American Short Fiction Number 5 Spring 1992 American Short Fiction:

American Short Fiction, Spring 1993 Carlos Eyles, University of Texas Press, 1993-12 American Short Fiction, 1995 The Contemporary American Short-Story Cycle James Nagel, 2004-04-01 James Nagel offers the first systematic history and definition of the short story cycle as exemplified in contemporary American fiction bringing attention to the format's wide appeal among various ethnic groups He examines in detail eight recent manifestations of the genre all praised by critics while uniformly misidentified as novels Nagel proposes that the short story cycle with its concentric as opposed to linear plot development possibilities lends itself particularly well to exploring themes of ethnic assimilation which mirror some of the major issues facing American society today **Handbook of the American Short Story** Erik Redling, Oliver Scheiding, 2022-01-19 The American short story has always been characterized by exciting aesthetic innovations and an immense range of topics This handbook offers students and researchers a comprehensive introduction to the multifaceted genre with a special focus on recent developments due to the rise of new media Part I provides systematic overviews of significant contexts ranging from historical political backgrounds short story theories developed by writers print and digital culture to current theoretical approaches and canon formation Part II consists of 35 paired readings of representative short stories by eminent authors charting major steps in the evolution of the American short story from its beginnings as an art form in the early nineteenth century up to the digital age The handbook examines historically methodologically and theoretically the coming together of the enduring narrative practice of compression and concision in American literature It offers fresh and original readings relevant to studying the American short story and shows how the genre performs American culture The Geographies of African American Short Fiction Kenton Rambsy, 2022-03-25 Perhaps the brevity of short fiction accounts for the relatively scant attention devoted to it by scholars who have historically concentrated on longer prose narratives The Geographies of African American Short Fiction seeks to fill this gap by analyzing the ways African American short story writers plotted a diverse range of characters across multiple locations small towns a famous metropolis city sidewalks a rural wooded area apartment buildings a pond a general store a prison and more In the process these writers highlighted the extents to which places and spaces shaped or situated racial representations Presenting African American short story writers as cultural cartographers author Kenton Rambsy documents the variety of geographical references within their short stories to show how these authors make cultural spaces integral to their artwork and inscribe their stories with layered and resonant social histories The history of these short stories also documents the circulation of compositions across dozens of literary collections for nearly a century Anthology editors solidified the significance of a core group of short story authors including James Baldwin Toni Cade Bambara Charles Chesnutt Ralph Ellison Zora Neale Hurston and Richard Wright Using quantitative information and an extensive literary dataset The Geographies of African American Short Fiction explores how editorial practices shaped the canon of African American short fiction **A Companion to the American Short Story**

Alfred Bendixen, James Nagel, 2020-08-24 *A COMPANION TO THE AMERICAN SHORT STORY* A Companion to the American Short Story traces the development of this versatile literary genre over the past two centuries Written by leading critics in the field and edited by two major scholars it explores a wide range of writers from Edgar Allen Poe and Edith Wharton at the end of the nineteenth century to important modern writers such as Ernest Hemingway William Faulkner F Scott Fitzgerald and Richard Wright Contributions with a broader focus address groups of multiethnic Asian and Jewish writers Each chapter places the short story into context focusing on the interaction of cultural forces and aesthetic principles The Companion takes account of cutting edge approaches to literary studies and contributes to the ongoing redefinition of the American canon embracing genres such as ghost and detective fiction cycles of interrelated short fiction and comic social and political stories The volume also reflects the diverse communities that have adopted this literary form and made it their own featuring entries on a variety of feminist and multicultural traditions This volume presents an important new consideration of the role of the short story in the literary history of American literature **Journal of the Short Story in English** ,1991 East European Accessions List Library of Congress. Processing Department,1954 *Erasing Public Memory* Joseph A. Young, Jana Evans Braziel, 2007 Based on the Race in the Humanities conference held in Nov 2001 at Univ of Wisconsin La Crosse La Crosse Wisconsin **Bone Deep in Landscape** Mary Clearman Blew, 2000-09-01 Blew s reflections on a woman s life in the Rocky Mountain West immerse readers in the landscape of mountains and prairies and of blizzards and scorching sun Blew again demonstrates her artistry and strong connection to the Western terrain of her past and present homes in Montana and Idaho Publishers Weekly 9 illustrations The Cambridge Companion to Willa Cather Marilee Lindemann, 2005-06-09 The Cambridge Companion to Willa Cather offers thirteen original essays by leading scholars of a major American modernist novelist Willa Cather s luminous prose is easy to read yet surprisingly difficult to understand The essays collected here are theoretically informed but accessibly written and cover the full range of Cather s career including most of her twelve novels and several of her short stories The essays situate Cather s work in a broad range of critical cultural and literary contexts and the introduction explores current trends in Cather scholarship as well as the author s place in contemporary culture With a detailed chronology and a guide to further reading the volume offers students and teachers a fresh and thorough sense of the author of *My Antonia* *The Professor s House* and *Death Comes for the Archbishop* The Genesis of the Chicago Renaissance Mary Hricko, 2013-09-05 This study examines the genesis of Chicago s two identified literary renaissance periods 1890 1920 and 1930 1950 through the writings of Dreiser Hughes Wright and Farrell The relationship of these four writers demonstrates a continuity of thought between the two renaissance periods By noting the affinities of these writers patterns such as the rise of the city novel the development of urban realism and the shift to modernism are identified as significant connections between the two periods Although Dreiser Wright and Farrell are more commonly thought of as Chicago writers this study argues that Langston Hughes is a transitional pivotal figure between the

two periods Through close readings and contextualization the influence of Chicago writing on American literature in such areas as realism and naturalism as well as proletarian and ethnic fiction becomes apparent **The Continuum**

Sound-Blind Alex Benson, 2023-11-06 In the 1880s a new medical term flashed briefly into public awareness in the United States Children who had trouble distinguishing between similar speech sounds were said to suffer from sound blindness The term is now best remembered through anthropologist Franz Boas whose work deeply influenced the way we talk about cultural difference In this fascinating work of literary and cultural history Alex Benson takes the concept as an opening onto other stories of listening writing and power stories that expand our sense of how a syllable a word a gesture or a song can be put into print and why it matters Benson interweaves ethnographies memoirs local color stories modernist novels silent film scripts and more Taken together these seemingly disparate texts by writers including John M Oskison Helen Keller W E B Du Bois F Scott Fitzgerald and Elsie Clews Parsons show that the act of transcription never neutral is conditioned by the histories of race land and ability By carefully tracing these conditions Benson argues we can tease out much that has been left off the record in narratives of American nationhood and American literature **WOMEN'S WRITINGS IN THE NINETEENTH AND TWENTIETH CENTURIES** TAISHA ABRAHAM, 2013-03-11 Intended as a text for undergraduate students of English for their course on Women's Writings in the Nineteenth and Twentieth centuries this compact and well organized book provides both the history of the development of the short story in America and Britain and a comprehensive introduction to the modes on critical practices based on feminist thinking It takes into account the strategies used by women writers and discusses the politics of reception and production keeping especially the gender issue in mind The text is divided into three parts Part I Introduction containing two chapters that deal with the development of the American short story and the resurgence of radical feminism in America These provide the historical and the feminist frame within which the short stories by the Anglo American Women's Writers should be read Part II gives four short stories Kate Chopin The Story of An Hour Charlotte Perkins Gilman The Yellow Wallpaper Willa Cather Coming Aphrodite and Katherine Mansfield Bliss Each short story is preceded by a critical introduction detailed references for further reading and a
