American Period Interiors In Miniature:

American Period Interiors in Miniature Kate Doordan Klavan, 1984 *American Period Interiors in Miniature* Kate Doordan Klavan, 1984-05-01 *American Paintings at Harvard* Theodore E. Stebbins, Melissa Renn, 2008-01-01 This volume features nearly 500 paintings watercolors pastels and miniatures from Harvard University's storied yet little known collection of American art. These works, many unpublished, are drawn from the Harvard Art Museums, the University Portrait Collection, the Peabody Museum of Archaeology and Ethnology and other entities and date from the early colonial years to the mid 19th century. Highlights include a rare group of 17th century portraits along with important paintings by Robert Feke, John Singleton Copley, Charles Willson Peale, Gilbert Stuart, and Washington Allston, in addition to works depicting western and Native American subjects by Alexandre de Batz, Henry Inman, and Alfred Jacob Miller, among others. Each work is accompanied by scholarly commentary that draws on extensive new research as well as a complete exhibition and reference history. An introduction by Theodore E. Stebbins Jr. describes the history of the collection. Lavishly illustrated in color, this compendium is a testament to the nation's oldest collection of American art and an essential resource for scholars and collectors alike.

Interior Provocations Anca I. Lasc, Deborah Schneiderman, Keena Suh, Karin Tehve, Alexa Griffith Winton, Karyn Zieve, 2020-12-17 *Interior Provocations: History, Theory, and Practice of Autonomous Interiors* addresses the broad cultural, historical, and theoretical implications of interiors beyond their conventionally defined architectural boundaries. With provocative contributions from leading and emerging historians, theorists, and design practitioners, the book is rooted in new scholarship that expands traditional relationships between architecture and interiors and that reflects the latest theoretical developments in the fields of interior design history and practice. This collection contains diverse case studies from the late eighteenth century to the twenty-first century, including Alexander Pope's Memorial Garden Design, Indaba, and Robin Evans. It is an essential read for researchers, practitioners, and students of interior design at all levels.

Creative Crafts and Miniatures, 1984 **Early America in Miniatures** Marie Woodruff, 1976 **Buildings in Miniature** Gerald Jensen, 1982 *In Miniature* Simon Garfield, 2019-03-12 Bestselling award-winning writer Simon Garfield returns with an enthralling investigation of humans' peculiar fascination with small things and what small things tell us about our larger world. Simon Garfield is an exuberant truffle hound of the recondite and delightful factoid. *Sunday Times* London. Simon Garfield writes books that shine a light on aspects of the everyday world in order to reveal the charms and eccentricities hiding in plain sight around us. After beguiling fans with books about everything from typography to time from historic maps to the color mauve, he's found his most delightful topic yet: miniatures. Tiny Eiffel Towers, Platoons of brave toy soldiers, A doll's house created for a Queen, Diminutive crime scenes crafted to catch a killer, Model villages and miniscule railways. These are just a few of the objects you will discover in the pages of *In Miniature*. Bringing together history, psychology, art, and obsession, Garfield explores what fuels the strong appeal of miniature objects among collectors, modelers,

and fans The toys we enjoy as children invest us with a rare power at a young age conferring on us a taste of adult sized authority For some the desire to play with small things becomes a desire to make small things We live in a vast and uncertain world and controlling just a tiny scaled down part of it restores our sense of order and worth As it explores flea circuses microscopic food ancient tombs and the Vegas Strip In Miniature changes the way we perceive our surroundings encouraging all of us to find greatness in the smallest of things *John Singleton Copley in America* Carrie Rebora Barratt,1995 A lavish illustrated volume published to accompany an exhibition of Copley s work that will be traveling to several cities during 1996 The focus is on the paintings miniatures and pastels that Copley the supreme portraitist of the colonial era produced before he moved to London in 1774 Four principal essays place the work in historical and social context and bring new critical methods to bear upon the study of portraits and portraiture four shorter essays treat various aspects of Copley s art and techniques Catalog entries detail the sitters lives and the ways in which Copley enhanced his subjects status and presence 10x12 25 Annotation copyright by Book News Inc Portland OR **Inspiring Walt Disney: The Animation of French Decorative Arts** Wolf Burchard,2021-12-06 Pink castles talking sofas and objects coming to life what may sound like the fantasies of Hollywood dream maker Walt Disney were in fact the figments of the colorful salons of Rococo Paris Exploring the novel use of French motifs in Disney films and theme parks this publication features forty works of eighteenth century European design from tapestries and furniture to Boulle clocks and Sevres porcelain alongside 150 Disney film stills drawings and other works on paper The text connects these art forms through a shared dedication to craftsmanship and highlights references to European art in Disney films including nods to Gothic Revival architecture in Cinderella 1950 bejeweled medieval manuscripts in Sleeping Beauty 1959 and Rococo inspired furnishings and objects brought to life in Beauty and the Beast 1991 Bridging fact and fantasy this book draws remarkable new parallels between Disney s magical creations and their artistic inspirations *Moving Rooms* John Harris,2007-01-01 Since at least Tudor times there have been architectural salvages panelling chimney pieces doorways or any fixtures and fittings might be removed from an old interior to be replaced by more fashionable ones Not surprisingly a trade developed and architects builders masons and sculptors sought out these salvages By 1820 there was a growing profession of brokers and dealers in London and a century later antique shops were commonplace throughout England This fascinating book documents the break up sale and re use of salvages in Britain and America where the fashion for so called Period Rooms became a mainstay of the transatlantic trade Much appreciated by museum visitors period rooms have become something of a scholarly embarrassment as research reveals that many were assembled from a variety of sources One American embraced the trade as no other the larger than life William Randolph Hearst who purchased tens of thousands of architectural salvages between 1900 and 1935 **Annual Report** United States National Museum,1917 Report Upon the Condition and Progress of the U.S. National Museum During the Year Ending June 30 ...
