American Salons Encounters With European Modernism 1885 1917:

American Salons Robert M. Crunden, 1993-01-28 In *American Salons* Robert Crunden provides a sweeping account of the American encounter with European Modernism up to the American entry into World War I. Crunden begins with deft portraits of the figures who were central to the birth of Modernism including James Whistler the eccentric expatriate American painter who became the archetypal artist in his dress and behavior and Henry and William James who broke new ground in the genre of the novel and in psychology influencing an international audience in a broad range of fields. At the heart of the book are the American salons the intimate personal gatherings of artists and intellectuals where Modernism flourished. In Chicago Floyd Dell and Margery Currey spread new ideas to Sherwood Anderson Theodore Dreiser and others. In London Ezra Pound could be found behind everything from the cigars of W B Yeats to the prose of Ford Madox Hueffer. In Paris the salons of Leo and Gertrude Stein and Michael and Sarah Stein gave Picasso and Matisse their first secure audiences and incomes meanwhile Gertrude Stein produced a new writing style that had an incalculable impact on the generation of Ernest Hemingway. Most important of all were the salons of New York City Alfred Stieglitz pioneered new forms of photography at the famous 291 Gallery Mabel Dodge brought together modernist playwrights and painters introducing them to political reformers and radicals. At the salon of Walter and Louise Arensberg Marcel Duchamp and Francis Picabia rubbed shoulders with Wallace Stevens Man Ray and William Carlos Williams. By 1917 no art in America remained untouched by these new institutions. From the journalism of H L Mencken to the famous 1913 Armory Show in New York Crunden illuminates this pivotal era offering perceptive insights and evocative descriptions of the central personalities of Modernism.

Social Control and Public Intellect Sean McMahon, 2018-04-24 As the last presumptive founder of American sociology Edward Alsworth Ross 1866 1951 was the first to secure its place in public discourse Originally an economist who strongly criticized monopolies Ross sought answers to the larger social issues of his day His theory of social control helped to unify sociology into an independent discipline and elevate social research into an academic necessity He implored sociologists to explain those social forces that unified people into sustainable groups This first full analysis of Ross s intellectual legacy uses new sources to explore more broadly the scope of his influence Throughout his career Ross remained a controversial figure Strong critiques of monopolies and immigration led to his dismissal from Stanford in 1900 in a landmark academic freedom case Never satisfied with qualitative research Ross traveled the world in search of social changes which he reported back to the American public A 1910 trip to China yielded profound conclusions on the American economy and on the status of women As one of the first observers of revolutionary Russia Ross emerged at once critical of socialism and confident in the American system Moreover his articles reached a wide audience to demonstrate the usefulness and scope of American sociology As Ross gained public favor however his academic reputation waned By the 1920s he was left in the wake of quantitative scholarship His concept of social control continued to engage academic theorists while new applications emerged in industrial management After his death scholars have debated new meanings of social control even as the disciplines of history and sociology have fragmented In offering this examination of Ross s thought McMahon draws on new primary materials including interviews to recreate the controversies that surrounded his career The depths of his pursuits have never been so fully explored and this new look at Ross places him among the giants of American intellectual life *Social Control and Public Intellect* will be of interest to sociologists historians and American studies specialists
