Artarchitecture And Liturgical Reform Liturgical Arts Society 19281972:

Visual Arts in the Worshipping Church DeBoer,2016 Although numerous studies have examined biblical and theological rationales for using the visual arts in worship this book by Lisa J DeBoer fills in a piece of the picture missing so far the social dimensions of both our churches and the various art worlds represented in our congregations The first part of the book looks at Orthodoxy Catholicism and Protestantism in turn including case studies of specific congregations showing how each tradition s use of the visual arts reveals an underlying ecclesiology DeBoer then focuses on six themes that emerge when Orthodox Catholic and Protestant uses of the visual arts are examined together the arts as expressions of the church s local and universal character the meanings attributed to particular styles of art for the church the role of the arts in enculturating the gospel and more DeBoer s *Visual Arts in the Worshipping Church* will focus and deepen the thinking of pastors worship leaders artists students and laypeople regarding what the arts might do in the midst of their congregations An

Architecture of Immanence Mark A. Torgerson,2007-01-22 Torgerson begins by discussing God s transcendence and immanence and showing how church architecture has traditionally interpreted these key concepts He then traces the theological roots of immanence s priority from liberal theology and liturgical innovation to modern architecture Next Torgerson illustrates this new architecture of immanence through particular practitioners focusing especially on the work of theologically savvy architect Edward Anders S vik Finally he addresses the future of church architecture as congregations are buffeted by the twin forces of liturgical change and postmodernism **Icons in the Western Church** Jeana

Visel,2016-09-06 Within the Eastern tradition of Christianity the eikon or religious image has long held a place of honor In the greater part of Western Christianity however discomfort with images in worship both statues and panel icons has been a relatively common current particularly since the Reformation In the Roman Catholic Church after years of using religious statues the Second Vatican Council s call for noble simplicity in many cases led to a stripping of images that in some ways helped refocus attention on the eucharistic celebration itself but also led to a starkness that has left many Roman Catholics unsure of how to interact with the saints or with religious images at all Today Western interest in panel icons has been rising yet we lack standards of quality or catechesis on what to do with them This book makes the case that icons should have a role to play in the Western Church that goes beyond mere decoration Citing theological and ecumenical reasons Visel argues that with regard to use of icons the post Vatican II Roman Catholic Church needs to give greater respect to the Eastern tradition While Roman Catholics may never interact with icons in quite the same way that Eastern Christians do we do need to come to terms with what icons are and how we should encounter them **There Were Also Many Women There** Katherine E.

Harmon,2013-01-01 Where are the women in liturgical history In considering the influential liturgical movement in the United States during the first half of the twentieth century Katharine E Harmon reveals that the reality is analogous to Matthew s account of the crucifixion of Jesus there were also many women there Matt 27 55 In this groundbreaking study

Harmon considers women's involvement in the movement. Here readers explore the contributions of Maisie Ward, Dorothy Day, Catherine deHueck, Doherty, Ade Bethune, Therese Mueller, and many others. Harmon shows how movements and institutions such as progressivism, Catholic women's organizations, Catholic Action, the American Grail Movement, and daily Catholic family life played a prominent role in the liturgical renewal. The historical record is clear that women were there; they ministered to the Mystical Body, and their important work must be recognized.

A Sense of the Sacred R. Kevin Seasoltz, 2005-01-01

There have been many histories of Christian art and architecture, but none written by a theologian such as Kevin Seasoltz. Following a chapter on culture as the context for theology, liturgy, and art, Seasoltz surveys developments from the early church up through the conventional artistic styles and periods. Comprehensive, illuminating, ecumenical.

Sanctioning Modernism Timothy Parker, Monica Penick, Vladimir Kulic, 2014-06-01

In the decades following World War II, modern architecture spread around the globe alongside increased modernization, urbanization, and postwar reconstruction, and it eventually won widespread acceptance. But as the limitations of conventional conceptions of modernism became apparent, modern architecture has come under increasing criticism. In this collection of essays, experienced and emerging scholars take a fresh look at postwar modern architecture by asking what it meant to be modern, what role modern architecture played in constructing modern identities, and who sanctioned or was sanctioned by modernism in architecture. This volume presents focused case studies of modern architecture in three realms: political, religious, and domestic, that address our very essence as human beings. Several essays explore developments in Czechoslovakia, Romania, and Yugoslavia, and document a modernist design culture that crossed political barriers such as the Iron Curtain more readily than previously imagined. Other essays investigate various efforts to reconcile the concerns of modernist architects with the traditions of the Roman Catholic Church and other Christian institutions. And a final group of essays looks at postwar homebuilding in the United States and demonstrates how malleable and contested the image of the American home was in the mid-twentieth century. These inquiries show the limits of canonical views of modern architecture and reveal instead how civic institutions, ecclesiastical traditions, individual consumers, and others sought to sanction the forms and ideas of modern architecture in the service of their respective claims or desires to be modern.

Christian Critics Eugene McCarraher, 2000

While all supported movements for the rights of labor, racial minorities, and women, some endorsed the military-industrial order that established the professional managerial class as a dominant national

Osborne,2018-04-24 In the mid twentieth century American Catholic churches began to shed the ubiquitous spires stained glass and gargoyles of their European forebears turning instead toward startling and more angular structures of steel plate glass and concrete But how did an institution like the Catholic Church so often seen as steeped in inflexible traditions come to welcome this modernist trend Catherine R Osborne s innovative new book finds the answer the alignment between postwar advancements in technology and design and evolutionary thought within the burgeoning American Catholic community A new visibly contemporary approach to design church leaders thought could lead to the rebirth of the church community of the future As Osborne explains the engineering breakthroughs that made modernist churches feasible themselves raised questions that were for many Catholics fundamentally theological Couldn t technological improvements engender worship spaces that better reflected God s presence in the contemporary world Detailing the social architectural and theological movements that made modern churches possible *American Catholics and the Churches of Tomorrow* breaks important new ground in the history of American Catholicism and also presents new lines of thought for scholars attracted to modern architectural and urban history **God's House is Our House** Richard S.
