Dillon explores the importance of the placement of each letter in early alphabets and how each letter represented a specific step on the alchemical path of self transformation She investigates the alphabet s spread around the world beginning in Egypt and then spreading through Hebrew Greek and other ancient systems of writing and divination These include Germanic Runes Celtic Oghams Tarot cards the I Ching and the wisdom of Mother Goose Comparing the mythic attributes of many traditions the author reveals the commonality of a numerical placement of symbols and how the hidden message was adapted by multiple peoples using objects and shapes from their own traditions Examining the esoteric wisdom encoded in the alphabet Dillon divides the numerical sequence of letters into three distinct parts The first family of letters represents the Earth and describes the cycle of the natural year The second family represents the Underworld and symbolizes the hero s journey through judgments and death into the light of day The third represents the Heavens and its astronomical cycles Together our alphabet symbols are a spell of alchemical stages on a path toward the light Hidden in plain sight our alphabet represents a transmission of ancient wisdom the great alchemical Mystery of transforming dark earth into shining gold of releasing the soul from the bonds of matter into the gold of enlightenment
