*Art Psychotherapy Groups in The Hostile Environment of Neoliberalism* Sally Skaife, Jon Martyn, 2022-02-23 This book explores how the hostile environment of neoliberalism affects art therapy in Britain It shows how ambiguity in art and in psychoanalytically understood relationships can enable art psychotherapy groups to engage with class dynamics and aspire to democracy The book argues that art therapy needs to become a political practice if it is to resist collusion with a system that marginalises collectivity and holds individuals responsible for both their suffering and their recovery It provides accounts of the contradictions that are thrown up by neoliberalism in art therapists workplaces as well as accounts of art therapy groups with those affected by the fire at Grenfell Tower in an acute ward a women s prison a community art studio and in a refugee camp Written by art psychotherapists for arts therapists and other mental health workers the book will bring political awareness and consideration of resistance into all art therapy relationships whatever the context and client group *Art Psychotherapy Groups* SALLY SKAIFE, Val Huet, 2014-02-25 A growing number of art therapists are also

trained in group analytic psychotherapy This book explores the new theories and models for practice arising from the merging of these two disciplines Contributors ask whether a model can be applied universally to art therapy group work with diverse client groups They present in depth case studies looking at work with the following children drug and alcohol abusers forensic patients patients on acute psychiatric wards the cognitively impaired elderly institutionalised patients moving into the community A common theme which emerges is that the physical use of art materials and the space of the art room offer a possibility for communication of feelings which is not possible in purely verbal groups This allows clients who would not normally be considered for group therapy to benefit from a psychodynamic group process **ART-BASED GROUP**

**THERAPY** Bruce L. Moon, 2016-05-09 Leading art therapy groups is often a challenge but as Bruce Moon so eloquently describes in this new second edition making art in the context of others is an incredibly and almost inexplicably powerful experience By placing the art at the center of practice Art Based Group Therapy creates an explanatory model and rationale for group practice that is rooted in art therapy theory and identity There are four primary goals discussed in this text First an overview of essential therapeutic elements of art based group work is provided Second a number of case vignettes that illustrate how therapeutic elements are enacted in practice are presented Third the author clearly differentiates art based group therapy theory from traditional group psychotherapy theory Fourth the aspects of art based group work and their advantages unique to art therapy are explored Art based group processes can be used to enhance participants sense of

community and augment educational endeavors promote wellness prevent emotional difficulties and treat psychological behavioral problems Artistic activity is used in art based groups processes to 1 create self expression and to recognize the things group members have in common with one another 2 develop awareness of the universal aspects of their difficulties as a means to identify and resolve interpersonal conflicts 3 increase self worth and alter self concepts 4 respond to others and express compassion for one another and 5 clarify feelings and values Through the author s effective use of storytelling the reader encounters the group art therapy experience transcending the case vignette and didactic instruction Art based group therapy can help group members achieve nearly any desired outcome and or address a wide range of therapeutic objectives The book will be of benefit to students practitioners and educators alike Using it as a guide art therapy students may be more empowered to enter into the uncertain terrains of their practice grounded in a theory soundly based in their area of study Practitioners will no doubt be encouraged validated and inspired to continue their work The author succeeds in establishing a framework that allows art therapists to communicate the value of their work in a language that is unique to art therapy
