected Essays from North America, Part 2:

Phenomenology beyond Philosophy Barber, Michael, Embree, Lester, Nenon, Thomas, 2010-01-01 **The Politics of Actually Existing Unsustainability** John Barry, 2012-02-23 At the level of developing a progressive and critical theoretical understanding of unsustainability, it argues for the importance of integrating vulnerability, which has been largely neglected by both mainstream western political theory and analyses of the current global ecological crisis. It suggests that valuable insights into the causes of and alternatives to unsustainability can be found in a critical embracing of human vulnerability and dependency as both constitutive and ineliminable aspects of what it means to be human. Rather than seeing invulnerability as the appropriate response, the book defends resilience and the ability to cope with, rather than solve, vulnerability as more productive. **Ibss: Political Science: 1997** British Library of Political and Economic

Science, 1999-01-14 Provides an unrivalled overview of intellectual development in political science. *Václav Havel's Meanings* David S. Danaher, Kieran Williams, 2024-01-01 No one in Czech politics or culture could match the international stature of Václav Havel at the time of his death in 2011. In the years since his passing, his legacy has only grown as developments in the Czech Republic and elsewhere around the world continue to show the importance of his work and writing against a range of political and social ills, from autocratic brutality to messianic populism. This book looks squarely at the heart of Havel's legacy: the rich corpus of texts he left behind. It analyzes the meanings of key concepts in Havel's core vocabulary: truth, power, civil society, home, appeal, indifference, hotspot, theatre, prison, and responsibility. Where do these concepts appear in Havel's oeuvre? What part do they play in his larger intellectual project? How might we understand Havel's focus on these concepts as a centerpiece of his contribution to contemporary thought? How does Havel's particular perspective on the meaning of these concepts speak to us in the here and now? The ten contributors use a variety of methodological tools to examine the meaning of these concepts, drawing on a diversity of disciplines: political science and political philosophy, historical and cultural analysis, discourse, textual analysis, and linguistic corpus analysis. **The Ethics and Economics of Liberal Democracies** Carl Cavanagh Hodge, Andrew David Irvine, 2024-04-17 Rarely in the short history
