Art On The Line:

Art Line Thought S.B. Mallin, 2012-12-06 *Art Line Thought* discusses the main issues that beset our time and philosophy by locating these same issues in artworks and describing closely what is shown there While respecting their differences art and philosophy are thus made to cross back and forth into one another delineating in fresh ways our concerns about nature the human and non human the body femininity ecology technology textism the end of history community postmodernism relativism and non Eurocentric ethics A philosophy of line gathers these issues opposing the current dominance of word and linguistic analyses Art has long been aware that the line communicates meaning at least as well as the word The volume is divided between contemporary and prehistoric art in order to reveal the presumptions of Western culture and how we might move beyond it Since the book is a critique of Eurocentric thinking and prose it works at finding new styles of both Its philosophical meditation is directed equally to those who are intellectually interested in contemporary and prehistoric art in theories of postmodern culture and criticism and in anthropology **Art on the Line** Courtauld Institute of Art, 2001

Abstraction in Art and Nature Nathan Cabot Hale, 2012-06-19 In this stimulating thought provoking guide a noted sculptor and teacher demonstrates how to discover a rich new design source in the abstractions inherent in natural forms Through systematic study of such properties as line form shape mass pattern light and dark space proportion scale perspective and color as they appear in nature students can learn to utilize the infinite variety and diversity of those elements as a wellspring of creative abstraction The author invites students to learn the necessary techniques through a series of projects devoted to exploring and drawing plants animals birds landscapes seascapes skies and more Lines of growth and structure water and liquid forms weather and atmospheric patterns luminosity in plants and animals earth colors and lightning are among the sources of abstraction available to the artist who is aware of them This book will train you to see and use these elements and many more An intriguing blend of art psychology and the natural sciences *Abstraction in Art and Nature* is profusely illustrated with over 370 photographs scientific illustrations diagrams and reproductions of works by the great masters It not only offers a mind stretching new way of learning and teaching basic design but deepens our awareness of the natural environment In short Mr Hale s book is an indispensable guide that artists teachers and students will want to have close at hand for instruction inspiration and practical guidance **Composition in Art** Henry Rankin

Poore, 1976-01-01 A painting s technique color and perspective may all be excellent yet the painting will fail unless its composition succeeds Composition is the harmonious arranging of the component parts of a work of art into a unified whole Henry Poore examines the works of old masters and moderns in this book and uses these examples to explain the principles of compositions in art All the paintings that the author analyzes are illustrated in the text 166 illustrations including 9 in full color Thirty two diagrams by the author accompany his textural discussion of such topics as the importance of balance entrance and exit circular observation angular composition composition with one or more units and light and shade Balance

is the most important of these topics and it is considered in the greatest detail balance of the steelyard vertical and horizontal balance and so on A complete index enables the reader to locate his own specific areas of interest To see how a painting by C zanne Goya or Hopper for example follows definite principles of composition allows the practicing artist or art student to learn composition from the finest instructors the artists themselves This book is also very useful to the art devotee who will find his appreciation of the subject greatly enhanced The Arts Go to School David Booth,Masayuki Hachiya,2004 Discover the power the arts bring to every aspect of learning Incorporating the arts in your classroom opens up new possibilities expands the mind creates a thirst for knowledge and helps students become more open to the world around them offering another way of thinking about being in and constructing our world Too often classroom teachers face the challenge of teaching the arts without the background or support they need The Arts Go to School explores every aspect of implementing and integrating the arts into both the curriculum and everyday life It contains a wealth of classroom activities that help kids give form to their thoughts and feelings This easy to use resource features chapters on each of the major art forms and shows teachers how to help students meet related curriculum outcomes music from composing songs and the elements of music to novel approaches to singing songs visual arts from exploring pattern shape color and texture to special events that feature mobiles collages and paper structures drama from playing moving and imagining to communicating improvising and performing dance from physical ways of conceptualizing to dance as a problem solving exercise media from being intelligent media users and using interactive media to taking a media field trip The Arts Go to School offers a glimpse into dozens of exemplary classrooms where you can see hear and feel the arts bring learning to life Checklists throughout the book provide handy reminders to key outcomes and guide teachers in thoughtful encouragement and assessment
